1 Key Findings

| | |
|-----------|--|
| Finding 1 | Pierce County Parks is well known, and well rated both in terms of favorability and job performance. |
| Finding 2 | At least two thirds think that all but one of the services Pierce County Parks offers is important. When asked about goals for the future, environmentally related items were ranked as the most important, followed by widespread access to parks and trails. |
| Finding 3 | Performance on these same times is good, with the vast majority of items getting a majority of A or B ratings on an A-F scale. |
| Finding 5 | Large swaths of residents regularly use each of Pierce County parks facilities at least occasionally. |
| Finding 6 | <p>A performance-importance gap analysis shows that Pierce County Parks can improve performance on a variety of items for different audiences.</p> <p>For residents overall, Pierce County Parks can improve on Open Space, Regional Trails, and Waterfront Facilities.</p> <p>For high frequency users, Pierce County Parks can improve on Active Recreation Facilities, Regional Trails, and Facilities for League and Sports Teams.</p> |

2 Project Overview

To provide Pierce County Parks and Recreation with opinion research on parks performance, perceptions on how important various services offered are, and park usage.

2.2 Approach

A computer assisted-telephone interviews (CATI) telephone survey was used to contact residents in Pierce County. Interviews were divided between incorporated (150) and unincorporated (250) Pierce County for a total margin of error calculated on 283 usable interviews of ± 5.8 points. The survey was conducted June 9th – 12th, 2013 by trained, professional interviewers from a central, monitored location.

3 Summary of Methodology

This survey was conducted via telephone in Pierce County. Interviews were divided between incorporated (150) and unincorporated (250) Pierce County. For the Countywide results, the total margin of error is calculated at 283 usable interviews for a +/- 5.8 point margin of error. The data was checked against demographics in the area. Minor weighting adjustments were made to ensure the results closely match these demographics.

The survey was conducted June 9th – 12th, 2013. Prior to data collection, an overview of the study's objective, a review of the sample, and question-by-question specifications were supplied to the interviewers and field supervisors. The questionnaire was reviewed in its entirety with the interviewers, with emphasis on instructions regarding call back procedures, respondent screening, termination points, skip patterns, and acceptable probes and clarifications for open-ended questions.

All interviewing was conducted by trained, professional interviewers. Interviewer calls were monitored periodically by the supervisor to ensure that all procedures are being properly followed. Upon completion, each interview was edited twice. The initial editing was done by the interviewer. An experienced supervisor followed up with a second editing. Missing answers and failed instructions were noted. If necessary, respondents were called back to complete or clarify questions. In addition, answers to open-ended questions were checked for legibility, completeness, and clarity. Monitoring and editing ensured that:

- Questions were read exactly as written, in the correct order
- Responses were recorded verbatim
- Skip patterns were followed correctly
- Natural pace was maintained
- Non-directive feedback/reinforcement was used
- Questions were not over-probed or under-probed and non-leading probes were used

Response rates are critical to ensuring the projectability of the sample. The most important factor in achieving a high response rate is callback strategy. Callbacks were made to households where there was no answer, a busy signal, an answering machine or where a callback appointment was made on the first attempt. Additional callbacks were made until the household is either determined to be ineligible or four dialing attempts have been made.

To maximize the likelihood of contacting respondents, interviewing was conducted between the hours of 5:00 p.m. and 9:30 p.m. on week nights. On weekends, calls were conducted between 10:00 a.m. and 9:30 p.m.

3.1 Understanding Margin of Error

The minimum Margin of Error (MoE) for the overall number of interviews (283) survey is ± 5.8 percentage points at the 95% confidence interval. This means that 95 out of 100 times, the reported results will be within ± 5.8 percentage points of the actual results if you were to survey the entire population of Pierce County.

The margin of error for the 150 interviews conducted in Incorporated Pierce County is ± 8.0 percentage points, and ± 6.2 percentage points for the 250 interviews conducted in Unincorporated Pierce County.

The Margin of Error for specific survey questions also depends on the number of possible responses. For some questions, the distribution of responses means the MoE can be significantly higher than the overall. However, for convenience, we use this maximum MoE as a quick way to determine if a result is statistically significant.

When comparing results across subgroups (for example, gender, age, education, etc.), the maximum MoE will grow as the number of individuals in that subgroup decreases. Because Margin of Error increases significantly as sample size decreases, care should be taken when assessing differences between subgroups.

3.2 Questionnaire Design

The intention of this research was to determine the depth of Pierce County resident's current priorities and importance of specific parks programs and other goals of Pierce County Parks and Recreation Services Department (PRS). The survey also measured their use of specific parks, waterfront areas, golf courses, and other areas and trails managed by Pierce County PRS. Respondents were initially asked about their opinions on Pierce County PRS to gauge the level of awareness of the parks services department. As the survey progressed, questions became more specific to the types of services offered within Pierce County.

4 Results

In keeping with the general flow of the survey, all demographic data will be left to the end of the report. Because of the nature of these questions, they will not be covered in detail in this written report. However, the results for these questions can be found in the topline appendix to this report.

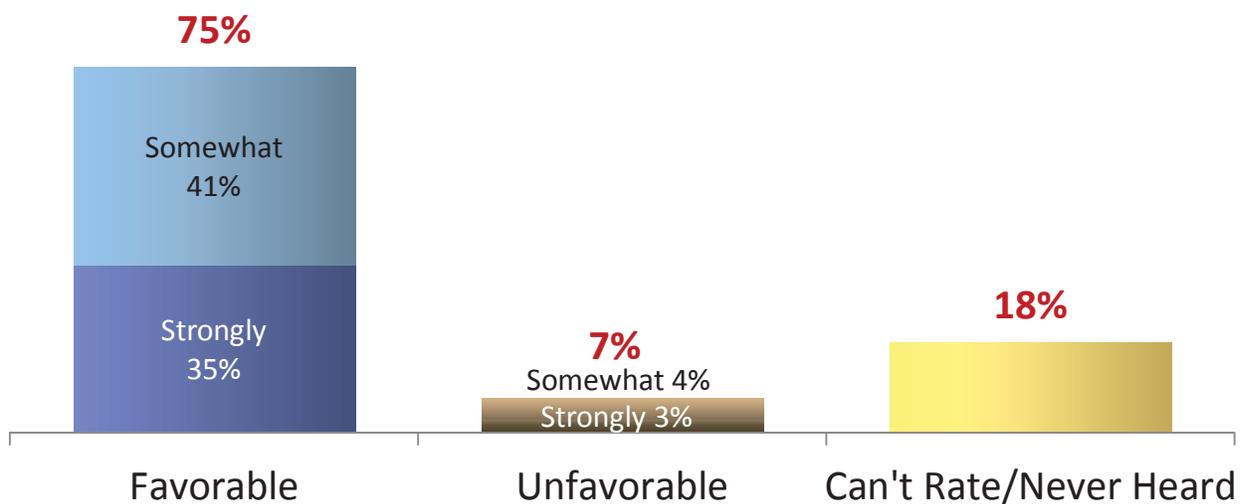

4.1 Baseline Knowledge, Awareness, and Concerns

Respondents were asked to rate their favorability of Pierce County PRS.

Question Analyzed

Q2. Do you have a favorable or unfavorable opinion of...?

Figure 1 –Pierce County PRS Favorability

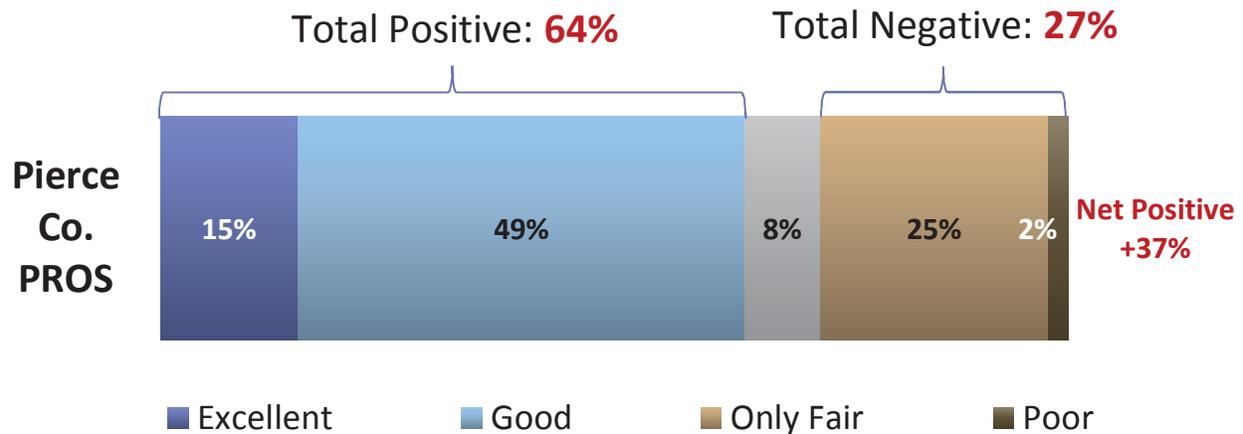

Public agency ratings are considered positive when the ration of favorable to unfavorable opinion is 2 to 1 or better. In this case, Pierce County Parks and Recreation has a significantly higher ratio of over 10 to 1 favorable to unfavorable opinion.

Question Analyzed

Q3. Using a scale of excellent, good, only fair, or poor, how would you rate the overall job Pierce County Parks and Recreation does?

Figure 2 –Job Ratings

This question sought to gauge a baseline or initial rating for Pierce County PRS to set a starting point for message testing and gauge changes in people opinion throughout the survey.

Pierce County PRS has a much higher positive job rating (64%) than negative job rating (27%) leaving it with a net positive rating of 37%. “Net positive” is the percentage who rated Pierce County PRS either Excellent or Good subtracted by those who rated them Fair or Poor. This is a strong job performance rating for a public agency.

In addition, the most extreme ratings, the “Excellent” and “Poor”, are clearly in favor of the positive side of the equation, with excellent ratings significantly higher than poor. In addition, the job performance rating is similar among those over 50 (64% Positive) and under 50 (65%) years old.

Question Analyzed

Q4-13. Pierce County Parks and Recreation developed broad goals to help support its mission of creating healthy opportunities to play, learn, connect with nature, and grow. For each of the following goals, please tell me how important you think that goal is. Use a scale of 1 to 5, where 1 means that it is “not at all important” and 5 means it is “extremely important.”

Respondents were asked a series of questions concerning services offered by Pierce County PRS and were asked to rate how important each one is on a 1 to 5 scale, with 5 being the most important and 1 the least. The graph below shows the most important ratings for the items asked.

Figure 3 –Service Importance

Categories concerning conservation of natural areas and retention of wooded space occupy three of the top four categories, the other being related to family activities. The intensity of importance for the top four items is noticeably higher than the others.

All but one of the items get two-thirds or more to say they are a 5 or a 4, the highest level of importance. This is an indication that the vast majority of items tested are important to a large proportion of residents.

