

ARTS CONNECT

Arts Connect is a program, in partnership with the Hilltop Artists Program, for girls in Pierce County who are involved with diversion or on community supervision.

- It consists of ten-week sessions in glass, ceramics, photography or other arts at community sites.
- A team of adults, including professional artists and a probation officer, lead these weekly, three-hour classes.
- Hands-on projects are generated from group discussions and writing activities about team-building, getting along with others, healthy lifestyles and a service learning topic.
- A family style dinner is served and girls can arrive up to an hour early for homework help or to talk with mentors.
- Each session the girls choose a community organization to support as their service learning project.
