Passed at the Community  
Development Committee  
on August 4, 2014 on a  
voice vote.

**Committee Amendment No. 23  
Proposed Ordinance No. 2013-45s  
Amethyst**

**Date:** June 17, 2014

**To:** **Community Development Committee**  
Douglas G. Richardson, Vice Chair  
Stan Flemming, Member  
Connie Ladenburg, Member  
Jim McCune, Member

**From:** Rick Talbert, Council District 5

**Hearing Date:** August 4, 2014

**Attachments:** NA

**Subject:** **Aquaculture Monitoring**

---

The following amendment would clarify aquaculture monitoring requirements.

1. On page 44 of Exhibit G, starting on line 5, insert the following new subsection and renumber the remaining subsections accordingly.
12. The duration and frequency of aquaculture monitoring shall be unique to each farm. A monitoring plan shall be submitted consistent with Appendix C: Aquaculture Application Requirements. A monitoring schedule shall be established as a condition of each permit approval. At a minimum, monitoring shall occur prior to bed preparation and prior to subsequent cycles of planting and harvest. More frequent monitoring may be required based on the complexity or intensity of the proposal.