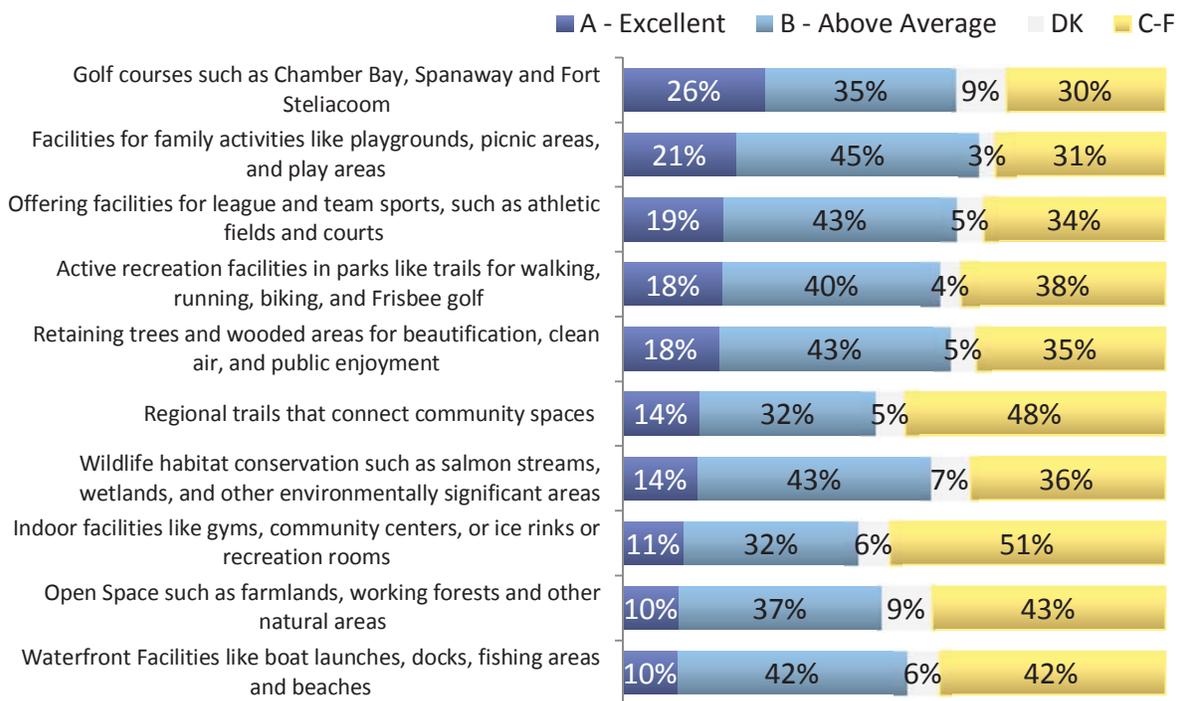

The least important item is golf courses. The total intensity (4 and 5) of importance for this item is barely higher than the lowest “5” rating for the other items tested.

Question Analyzed.

Q14-23. Thinking again about the previous goals, please tell me how well you think Pierce County Parks and Recreation is doing in each area. Use an A thru F grading scale.

The next battery of questions asked about the same categories but asked respondents to assign a grade to Pierce County for its performance on each. Grades were assigned on an A through F scale; where A is excellent, B is above average, C is average, D is below average, and F is failing.

Figure 4 –Service Performance

The categories shown here are ranked based on “A” rating given. Though golf courses are the least important item, they receive among the highest grade. There are a few items where the grade falls below 50% combined for A and B, most noticeably for regional trails, indoor facilities, and open space.

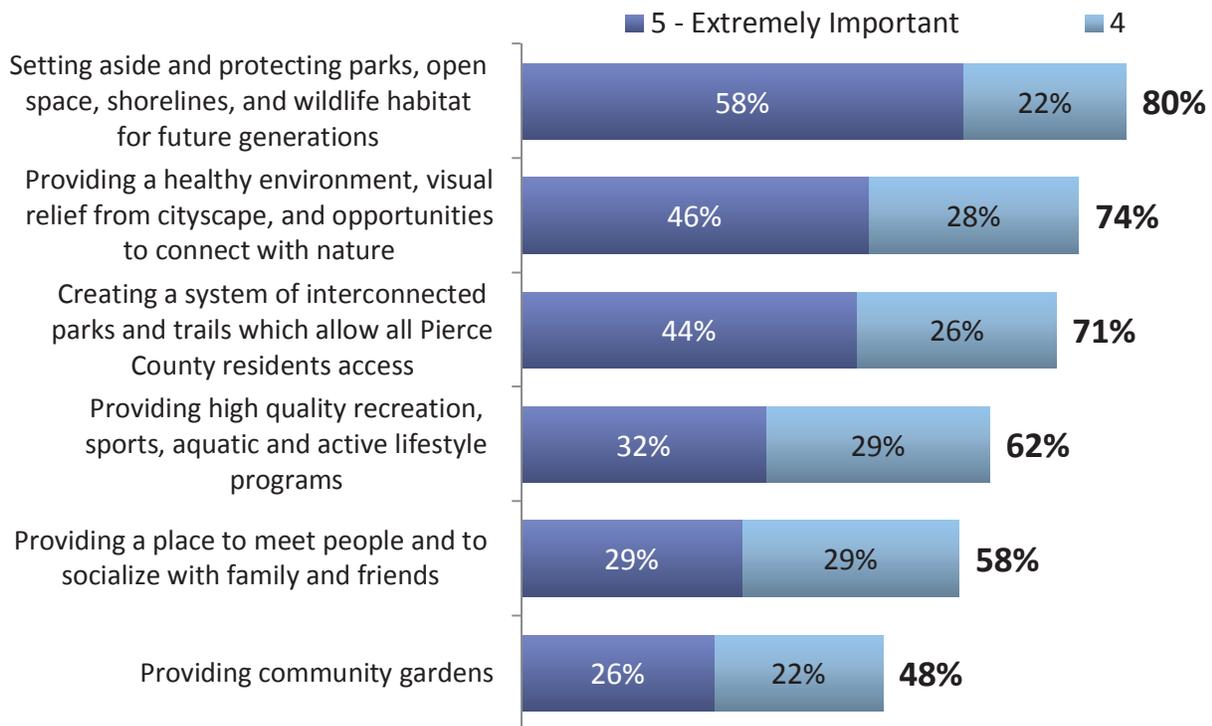

Grade ratings are generally better among those under 50 years old. The smallest difference is on wildlife habitat conservation. But on other ratings, those under 50 are 5 to 17 points more likely to give a positive grade.

Question Analyzed.

Q24-29. I'm going to read you a list of functions and services provided by Pierce County Parks and Recreation. For each one, please tell me how important that particular item is to you and your household. Use a scale of 1 to 5, where 1 means that it is "not at all important" and 5 means it is "extremely important."

We tested the importance of goals and values for Pierce County Parks.

Figure 5 –Service Importance

When placed in the context of importance for goals and values, there is a clearer stacking of the importance of specific things Pierce County might do on Park spending in the future. The highest importance is on environmentally related items, followed by wide access to parks and trails.

Those under 50 years old tend to give higher importance ratings to these services than those over 50 years old.

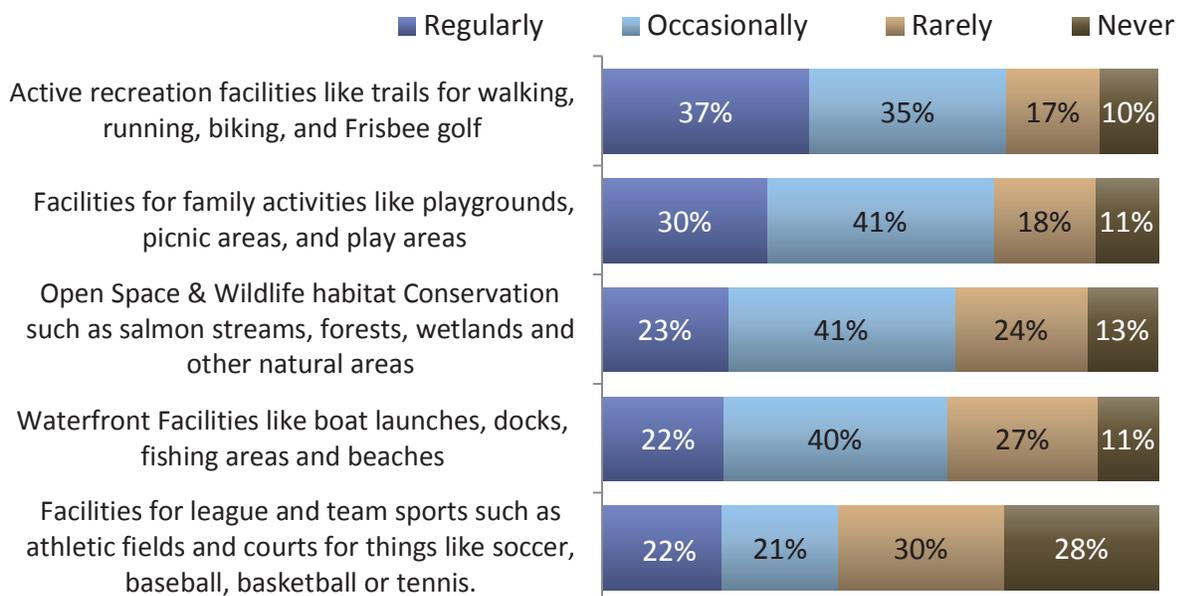

4.2 Pierce County Parks and Facility Usage

Question Analyzed.

Q30-34. Knowing that some usage is seasonal or weather dependent, how often would you say that you or someone in your household uses the following types of parks and or recreational facilities?

Our last series of questions was concerned with use. Respondents were asked how often they used certain types of parks and facilities using a scale of “Regularly”, “Occasionally”, “Rarely” and “Never”.

Figure 6 –Usage of Facilities

“Active recreation facilities” use ranked highest at 37% regular use. However, large swaths of residents use each of the facilities at least occasionally. The facilities with the highest “never” answer are facilities for league and team sports. More than a quarter (28%) don’t use these facilities.

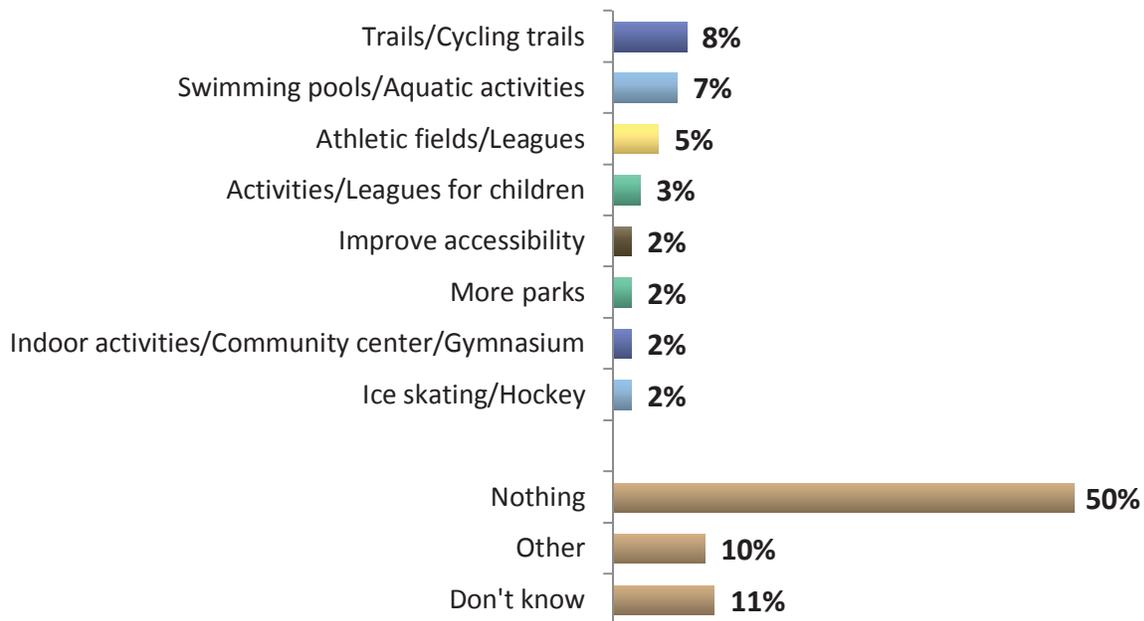

Usage of park facilities is higher among those under 50 years old, and in some cases usage is significantly higher. For example, 40% of those under 50 years old say they regularly use facilities for family activities like playgrounds, picnic areas, and play areas. Only 19% of those over 50 years old say the same.

Question Analyzed.

Q35. What specific active lifestyle and recreation programs would you like to see that aren't currently being offered?

Question 35 was posed as an open ended question, allowing respondents to voice which programs they would like to see offered that are not currently available.

Figure 7 –Concerns with Reclaimed Water in Groundwater

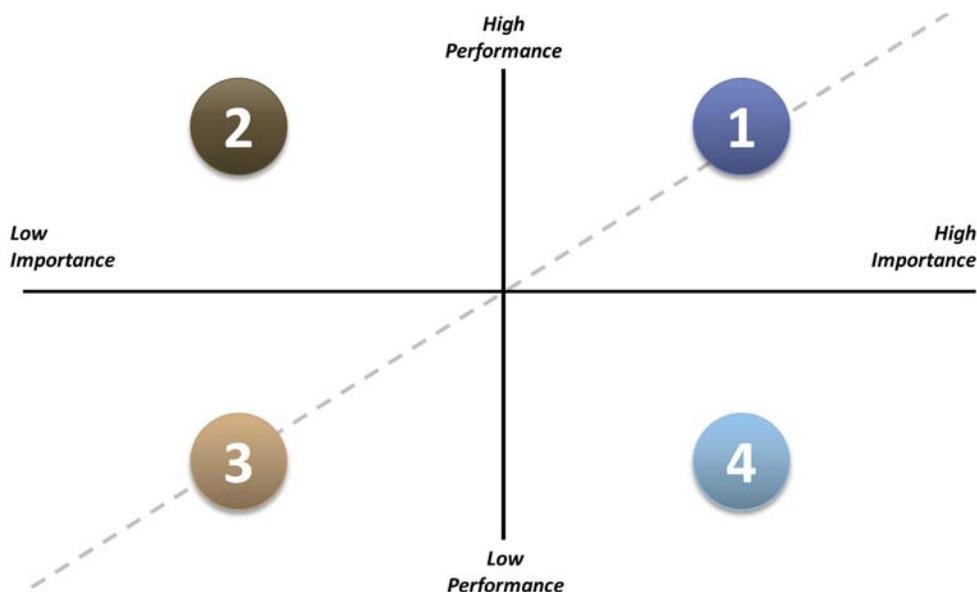

In open-ended questions, responses totaling or near 10% are typically considered significant. There are a few ways to combine answers to create larger categories, but individually the highest percentage (besides nothing) is trails and/or bicycle trails. Of the top 3 categories, all consist of active programs that require energy and movement.

4.3 Importance & Performance – Quadrant Analysis

Plotting the importance and performance on a quadrant chart allows items to be categorized in the following ways:

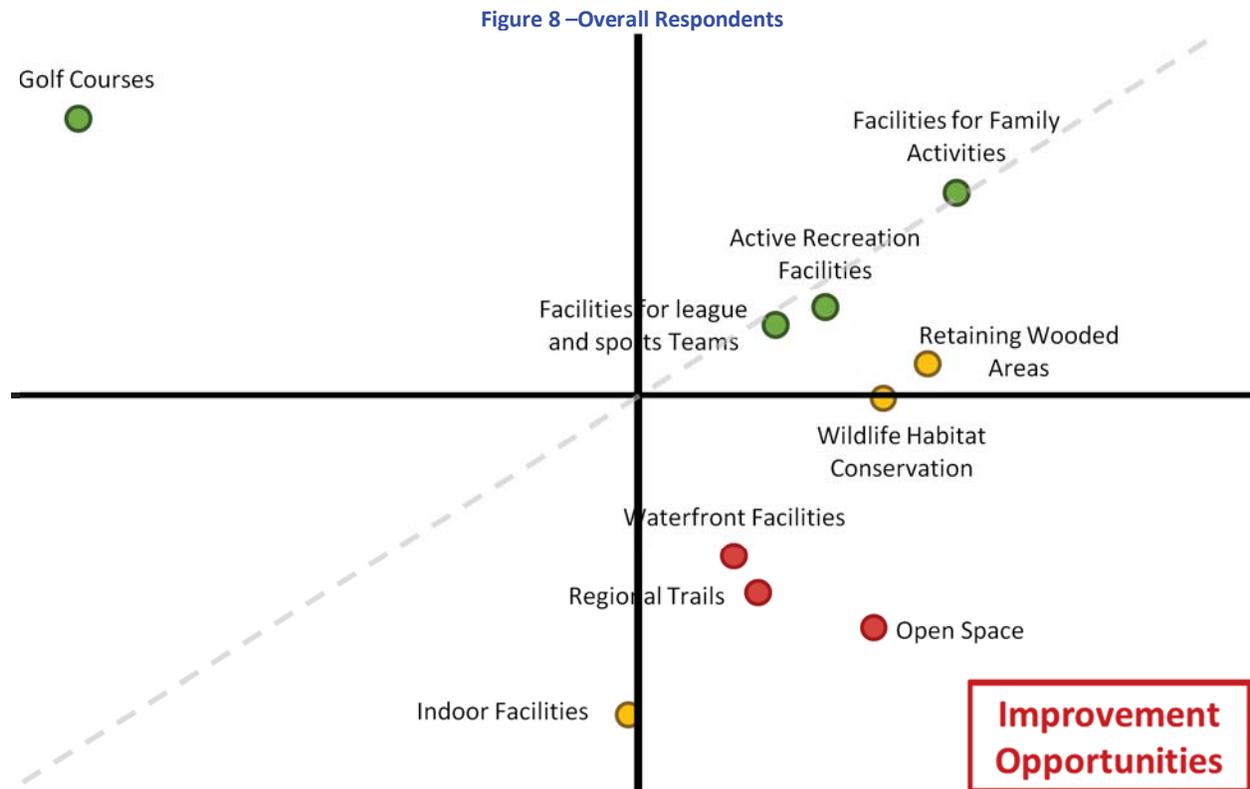

- 1) **High Importance & Performance** (top-right quadrant) – These are the services that residents view as very important and that PRS is doing best with. Items in this category should be considered PRS’s **most valued strengths**.
- 2) **Low Importance, High Performance** (top-left quadrant) – This quadrant represents services that citizens think PRS is doing well with but are believed to be less important. While items in this quadrant can be considered successes with certain niche groups, for most citizens, they are **not major drivers** of PRS’s favorability.
- 3) **Low Importance & Performance** (bottom-left quadrant) – Services in this category are **low-priority items** for residents and so lower performance here is not a critical issue for them. Some of these items may be raised by a vocal minority of residents but, for the most part, focusing too much on them will have a minimal impact on improving overall attitudes about PRS.
- 4) **High Importance, Low Performance** (top-left quadrant) – Services falling into this category should be viewed as **opportunities for improvement**. These are the items that residents feel are very important but PRS could be doing better with. Improving the services in this quadrant will have the greatest effect in improving citizens’ overall favorability of the PRS.

The diagonal line overlaying the chart represents where the ideal performance should be relative to the level of importance. Services falling on or near this line are performing optimally compared to how citizens value them. Items significantly left of the line may be potentially valuable improvement opportunities (even if they appear in quadrants 1 or 3) while items far right of the line may result in wasted resources if given too much focus.

Question Analyzed.*Overall Gap Analysis*

This quadrant graph displays the importance vs. performance analysis for all respondents.

Based on the above data points, there are three distinct areas that all the respondents say are high importance, and are low performing (in order from worst to best performance): Open Space, Regional Trails, and Waterfront Facilities.

Retaining Wooded Areas, Wildlife Habitat Conservation, and Indoor Facilities are also areas for improvement.

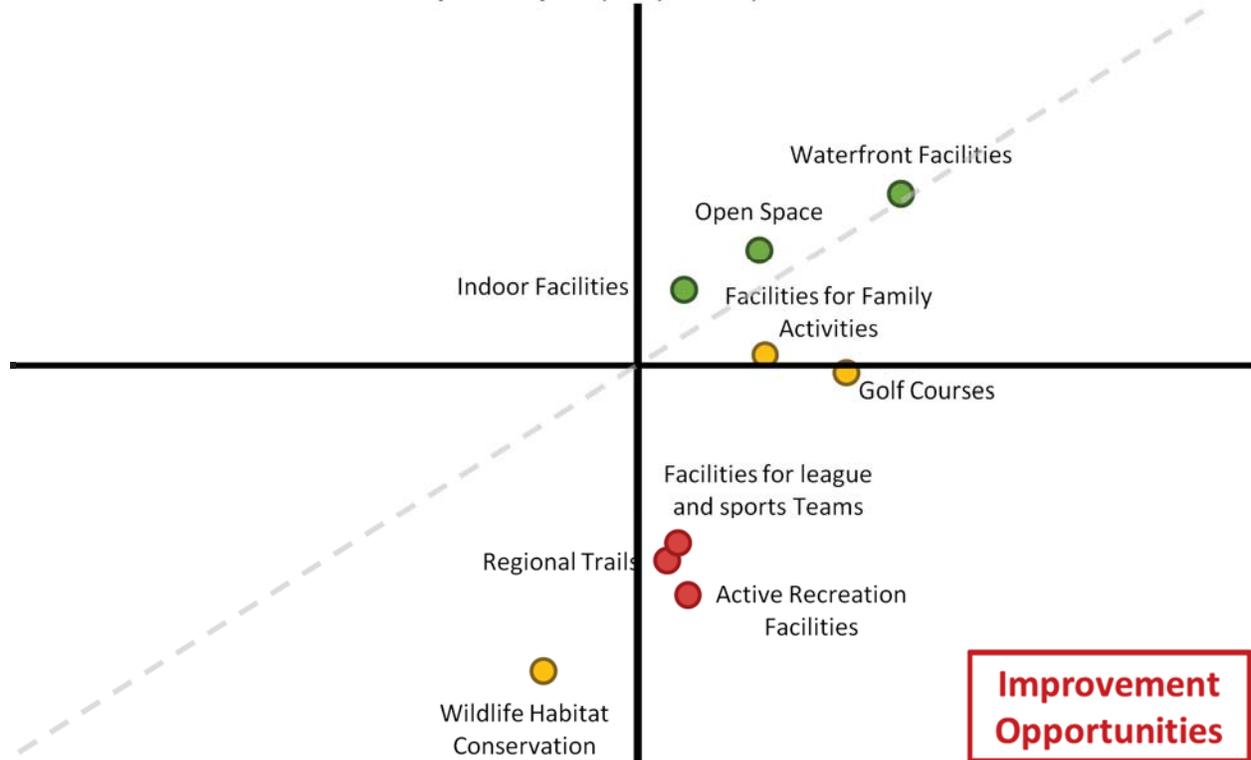

The items in green are performing close to their level of importance.

Question Analyzed.

High Frequency Users Gap Analysis

A high frequency user is defined as someone who answered “Regularly” or “Occasionally” to facilities usage. The chart below looks at how high frequency users think about the same set of priorities versus importance.

Figure 9 –High frequency user respondents

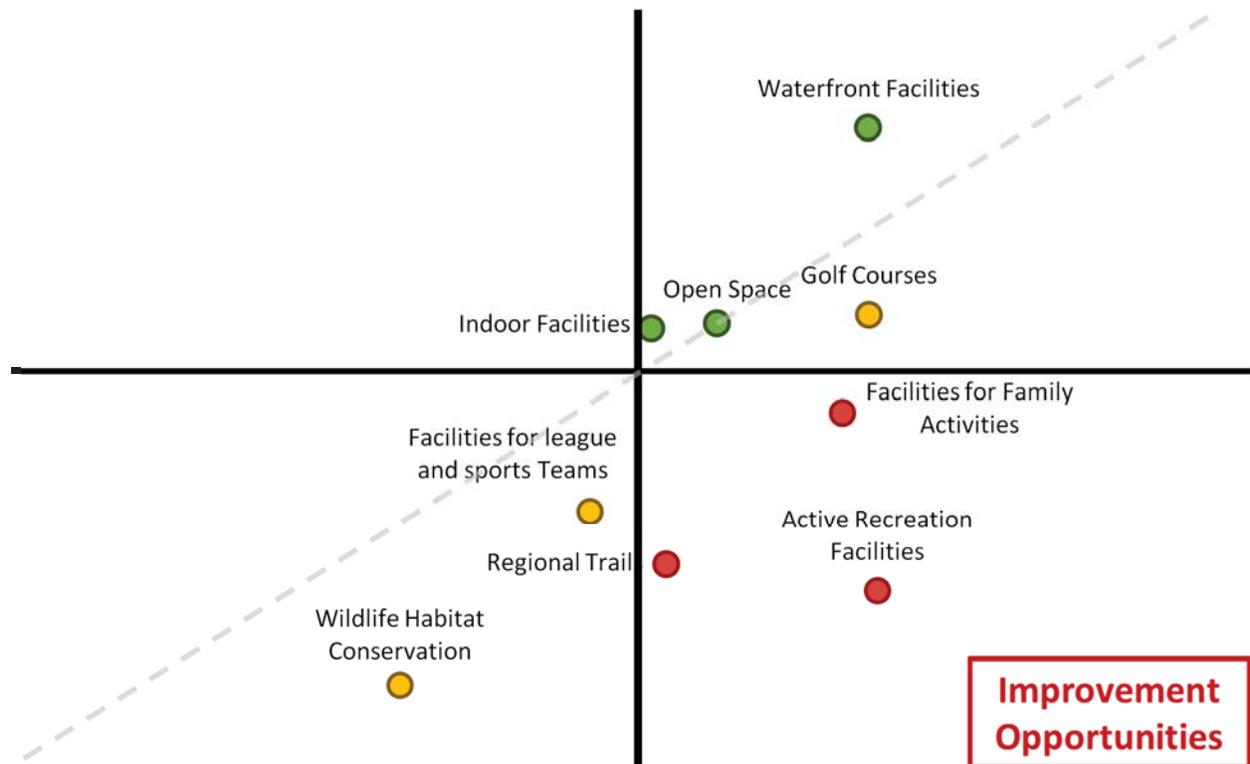

There is a shift in priority among the frequent user demographic as compared with all respondents. While this sample size is smaller than all residents, it speaks to the difference in priorities between frequent users and everyone else.

Question Analyzed.*Low Frequency User Gap Analysis.*

A low frequency user is defined as a person who answered “Rarely” or “Never” to facilities usage.

Figure 10 –Low frequency user respondents

This chart shares much more in common with the overall; but there are still noticeable differences and areas for improvement.

Low frequency users see active recreation facilities as the number one improvement area, with facilities for family activities close behind, and regional trails as well. The key difference is facility usage for activity (high frequency users), and facility usage for casual/relaxation purposes (low frequency users).

5.1 Survey with Results

Pierce County PRS

Telephone Survey of Pierce County Residents

June 9th – 12th 2013
 n=283; MOE =+5.8
 EMC #13-4878

Oversample in unincorporated Pierce County n=250 MOE ± 6.2
Incorporated Pierce County n=150 MOE ± 8.0

Hello, my name is _____, may I speak with **(NAME ON LIST)**.

Hello, my name is _____, and I'm conducting a survey for EMC Research to find out how people in Pierce County feel about some of the different issues facing them. We are not trying to sell anything, and are collecting this information on a scientific and completely confidential basis.

1. **SEX (RECORD BY OBSERVATION)**

| | |
|--------|-----|
| Male | 47% |
| Female | 53% |

To get started, I'd like to ask your opinion of some organizations.

Do you have a favorable or unfavorable opinion of...{Qxx}? **(IF RESPONSE IS FAVORABLE/UNFAVORABLE THEN ASK FOLLOWUP: "Is that Strongly or Somewhat Favorable/ Unfavorable?") (IF RESPONSE IS "Don't know" THEN ASK FOLLOWUP: "Have you heard of them but can't rate them, or would you say you have never heard of them?")**

| SCALE: | Strongly favorable | Somewhat favorable | Somewhat unfavorable | Strongly unfavorable | Heard of, Can't rate | Never Heard |
|---------------|---------------------------|---------------------------|-----------------------------|-----------------------------|-----------------------------|--------------------|
|---------------|---------------------------|---------------------------|-----------------------------|-----------------------------|-----------------------------|--------------------|

2. Pierce County Parks and Recreation Department

| | | | | | |
|-----|-----|----|----|-----|----|
| 34% | 41% | 4% | 3% | 15% | 3% |
|-----|-----|----|----|-----|----|

[END RANDOMIZE]

3. Moving on, using a scale of excellent, good, only fair, or poor, how would you rate the job the Pierce County Parks and Recreation Department is doing overall?

| | | |
|--------------------|-----|-------|
| Excellent | 15% | |
| Good | 49% | ➔ 64% |
| Only fair | 25% | ➔ 27% |
| Poor | 2% | |
| Don't know/refused | 8% | |

Based on extensive community input, Pierce County Parks and Recreation developed broad goals to help support its mission of creating healthy opportunities to play, learn, connect with nature, and grow. For each of the following goals, please tell me how important you think that goal is for Pierce County Parks and Recreation. Use a scale of 1 to 5, where 1 means that it is “not at all important” and 5 means it is “extremely important.”

| SCALE: | 1 | 2 | 3 | 4 | 5 | Don't know/Refused | Mean | |
|--|--|-----|-----|---------------------|-----|-----------------------|-------------|--|
| | Not at all important | | | Extremely Important | | | | |
| (BEFORE EACH: How important (INSERT QX)) | | | | | | | | |
| (AFTER EACH IF NECESSARY- 1 is “not at all important” and 5 is “extremely important”) | | | | | | | | |
| [RANDOMIZE] | | | | | | | | |
| 4. | is Offering facilities for league and team sports, such as athletic fields and courts for things like soccer, baseball, basketball or tennis | | | | | | | |
| | 2% | 3% | 20% | 30% | 45% | 0% | 4.12 | |
| 5. | are Active recreation facilities in parks like trails for walking, running, biking, and Frisbee golf | | | | | | | |
| | 1% | 4% | 16% | 34% | 46% | 0% | 4.20 | |
| 6. | are Regional trails that connect community spaces that can be used for commuting, exercising, or getting around without a car | | | | | | | |
| | 3% | 5% | 15% | 30% | 45% | 1% | 4.10 | |
| 7. | are Facilities for family activities like playgrounds, picnic areas, and play areas | | | | | | | |
| | 1% | 1% | 8% | 35% | 54% | 0% | 4.40 | |
| 8. | are Indoor facilities like gyms, community centers, or ice rinks or recreation rooms | | | | | | | |
| | 3% | 7% | 21% | 33% | 35% | 1% | 3.90 | |
| 9. | are Golf courses such as Chamber Bay, Spanaway and Fort Steliacoom | | | | | | | |
| | 17% | 17% | 27% | 19% | 19% | 1% | 3.05 | |
| 10. | are Waterfront Facilities like boat launches, docks, fishing areas and beaches | | | | | | | |
| | 2% | 2% | 23% | 31% | 41% | 0% | 4.06 | |
| 11. | are Open Space such as farmlands, working forests and other natural areas | | | | | | | |
| | 2% | 4% | 13% | 27% | 54% | 0% | 4.28 | |
| 12. | are Wildlife habitat conservation such as salmon streams, wetlands, and other environmentally significant areas | | | | | | | |
| | 3% | 3% | 14% | 23% | 58% | 0% | 4.29 | |
| 13. | is Retaining trees and wooded areas for beautification, clean air, and public enjoyment | | | | | | | |
| | 2% | 4% | 12% | 20% | 62% | 0% | 4.36 | |
| [END RANDOMIZE] | | | | | | | | |

Thinking again about the previous goals, please tell me how well you think Pierce County Parks and Recreation is doing in each area. Use an A thru F grading scale where **A** means Excellent, **B** means Above Average, **C** is Average, **D** is Below Average, and **F** is Failing.

| SCALE: | A Excellent | B Above Average | C Average | D Below Average | F Failing | Refused | GPA | |

| | |
|---|-----|
| 36. Can you safely access the nearest public park or trail via foot, bicycle, or public transportation? | |
| Yes | 76% |
| No | 24% |

Finally, I'd like to ask you a few questions for statistical purposes only.

| | |
|--|-----|
| 37. Including yourself, how many people live in your household? [RECORD NUMBER] | |
| 1 | 11% |
| 2 | 34% |
| 3 | 19% |
| 4+ | 33% |
| Refused | 2% |

[IF Q38=1 OR 98, SKIP TO Q39]

| | |
|---|-----|
| 38. And how many of those people are children under the age of 18? [RECORD NUMBER] | |
| 0 | 51% |
| 1 | 13% |
| 2 | 14% |
| 3+ | 22% |
| Refused | 0% |

| | |
|--------------------------------------|-----|
| 39. Do you have a cell phone or not? | |
| Yes | 86% |
| No | 11% |
| Refused | 3% |

[IF Q40=2 OR 3, RESPONDENT DOES NOT HAVE CELLPHONE, SKIP TO Q42]

| | |
|---|-----|
| 40. How much do you rely on your cell phone? Would you say you rely on your cell phone (READ LIST) | |
| All the time – it's your only phone | 22% |
| A great deal – it's your primary phone | 31% |
| Some – you use it occasionally | 29% |
| Very little – you mostly have it for emergencies | 16% |
| Don't know | 0% |
| Refused | 0% |

[RESUME ASKING EVERYONE]

41. For statistical purposes, what year were you born?

| | |
|-------|-----|
| 18-29 | 16% |
| 30-39 | 17% |
| 40-49 | 18% |
| 50-64 | 29% |
| 65+ | 20% |

FINISH. Those are all of my questions. Thank you very much for completing this survey. Again, this survey was for informational purposes only. Thank you and have a good day.

Overview

Pierce County has been developing updates to Community Plans for Parkland-Spanaway-Midland, Mid-County, Frederickson, and South Hill (see map in sidebar). The Community Plans contain area-specific policies and strategies designed to address community character, managing growth, and providing for parks, transportation, and other infrastructure and services. In May and June 2017, Pierce County scheduled public open houses, and conducted an online survey that has continued through September 2017.

Pierce County Parks and Recreation (PCParks) staffed open houses and contributed online survey questions. This document is prepared with responses as of September 4, 2017, to help inform draft Community Plan amendments and to support an urban park analysis in the unincorporated Urban Growth Area (UGA).

Favorite Park

The first park-specific question asked respondents to select their favorite park located within four Community Planning Areas: Parkland-Spanaway-Midland, Mid-County, Frederickson, and South Hill. Three of these four study areas are in the Central Pierce unincorporated UGA.

Most recipients' favorite parks included Spanaway Lake Park, South Hill Community Park, and Frontier Park. By Community Plan Area, the results show an affinity for parks within one's own community plan area in the case of Parkland-Spanaway-Midland and South Hill.

Question 32: Select your favorite park from the drop-down list.

Exhibit 1. Favorite Park Sorted by Most to Least Responses

| Park | Num. Responses | Percent |
|----------------------------|-----------------------|----------------|
| Spanaway Lake Park | 102 | 23% |
| South Hill Community Park | 86 | 20% |

Facilities or Programs Desired at Favorite Park

Question 33. For the park you selected, what types of facilities or programs would you like to see added there?

The following word clouds identify key words in the open-ended responses showing desired features in favorite parks. For the full open ended responses see Appendix A.

Trails, walking, community spaces, spray parks and water facilities, dog parks, and other family activities are highlighted words across several parks.

Public Meeting Results: Want to do or have in Parks

WHAT DO YOU WANT TO DO IN YOUR PARKS?

A topic at the workshops focused on recreation activities and events, asking “what do you want to do in your parks?” The top priority items were community oriented events such as concerts/festivals and farmers’ markets. A top class was gardening. Also in the top five were organized sports leagues.

1. Concerts in the Parks
2. Farmers Market
3. Festivals/Fairs/Shows
4. Gardening Classes
5. Organized Sports Leagues

There was a relatively higher number of persons asking that the programs be designed for families.

Exhibit 4. What do you want to do in your parks?

| What Do You Want to Do in Your Parks? | EVENT | Programs Designed For | | | Priority | | |
|---|---|-----------------------|-------|--------|----------|------------|------|
| | | Youth | Adult | Family | Low | Don't Know | High |

Activities and priorities by park are included in Appendix B. Top five results by Community Plan Area are like the general results above with emphasis on community events such as concerts and movies, individual events such as fun runs and guided trips and classes, and less on athletics. The Parkland-Spanaway-Midland area is unique in highlighting “Pitch In for Parks” Volunteer Opportunities as a high priority. Hiking/backpacking is uniquely identified for Frederickson. Parkland-Spanaway-Midland and South Hill both reference organized sports, whereas Frederickson and Mid-County do not.

WHAT DO YOU WANT TO HAVE IN YOUR PARKS?

The kind of facilities that the public want to have in their parks matches the online survey with the emphasis on walking paths, trails, as well as community event space, picnic shelters, and playgrounds.

The level of priority generally matched dollars allocated in budgets, except that fewer felt more passionate about certain facilities and gave more funds, such as off-leash dog areas and mountain bike trails.

Exhibit 6. What do you want to have in your parks?

| What Do You Want to Have in Your Parks? | Priority | | | \$100 to Spend |
|---|----------|------------|------|----------------|
| | Low | Don't Know | High | |
| Walking Paths in Parks | 1 | 2 | 26 | \$327.00 |
| Picnic Shelters | | 1 | 25 | \$135.00 |
| Nature Trails | 1 | 5 | 23 | \$94.00 |

Ranking Facilities to Include in Area Parks

Question 34. Think about the types of things you or your family would like to do at the parks in your area. Tell us what types of facilities you would like included in area parks by ranking them. Choose 1 star for the items you least want and 5 stars for those you want most.

Respondents could rank the kinds of facilities they wanted to see in the area parks. The average and median rankings are included below. Walking paths, nature trails, and playgrounds are higher ranked facilities.

Respondents could also fill in their own description of facilities they wanted to see, and those responses are included in Appendix C.

Exhibit 8. Rank – Types of Facilities to Include in Parks [shaded – items above 4.0]

| Facility | Num. Responses | Average | Median |
|------------------------------------|----------------|---------|--------|
| Ballfields | 367 | 2.75 | 3 |
| Basketball courts | 383 | 2.64 | 3 |
| BMX tracks | 353 | 1.82 | 1 |
| Climbing walls | 379 | 2.86 | 3 |
| Community event space | 401 | 3.68 | 4 |
| Community gardens | 402 | 3.41 | 4 |
| Concessions or food trucks | 385 | 2.85 | 3 |
| Disk golf courses | 362 | 2.15 | 2 |
| Equestrian trails | 358 | 2.03 | 1 |
| Fishing piers | 368 | 2.64 | 3 |
| Futsal courts (small soccer court) | 362 | 2.21 | 2 |
| Meadows/open lawn areas | 410 | 3.95 | 4 |
| Mountain bike trails | 372 | 2.83 | 3 |
| Nature trails | 426 | 4.38 | 5 |
| Off-leash dog areas | 388 | 3.20 | 3 |
| Outdoor exercise equipment | 367 | 2.86 | 3 |
| Outdoor volleyball courts | 368 | 2.37 | 2 |
| Pickleball courts | 361 | 1.94 | 1 |

| Facility | Num. Responses | Average | Median |
|-------------------------------------|----------------|---------|--------|
| Playgrounds | 405 | 4.15 | 5 |
| Skate parks | 362 | 2.29 | 2 |
| Spray parks | 381 | 3.50 | 4 |
| Swimming beach access | 373 | 3.32 | 3 |
| Tennis courts | 372 | 2.56 | 2 |
| Trails connecting parks and schools | 377 | 3.67 | 4 |
| Walking paths in parks | 425 | 4.54 | 5 |
| Wifi | 362 | 2.67 | 2 |
| Ziplines | 355 | 2.70 | 3 |

Walking paths in parks are highly rated across all the Community Plan areas. Nature trails, meadows/open lawn, playgrounds, and community event space are also highly rated in the “top five” with some variation in the order.

Park Budget

35. Imagine that \$100 represents the budget for new facilities in parks. You can spend the full budget on one thing, or you can distribute it among several things. What do you think is most important? Distribute your \$100 budget over those facilities you think are most important, but don't spend any more than \$100.

Higher average budgets are aligned with the top desired facilities in area parks such as nature trails, community gardens, walking paths, off-leash dog areas, and playgrounds.

Exhibit 11. Park Budget – Respondents Most Important Facilities [shaded – items above \$15]

| Facility | Num. Responses | Average | Median |
|------------------------------------|----------------|---------|---------|
| Ballfields | 92 | \$13.63 | \$6.00 |
| Basketball courts | 92 | \$11.24 | \$5.00 |
| BMX tracks | 66 | \$5.64 | \$4.00 |
| Climbing walls | 94 | \$10.12 | \$5.00 |
| Community event space | 156 | \$16.74 | \$10.50 |
| Community gardens | 170 | \$19.41 | \$15.00 |
| Concessions / food trucks | 123 | \$16.30 | \$10.00 |
| Disk golf courses | 78 | \$7.17 | \$5.00 |
| Equestrian trails | 60 | \$4.27 | \$2.50 |
| Fishing piers | 76 | \$9.32 | \$5.00 |
| Futsal courts (small soccer court) | 66 | \$7.89 | \$5.00 |
| Meadows / open lawn areas | 150 | \$15.72 | \$10.00 |
| Mountain bike trails | 104 | \$11.29 | \$10.00 |
| Nature trails | 195 | \$20.30 | \$15.00 |
| Off-leash dog areas | 162 | \$17.92 | \$10.00 |
| Outdoor exercise equipment | 101 | \$13.06 | \$10.00 |
| Outdoor volleyball courts | 59 | \$6.07 | \$2.00 |
| Pickleball courts | 48 | \$3.00 | \$1.00 |
| Playgrounds | 159 | \$17.71 | \$15.00 |

| Facility | Num. Responses | Average | Median |
|-------------------------------------|----------------|---------|---------|
| Skate park | 93 | \$16.03 | \$10.00 |
| Spray park | 112 | \$16.29 | \$10.00 |
| Swimming beach access | 104 | \$11.83 | \$10.00 |
| Tennis courts | 76 | \$8.41 | \$5.00 |
| Trails connecting parks and schools | 93 | \$9.48 | \$10.00 |
| Walking paths in parks | 185 | \$18.59 | \$15.00 |
| Wifi | 91 | \$10.92 | \$10.00 |
| Zipline | 70 | \$6.70 | \$5.00 |

By Community Plan Area, average budget results show more variation than ratings but still a preference for informal facilities associated with individual activities such as trails, dog walking, gardens, and with community-based facilities. Less budget amounts are associated with athletic fields with a couple of exceptions for ballfields and tennis.

- In **Frederickson**, most allocated some budget to the top trail/walking features, playgrounds and spray parks, community event space, and community gardens similar to highly rated facilities. However, fewer persons felt strongly about a couple of facilities and gave higher amounts driving up averages for concessions/food trucks and community gardens.
- In **Mid-County**, there is more most allocated higher average budget amounts for nature trails, playgrounds, walking paths, meadows, and unusually tennis courts.
- In **Parkland-Spanaway-Midland**, most respondents applied higher budgets to informal and community-oriented activities such as community gardens, off-leash dog areas, walking paths, meadows, swimming beach access, and concessions.
- **South Hill** showed a higher average budget for nature trails, off-leash dog areas, meadows, and ballfields.

Exhibit 12. Average Budget out of \$100 for Park Facilities by Community Plan Area

Great Ideas for Park System

36. We would like to hear your comments and great ideas for the Pierce County Parks system.

Below is a word cloud representing key words in open-ended responses about comments and great ideas for the Pierce County Parks System. Full responses are included in Appendix D.

Exhibit 13. Word Cloud Comments and Great Ideas for the Pierce County Parks System – Open Ended Responses

Appendix A. Favorite Park Desired Facilities or Programs

Question 33. Open Ended Responses: For the park you selected, what types of facilities or programs would you like to see added there?

| | | |
|-----|------------------|--|
| 1. | Bresemann Forest | Crosswalk or safe connection to Spanaway Park. |
| 2. | Bresemann Forest | Not sure, just moved to the area |
| 3. | Bresemann Forest | Signage |
| 4. | Bresemann Forest | It has been awhile since I've been there but I recall that it was quite a walk to the restrooms at Sprinker from the forest. Maybe some on the other side of the fields could be helpful. |
| 5. | Bresemann Forest | Nothing |
| 6. | Bresemann Forest | Safer trails. |
| 7. | Bresemann Forest | None, and take out the dam. |
| 8. | Bresemann Forest | None I love it as is |
| 9. | Bresemann Forest | connected bike/ped path to other areas. |
| 10. | Bresemann Forest | Naturalist program/nature walks |
| 11. | Bresemann Forest | Extending the property of Bresemann Forest even larger. |
| 12. | Bresemann Forest | NA |
| 13. | Bresemann Forest | The walking trails in the forest, the creek and old mill. The rock to climb |
| 14. | Bresemann Forest | Bathrooms |
| 15. | Bresemann Forest | Picnic tables, trail markers to point you in the direction |
| 16. | Bresemann Forest | Better safety, and enforcement. Often find teens drinking and doing drugs in the woods. I extensively use all of the parks. Off leash dogs are a problem at all of them and no enforcement over picking up after them. Litter is also a concern. |
| 17. | Bresemann Forest | none, I like it the way it is. |
| 18. | Bresemann Forest | Some direction posts along the trails, a la Point Defiance walking trails. An outdoor restroom near the forest/ Spire Rock. |
| 19. | Bresemann Forest | A few more trails |
| 20. | Bresemann Forest | Preservation of natural features |
| 21. | Bresemann Forest | Bresemann Forest is NOT a park per se, but a forested 60+acres. I would like to see more educational programs for stewardship of the forest and more protection of the creek and forest. |
| 22. | Bresemann Forest | I need nothing to walk in the woods. keep it clean and free of invasive species. |
| 23. | Cross Park | Nature trails Off-leash dog areas Walking paths in parks Trails connecting parks and schools Community event space Playgrounds |

| | | |
|-----|------------------|---|
| 24. | Cross Park | Phase #1 Community center/ kiddie park Phase #2,#3,#4 |
| 25. | Cross Park | people friendly trails with benches to watch wetlands and stream. A community center free to 501c3's. Support the community volunteers. |
| 26. | Cross Park | More facilities, picnic tables, space for gatherings, playground, trails |
| 27. | Cross Park | walking paths, good lighting, play areas, |
| 28. | Cross Park | Activities for toddlers and school age kids. |
| 29. | Cross Park | Softball and Soccer fields. |
| 30. | Cross Park | 1. Play area 2. Bathrooms 3. Splash Pad |
| 31. | Cross Park | The usual plus wading pool for kiddies. |
| 32. | Cross Park | Nature trail to allow for more people to enjoy the site, but keeping them out of sensitive areas (wetlands, prairie). |
| 33. | Cross Park | Water amenities, pavilions, nature trails, lots of picnic spaces, and of course, play areas for my little ones, for various age groups. |
| 34. | Cross Park | Dog park |
| 35. | Cross Park | Community Center Playground Picnic area Nature trails Ballfields |
| 36. | Cross Park | Funding and breaking ground. Public playground Meeting space. Trails Sports fields |
| 37. | Cross Park | Bathrooms! Paved walking around/along water feature suitable for stroller/wheelchair. Open fields (mowed) for outdoor games, picnics. |
| 38. | Cross Park | Need to be developed for community use. A no cost community center to allow citizens to gather for meeting as being a part of the government not apart from the government. Clearly the people enjoy the open space they are denied in the new developments. May have to consider a bus service to improve usage. |
| 39. | Cross Park | Parking, develop the park to make it what it's intended to be. |
| 40. | Dawson Playfield | Any. Parks has let this park go to waste |
| 41. | Dawson Playfield | Baseball Field repaired |
| 42. | Dawson Playfield | After school programs |
| 43. | Dawson Playfield | a police substation, so that just their presence will help cut the daily drug deals, prostitution and crime that goes on not only at that park but the surrounding areas. |
| 44. | Dawson Playfield | Youth and senior |
| 45. | Dawson Playfield | Spray park. At one time in the past there was a pool. That could help provide some plumbing and a spray park does not require lifeguards. Kids living in area have no close water activities. Also, crosswalks across Portland Ave near the park for safer walking. |
| 46. | Dawson Playfield | The community would like to hold a community sale at Dawson, but we've been told we can't do that at Dawson. I, personally, have wanted to hold an acoustic music fest & art/crafts fair at Dawson, but have been told I can't. I wanted to hold a public Easter Egg Hunt event at Dawson, and was told no. That should provide an idea of what I'd like to see Dawson park be allowed to be used for - for "community organized" events. |
| 47. | Dawson Playfield | Well maintained park that is family friendly and safe. |

| | | |
|-----|------------------|--|
| 48. | Dawson Playfield | updated bathrooms regular swings for older children leave a large open grass area PLEASE |
| 49. | Dawson Playfield | More toddler activities. |
| 50. | Dawson Playfield | would like spraypark. |
| 51. | Dawson Playfield | Maintenance of ball field and walking trails. |
| 52. | Dawson Playfield | picnic area |
| 53. | Frontier Park | Families would be more free to enjoy the park if it were patrolled more often to keep homeless/vagrant population to a designated area. |
| 54. | Frontier Park | Ball fields |
| 55. | Frontier Park | Nothing. Leave it the way it is. |
| 56. | Frontier Park | I like what is already there. |
| 57. | Frontier Park | Nothing to add |
| 58. | Frontier Park | More walking trails that are paved and better identified. The park need to move away from horse stalls and choose things that better serve the updated community. A splash park would be nice and improve parking. Also, across from the park on the east side of Meridian people park in the gravel. Sidewalks need to be added to the side of Meridian along with a better crosswalk system. |
| 59. | Frontier Park | Community pool or spray park |
| 60. | Frontier Park | Nothing, leave unchanged. It is a nice Oasis from the urban setting where you can wander in the back woods. |
| 61. | Frontier Park | More parking Expanded sprayground |
| 62. | Frontier Park | A splash park or water feature for the kids |
| 63. | Frontier Park | Vehicle show and sale. Dog Park. |
| 64. | Frontier Park | Area to walk the dog on leash. Little Wheels go-cart track. |
| 65. | Frontier Park | A Spray Ground for kids to play & cool down at. |
| 66. | Frontier Park | N/A |
| 67. | Frontier Park | A spray park next to the playground. Less RV stuff in the back. Stop ripping out the treed area! |
| 68. | Frontier Park | More seating areas. |
| 69. | Frontier Park | Off leash dog park |
| 70. | Frontier Park | A walking paved trail. Water playground for kids |
| 71. | Frontier Park | Swimming pool |
| 72. | Frontier Park | Spray park |
| 73. | Frontier Park | Water park and bigger playground |

| | | |
|------|----------------------------|--|
| 74. | Frontier Park | I would like to see more walking trails |
| 75. | Frontier Park | Nothing comes to mind ... we think it's great! Maybe a full-time staff person that helped to maintain the park and safety? |
| 76. | Frontier Park | More playground equipment. Updated & clean public restrooms. More bench seating. Water play like what is in Pioneer Park |
| 77. | Frontier Park | More programs for children and a senior center |
| 78. | Frontier Park | Spray park |
| 79. | Frontier Park | Aquatics center. More sports teams for kids. Trails Dog park |
| 80. | Frontier Park | Programs for teens. Clubs, after school programs, recreation. More fitness classes during morning and afternoon week days. |
| 81. | Frontier Park | Basketball court, pool/spray park |
| 82. | Frontier Park | I really don't go to parks but Frontier is pretty and in the center of town. |
| 83. | Frontier Park | Covered area at the playground. Otherwise it's an awesome facility |
| 84. | Frontier Park | Arts, sports, music, stage, bike trail, play fountain, public pool... |
| 85. | Gonyea Playfield | Splash park |
| 86. | Gonyea Playfield | 1) More parking 2) More security 3) Splash park |
| 87. | Gonyea Playfield | Shaded area covering all playground, there is not a lot to do at this park Spanaway Park sucks not clean. Playgrounder is terrible, lake is dirty, but the golf course us nice why???? |
| 88. | Gonyea Playfield | Better lighting lots of cars motor homes park there at night druggies don't like light, better and more often drive bus by law enforcement |
| 89. | Gonyea Playfield | sprinkler play area, more bbq area. more picnic tables |
| 90. | Gonyea Playfield | A walk way around the park would be amazing. As would a splash park where the kitty litter pit (I mean sand pit) is. Also, more sports options for children 5 and under. |
| 91. | Gonyea Playfield | the crime to be reduced. |
| 92. | Heritage Recreation Center | I like this park the way it is. It has trails, a playground, and an area to allow us to run our dogs. |
| 93. | Heritage Recreation Center | None it is great as it is. |
| 94. | Heritage Recreation Center | Restroom Security lighting |
| 95. | Heritage Recreation Center | None, Maintain current services |
| 96. | Heritage Recreation Center | Nathan Chapman Trail, I love paved nature walk. I think it is an excellent exercise and learning opportunity for my small children. |
| 97. | Heritage Recreation Center | More kid friendly space for when parents have ballgames. |
| 98. | Heritage Recreation Center | More walking trails. |
| 99. | Heritage Recreation Center | No Comment |
| 100. | Heritage Recreation Center | Turf Fields Spray park |

| | | |
|------|----------------------------|--|
| 101. | Heritage Recreation Center | None it is great as it is. |
| 102. | Heritage Recreation Center | none |
| 103. | Heritage Recreation Center | Excellent lighted baseball field. A place to enjoy high school/college teams at a high level. |
| 104. | Heritage Recreation Center | More High School baseball |
| 105. | Lake Spanaway Golf Course | Facility upgrades - the place obsolete and in poor shape. A new restaurant attracting non-golfers, like Lipoma Firs should be self-supporting, if not profitable. Especially since the county allowed Lipoma Firs to be plowed for more people to jam up Meridian. Perhaps that is the way they plan growth: make Meridian impassible so no one can live beyond it. That may work. |
| 106. | Lake Spanaway Golf Course | None |
| 107. | Lake Spanaway Golf Course | Cheaper price for a round of golf. Now that it was purchased by another group, they raised the prices. |
| 108. | Lake Spanaway Golf Course | Off leash area for dogs |
| 109. | Lake Spanaway Golf Course | Better putting green and larger more usable chipping green |
| 110. | Lake Spanaway Golf Course | Just repair/upgrade what is already there and develop programs to encourage afternoon/evening use. |
| 111. | Lake Spanaway Golf Course | None |
| 112. | Lake Spanaway Golf Course | Just keep it up to expected standard as in the past. |
| 113. | Lake Spanaway Golf Course | More seating/benches |
| 114. | Mayfair Playfield | The rest of the parking lot opened up. |
| 115. | Mayfair Playfield | some covered seating areas, restoration of native landscaping in some areas, perhaps with a trail and information, access to water, permanent bathrooms, water play area |
| 116. | Mayfair Playfield | Skate park |
| 117. | Mayfair Playfield | Spray park!!!! BIGGER playground, Like Fort Steilacoom Size! |
| 118. | Meridian Habitat Park | public bathrooms near the playground would be great, as well as |
| 119. | Meridian Habitat Park | none |
| 120. | Meridian Habitat Park | Walking trails Basketball courts Tennis/ pickleball courts |
| 121. | Meridian Habitat Park | more community building programs |
| 122. | Meridian Habitat Park | More like the Nature Park in Tacoma. More wooded areas to walk through, nature education, wildlife |
| 123. | Meridian Habitat Park | Baseball fields basketball courts |
| 124. | Meridian Habitat Park | Beautification |
| 125. | Meridian Habitat Park | We would like to see security in the parking lot so we can leave our car without the windows being smashed |
| 126. | Meridian Habitat Park | Nothing! It's great! |

| | | |
|------|-----------------------|---|
| 127. | Meridian Habitat Park | baseball field, basketball court |
| 128. | Meridian Habitat Park | I actually liked the Nathan Chapman Trail. And nothing needs to be added it's fine. |
| 129. | Meridian Habitat Park | A restroom besides the port-a-potty and seating in the shade. |
| 130. | Meridian Habitat Park | Historic preservation of surrounding buildings in South Hill |
| 131. | Meridian Habitat Park | Bathrooms please (not port a potties) and more picnic tables please. |
| 132. | Meridian Habitat Park | Please continue to add ADA facilities so that children with special needs have the opportunity to play and integrate with the able-bodied population. Continue an ADA trail for quiet walks under the trees. |
| 133. | Orangegate Park | Parking area, garbage service, maintained trails. |
| 134. | Orangegate Park | it's pretty basic, needs to be developed. it's the only one in the central Summit-Waller area. |
| 135. | Orangegate Park | Trails |
| 136. | Orangegate Park | Not sure |
| 137. | Orangegate Park | Off-Leash dog areas water recreation (splash pads, etc.) recycling areas!!!! |
| 138. | Orangegate Park | Better maintenance, development to use as a better family-friendly destination for outdoor activities |
| 139. | Orangegate Park | Equestrian. |
| 140. | Orangegate Park | NONE!! TRAILS ONLY!!! |
| 141. | Orangegate Park | Recreational fields, walking paths, public restrooms, summer sports programs |
| 142. | Orangegate Park | Orangegate is not really my favorite; my favorite is Clarks Creek, but since that is Puyallup I guess it was not included. I live right near Orangegate though and use it often even though it is not that pretty and it doesn't have any hills. Please, please, please, do not listen to Larry Volland and the "Summit-Waller Community Organization." They are a good old boys network and do not allow true community based decision making. Then they pretend to represent us all. I was on the board for a while, so I saw how they operate. Larry and others will even write letters to PC and sign them for the whole organization without even running them by the board, let alone the community. Also, they do things to the park that should not be done. For instance, Larry cut off the bottom branches of all the trees in the park across from his property and cleared out the brush. He wants it to look like a groomed park, but that is not his right to alter the vegetation to that extent just to meet his own sense of beauty. The natural vegetation provided habitat for many birds and other wildlife; his sanitized version much reduces the natural ecological functions of the area. I and many, many others DO NOT WANT ORANGEGATE TO CHANGE. This is one of the few places where people can "get away with" running, walking, or biking themselves and letting their dogs run off leash and get real exercise at the same time. This is a very critical feature for keeping people healthy and reducing mischief from our canine community (dogs that do not get enough exercise cause trouble in their neighborhoods and also cost their owners a lot more in vet bills). "Dog parks" are way too small and only cater to dogs that like to fetch or to puppies that will play with each other. It's also very hard to play fetch with a bunch of other dogs running around and competing. The owners cannot exercise at the same time the dog is exercising. Mostly what ends up happening is dogs and people all stand around doing nothing. Hardly any of us have time to both take the dog to the dog park for an hour AND run for an hour ourselves AND work AND maintain our homes and yards AND volunteer AND raise wholesome kids. Please, please, give us this space to run our dogs well while exercising ourselves at the same time. Many of us clean this |

| | | |
|------|---------------------------|---|
| | | space, and our presence mostly keeps the bad guys out. I have been going there well over 20 years and have never had a serious problem with anyone's dog. Please do not ruin this park by "improving" it. We hardly have any place at all where we can get OUR needs met. Don't take this one away from us. |
| 143. | Orangetate Park | It's great the way it is :) |
| 144. | Orangetate Park | Covered eating areas, restrooms, playground, benches, play fields, dog park |
| 145. | Orangetate Park | I would like to see restroom facilities and a small pavilion. |
| 146. | South Hill Community Park | solid separation between traffic and the play area so children can't run into the street and cars can't run into the playground. |
| 147. | South Hill Community Park | Parking |
| 148. | South Hill Community Park | Water/spray park |
| 149. | South Hill Community Park | Bike Racks, connections to the adjacent neighborhoods, basketball courts, community gardens |
| 150. | South Hill Community Park | None |
| 151. | South Hill Community Park | It would be nice if we had more swings at the park. For instance, there are no toddler style swings and only two regular swings. A slide would also be nice. Good overall park. Thank you! |
| 152. | South Hill Community Park | NOTHING leave it as is. |
| 153. | South Hill Community Park | Picnic tables, a few more trees/shade (it gets too hot for kids to play), volleyball pit, spray park, restrooms |
| 154. | South Hill Community Park | Nothing |
| 155. | South Hill Community Park | Just more parks. |
| 156. | South Hill Community Park | Nothing. I love it the way it is. Not everything needs to be changed! It has a field, toys, and awesome trails. |
| 157. | South Hill Community Park | None |
| 158. | South Hill Community Park | Off leash dog park. |
| 159. | South Hill Community Park | I like it the way it is. I love that they have a toddler play structure as well as one for the older kids. I like the walking trails...although I wouldn't feel comfortable walking there alone. |
| 160. | South Hill Community Park | It is a wonderful park with wide trails, good parking, garbage cans, playgrounds, and it is especially nice that it connects to the playing fields. I would like to see the continued supply of dog poop bags to encourage people clean after their pets. |
| 161. | South Hill Community Park | Larger playground with a water park. |
| 162. | South Hill Community Park | More bathrooms and a larger play area for bigger kids |
| 163. | South Hill Community Park | More humane live removal of geese instead of the wait till the eggs hatch and the goslings are almost at flight to round them up and kill them. Find the eggs first. More bathrooms. |
| 164. | South Hill Community Park | micro soccer fields mountain bile track for younger ages |
| 165. | South Hill Community Park | Dog park The Nathan Chapman trail is awesome |
| 166. | South Hill Community Park | A dog park. Enough people bring their dogs there to walk and run the field, it would be great to have a fenced in off-leash area for dogs to socialize and play. |

| | | |
|------|---------------------------|--|
| 167. | South Hill Community Park | More walking trails |
| 168. | South Hill Community Park | I'm very happy with this park the way it is. Large open spaces to run, the wooded trail (love!), bathrooms, water fountains...it's a nice park. |
| 169. | South Hill Community Park | Maybe a couple more paths/loops. The walking paths are getting more and more popular, but are a little narrow for the traffic at times. Could spread people out on a few more paths. |
| 170. | South Hill Community Park | No changes - it's great the way it is, especially the Nathan Chapman trail access to Heritage Recreation Center. |
| 171. | South Hill Community Park | A covered area for picnicking. More trees to provide shade around the open grassy area and play structure. |
| 172. | South Hill Community Park | Lighting. Picnic tables along field area |
| 173. | South Hill Community Park | spray park |
| 174. | South Hill Community Park | Closed off space for dogs to run free and play together. |
| 175. | South Hill Community Park | Restrooms Fenced dog park |
| 176. | South Hill Community Park | Baby swings and more safe sidewalks going to the park. Fence around playground to keep kids out of the parking lot or street |
| 177. | South Hill Community Park | Swings. Picnic area |
| 178. | South Hill Community Park | A spray ground |
| 179. | South Hill Community Park | Fencing, it is popular for dogs it would be good to have a fenced area. Running paths/sidewalks to make it more accessible to runners. I use this park as a destination for running |
| 180. | South Hill Community Park | More seating, more toys for older kids |
| 181. | South Hill Community Park | Covered area |
| 182. | South Hill Community Park | N/A |
| 183. | South Hill Community Park | A fence separating the playground from the street. |
| 184. | South Hill Community Park | Monthly tree and shrub trimming along with daily lot cleaning |
| 185. | South Hill Community Park | non |
| 186. | South Hill Community Park | None. It is done. |
| 187. | South Hill Community Park | Larger playground equipment. Walking trail improvements/safety enhancements. |
| 188. | South Hill Community Park | better security |
| 189. | South Hill Community Park | The reason I like it is because there aren't facilities and programs. Leave us alone to enjoy nature as we choose. |
| 190. | South Hill Community Park | .? |
| 191. | South Hill Community Park | Fine how it is. Just wish there was one closer to me. |
| 192. | South Hill Community Park | Sidewalks on the aligning roads. |
| 193. | South Hill Community Park | Nothing at this point |

| | | |
|------|---------------------------|---|
| 194. | South Hill Community Park | We really like the trail system. And even though we don't have kids, the park is very popular for the playground. We have dogs and would love to see Meridian Habitat Park developed similarly with better walking trails and gardens. |
| 195. | South Hill Community Park | I picked this park only because it's the closest. That being said the needs to be a few more parks further southeast, towards the Sunrise community, too many little pieces of land or being bought up to build more houses... Stop allowing this, buy some of these parcels and build those parks. |
| 196. | South Hill Community Park | Covered areas near the playground. |
| 197. | South Hill Community Park | Off-leash dog park with fence. |
| 198. | South Hill Community Park | Better restrooms, water park |
| 199. | South Hill Community Park | Updated play equipment, more restrooms |
| 200. | South Hill Community Park | A spray park and a dog park! |
| 201. | South Hill Community Park | None |
| 202. | South Hill Community Park | It's fine as is. |
| 203. | South Hill Community Park | I want to see a park like that added in parkland |
| 204. | South Hill Community Park | Trails accessing the park. It is hard to get to via bike. Bike racks. |
| 205. | South Hill Community Park | Exercise stations like at wildwood |
| 206. | South Hill Community Park | Splash park Rec building |
| 207. | South Hill Community Park | Seating and tables, paved trails, kid entertainment, plants |
| 208. | Spanaway Lake Park | Better security and police presence Cleaner lake as is, it is not fit for swimming |
| 209. | Spanaway Lake Park | no parking fee |
| 210. | Spanaway Lake Park | People should not have to pay to enter this park during the summer. It is unfair to low income families (which much of our community is). They also need toddler appropriate play areas. The toys are only built for older kids, and toddlers deserve to get out and play as well. I only chose Spanaway park, because it's the only one we've been to. The rest of the parks on this map are still 15 to 20-minute drive away, which just isn't feasible. There should be local FREE parks within 10 minutes to people's homes, with toys for multiple age ranges. |
| 211. | Spanaway Lake Park | Nothing really |
| 212. | Spanaway Lake Park | trails |
| 213. | Spanaway Lake Park | Improved restrooms. |
| 214. | Spanaway Lake Park | Kayak, Canoe rentals |
| 215. | Spanaway Lake Park | Additional walking paths, paved for wheelchair use. |
| 216. | Spanaway Lake Park | Baseball fields for youth not softball for adults |
| 217. | Spanaway Lake Park | Summer time meal and activities for school age children. Community events that raise awareness and support community members. |

| | | |
|------|--------------------|--|
| 218. | Spanaway Lake Park | Off leash dog park |
| 219. | Spanaway Lake Park | more activity choices |
| 220. | Spanaway Lake Park | A cleaner waterfront. |
| 221. | Spanaway Lake Park | Keep the park with many natural areas for what any wild animals still struggle to exist within our populated areas, including birds. |
| 222. | Spanaway Lake Park | Na |
| 223. | Spanaway Lake Park | Na |
| 224. | Spanaway Lake Park | Safer parking, zip line, |
| 225. | Spanaway Lake Park | ? |
| 226. | Spanaway Lake Park | Not sure, maybe an off-leash dog park |
| 227. | Spanaway Lake Park | Clean / usable restroom, clean water, able to swim there / dog park - area for animals to play and swim / sprinkler park for kids / updated play area / jet ski or other type of rentals |
| 228. | Spanaway Lake Park | I would love to add the summer lunch program like other parks have. A splash park as we can't swim in the water or our kids are too small. Updated picnic areas to match the new big toys. |
| 229. | Spanaway Lake Park | Better bathroom facilities, community picnics, and other community gatherings that are free to the public, and guided nature/trail walks |
| 230. | Spanaway Lake Park | Lifeguard, "snack shack", paddle boat rentals |
| 231. | Spanaway Lake Park | None, I think updating the facilities would be nice. |
| 232. | Spanaway Lake Park | Rental offices for bicycles, paddle boards, Frisbees... and a Frisbee golf course. |
| 233. | Spanaway Lake Park | None it is fine the way it is. |
| 234. | Spanaway Lake Park | Splash park |
| 235. | Spanaway Lake Park | free access I quit using when user fees were put in place. As a property owner and tax payer it comes with no benefits |
| 236. | Spanaway Lake Park | More play equipment for kids and adults Better beach area |
| 237. | Spanaway Lake Park | More walking trails Free parking for Spanaway residents Maybe a shaded playground |
| 238. | Spanaway Lake Park | Bathrooms more walkways |
| 239. | Spanaway Lake Park | Splash park, another playground that is covered |
| 240. | Spanaway Lake Park | Fine as is currently configured. |
| 241. | Spanaway Lake Park | Off lease dog park |
| 242. | Spanaway Lake Park | Music once a week during the Summer months. |
| 243. | Spanaway Lake Park | garden, food trucks, spray park |
| 244. | Spanaway Lake Park | More family activities. |

| | | |
|------|--------------------|--|
| 245. | Spanaway Lake Park | Increased police presence for safety there and in Bresemann Forest across the street. |
| 246. | Spanaway Lake Park | Updated bathrooms, better monitoring of the forested areas (safety is a concern, homeless, needles, etc.). |
| 247. | Spanaway Lake Park | Safer and more swimming areas |
| 248. | Spanaway Lake Park | Better bathrooms, no entrance fee, splash park |
| 249. | Spanaway Lake Park | Security. |
| 250. | Spanaway Lake Park | water and parking |
| 251. | Spanaway Lake Park | Water park. Off leash dog area. |
| 252. | Spanaway Lake Park | Free parking |
| 253. | Spanaway Lake Park | All grounds non-smoking, kayak rentals, bigger playground, water spray play area, enclosed dog area, sculptures/artwork, offer outdoor Tai Chi or Yoga classes in the summer... |
| 254. | Spanaway Lake Park | Summer camp type programs for kids |
| 255. | Spanaway Lake Park | Restrooms. |
| 256. | Spanaway Lake Park | better lit walking trails |
| 257. | Spanaway Lake Park | Programs other than sports for youth, perhaps more programs for senior citizens, day care for babies and young children |
| 258. | Spanaway Lake Park | better bathrooms |
| 259. | Spanaway Lake Park | security keeping homeless, drug dealers and prostitutes out; more barbeque areas; clean water & beaches; concessions on the weekend |
| 260. | Spanaway Lake Park | Fine as it is. |
| 261. | Spanaway Lake Park | More year-round restrooms |
| 262. | Spanaway Lake Park | Nothing |
| 263. | Spanaway Lake Park | Enough Restroom Facilities Walking Paths Really there is nothing else, this is a park to enjoy being out in nature. There shouldn't be a lot of commercial oriented areas there. |
| 264. | Spanaway Lake Park | Family friendly areas, more security, parking |
| 265. | Spanaway Lake Park | This park seems to have what is needed, maybe bring back the horse mounted patrol, that would be nice. |
| 266. | Spanaway Lake Park | More restrooms |
| 267. | Spanaway Lake Park | Off leash or water park |
| 268. | Spanaway Lake Park | None, I like the way it is now. |
| 269. | Spanaway Lake Park | Summer rec Bike path Cafe or coffee shop |
| 270. | Spanaway Lake Park | Increase law enforcement presence. |

| | | |
|------|----------------------------|--|
| 271. | Spanaway Lake Park | Free parking Day camp Classes on local plants and history. a "Visitor Center" or Guest Center More bathrooms that are open More covered picnic areas for open use vs reserved |
| 272. | Spanaway Lake Park | Clean the lake, more people watching day and night for homeless and their needles. |
| 273. | Spanaway Lake Park | Better play area for kids. Pool/ hot tub area indoor for winter. More bbq pits or a community kitchen, More garbage cans and parking, and rentals such as boats and tubes, jet skis. Sea doos etc. |
| 274. | Spanaway Lake Park | Free or cheaper parking. |
| 275. | Spanaway Lake Park | A water spray park |
| 276. | Spanaway Lake Park | Better, updated, cleaner bathrooms. Better public beach. Somehow cleaner water. |
| 277. | Spanaway Lake Park | Security |
| 278. | Sprinker Recreation Center | Na |
| 279. | Sprinker Recreation Center | Park is great as it is. |
| 280. | Sprinker Recreation Center | A workout facility. |
| 281. | Sprinker Recreation Center | Better safety for wooded walking paths and an off-leash dog area. |
| 282. | Sprinker Recreation Center | I like it now. |
| 283. | Sprinker Recreation Center | 1) Art classes 2) Adult classes 3) Couples classes |
| 284. | Sprinker Recreation Center | spray park |
| 285. | Sprinker Recreation Center | Light festival, ice skating |
| 286. | Sprinker Recreation Center | Spray park for kids |
| 287. | Sprinker Recreation Center | Dance and art programs |
| 288. | Sprinker Recreation Center | Another restroom/more convenient to trails stronger police presence for people doing illegal activities |
| 289. | Sprinker Recreation Center | More spray Parks in the area. More community centers |
| 290. | Sprinker Recreation Center | Curling |
| 291. | Sprinker Recreation Center | I probably would have chosen Spanaway Lake Park except that I have never been there because they charge for parking. |
| 292. | Sprinker Recreation Center | I think they do a wide assortment. |
| 293. | Sprinker Recreation Center | Running track |
| 294. | Sprinker Recreation Center | Unknown |
| 295. | Sprinker Recreation Center | none |
| 296. | Sprinker Recreation Center | I think what they have is good other than maybe a water fountain wading pool for small kids. |
| 297. | Sprinker Recreation Center | Jiu Jitsu |

| | | |
|------|----------------------------|--|
| 298. | Sprinker Recreation Center | Skating rink, spa area, training area for riding bikes and unicycles |
| 299. | Sprinker Recreation Center | More gathering spaces for seniors. |
| 300. | Sprinker Recreation Center | Walking paths in parks Community event space Playgrounds |
| 301. | Sprinker Recreation Center | Water/spray park |
| 302. | Sprinker Recreation Center | Fitness classes in the evenings and weekends, arts & crafts classes |
| 303. | Sprinker Recreation Center | I have never been to any of these locations |
| 304. | Sprinker Recreation Center | A cool down water park for hot days. |

Appendix B. What do you want to do or have in Parks by Community Plan Area?

Frederickson – Want to Do

| Concessions/Food Trucks | 3 | | | |
| Mountain Bike Trails | 1 | 1 | | |
| Pickleball Courts | 2 | | | |
| Ziplines | 2 | | | |
| Other Facilities: Parks in Neighborhoods | | | | \$100.00 |
| Other Facilities: Regravel walking path at Dawson | | | | \$50.00 |
| Other Facilities: Add some more trees | | | | \$50.00 |

Extra Comments:

- 1.) In need of a neighborhood Park of 112th St. This area has 2 elementary schools. Many apartment complexes. The only activity in this area is the putt putt golf. Not practical in a community with extreme high poverty. The closest free outdoor recreation is Gonyea Playfield to the South and Dawson playfield to the East.
- 2.) PLU area needs sidewalks on both sides of Pacific Ave (side streets)
- 3.) Concern regarding Dawson playfield-always wet in the winter, sloppy to walk. Aaron Artiss-Skater, ask Nicole
- 4.) Map of all trails in Pierce County on a website and hard copies
- 5.) At Dawson take out the ballfield and tennis courts, increase walking trails and maybe a skate park or spray park.
- 6.) Remove the superfluous ball fields at Lidford, Dawson/ At Lidford build walking trails, a bathroom, maybe even a playground. A lot of people want to use the park but it feels a bit sad. Trees!

| Skate Parks | 1 | 5 | 1 | | |
| Tennis Courts | 5 | 3 | 1 | | |
| BMX Tracks | 8 | 1 | | | |
| Other Facilities: | | | 1 | | |
| Parking | | | 1 | \$50.00 | |
| Picnic Facilities | | | | \$100.00 | |
| Bathrooms | | | 1 | \$25.00 | |
| Indoor Climbing | | | 2 | \$25.00 | |

Extra Comments:

- 1.) One thing that I think would be helpful is a multi-use recreational facility that can be used to host sporting activities and events.
- 2.) Another possibility is an event center/venue for graduations, recitals, conferences, school drama performances.
- 3.) Facilities to hold business meetings or classes to support community outreach programs

| Other Facilities: Benches | | | | \$100.00 |

Extra Comments:

- 1.) Sidewalks on all major arterials to better connect all residential to urban centers, schools, etc.
 - Red- priorities
 - 152rd add from elementary to bus at Meridian
 - More eastwest to connect to urban corridors
- 2.) Like off-leash
 - Does not like perimeter west trail
 - Keep natural, leave forest alone
 - Benches on trails
 - Exercise stations on trails
 - Lighting at garbage cans, especially at dog stations in trail
 - Interpretive
- 3.) Connect SouthHill Park to future school to west.

Appendix C. Ratings of Facilities – User Defined “Other” Facilities Desired in Area Parks

Average Ratings of Facilities: User Defined “Other”

| | | | |
|-----|--|-----|--|
| 1. | 4th of July celebration. | 25. | Children’s gardens. |
| 2. | Access to public transit. | 26. | Clean & updated public restrooms. |
| 3. | Adult classes. | 27. | Clean bathrooms for kids. |
| 4. | BBQ and covered spaces. | 28. | Community center. |
| 5. | BBQ area. | 29. | Community events. |
| 6. | BBQs. | 30. | Community gardens. |
| 7. | Barbecue Grills. | 31. | Covered parks or indoor pools. |
| 8. | Barbeque stations/shelters. | 32. | Covered seating. |
| 9. | Baseball Fields. | 33. | Covered table area. |
| 10. | Baseball and soccer fields. | 34. | Do not know. |
| 11. | Bathroom. | 35. | Dog area. |
| 12. | Bathroom. | 36. | Dog parks. |
| 13. | Bathrooms. | 37. | Dog water fountain and poop stations. |
| 14. | Benches in Bresemann forest. | 38. | Education signs identifying species in area. |
| 15. | Bike and walking trail. | 39. | Family gathering areas. |
| 16. | Bike path. | 40. | Feel safe. |
| 17. | Bike paths. | 41. | Festival, shows, and market arenas. |
| 18. | Boat launches or water access. | 42. | Fields. |
| 19. | Boat rentals. | 43. | Games like putt putt. |
| 20. | Bocce ball area. | 44. | Hire security. |
| 21. | Books rentals. | 45. | Homelessness solution; we are scared of getting mugged to go on nature walks. |
| 22. | Cabanas, BBQ pits, tables, etc. | 46. | Jet Ski / Water Rentals. |
| 23. | Cameras / Security. | 47. | Keeping homeless, drug addicts and their paraphernalia out of the nature walks and pathways. . |
| 24. | Camps and county-led, organized events for kids (not all week, but perhaps a day or two during the summers). | | |

| | | | |
|-----|--|------|---|
| 48. | Kiddie wading pool. | 75. | Outdoor theatre and events. |
| 49. | Labyrinth. | 76. | Parking. |
| 50. | Lacrosse turf field. | 77. | Pathways don't need asphalt! Leave trails natural. |
| 51. | Lots of parking. | 78. | Patrol areas. |
| 52. | Maintenance. | 79. | Paved path. |
| 53. | Make areas safer. | 80. | Picnic. |
| 54. | Meeting spaces. | 81. | Picnic and BBQ areas. |
| 55. | Mini golf. | 82. | Picnic areas. |
| 56. | Mommy and baby swings. | 83. | Picnic facilities. |
| 57. | More Trees! (Especially at Dawson, Lidford, and Gonyea). | 84. | Picnic table. |
| 58. | More covered picnic tables. | 85. | Picnic tables. |
| 59. | More visible security. | 86. | Picnic tables and BBQ pits. |
| 60. | Movies in the park. | 87. | Picnic tables, cabanas and BBQ facilities for community and family functions. |
| 61. | N/A. | 88. | Picnic tables/cooking. |
| 62. | Native Gardens. | 89. | Picnic. |
| 63. | Native gardens. | 90. | Playgrounds for my grandchildren. |
| 64. | Native northwest herbs and plant garden. | 91. | Pool. |
| 65. | Native plants. | 92. | Pool or swimming area. |
| 66. | Natural heritage areas. | 93. | Pools. |
| 67. | Natural, forested areas. | 94. | Pools. |
| 68. | Nature Educational Center. | 95. | Public pool. |
| 69. | Off leash dog area. | 96. | RC area. |
| 70. | Off leash dog park. | 97. | Recreation for autism spectrum individuals. |
| 71. | Off leash dog park. | 98. | Removal and/or control of state-listed noxious plants, like English ivy. |
| 72. | Outdoor swimming pools. | 99. | Restroom. |
| 73. | Outdoor movie & concerts. | 100. | Restrooms & water fountains. |
| 74. | Outdoor obstacle course trail. | 101. | Running paths. |

| | | | |
|------|---|------|--|
| 102. | Running paths free of dog feces, wide enough so that three strollers can travel side by side and I can get around without having to dive through nettles and brush. | 127. | Vertical gardens like the Bronx Green machine that distributes food to the poor and trains young children. |
| 103. | Running trails. | 128. | Wading pool for kiddies. |
| 104. | Security or emergency phones. | 129. | Walking Bike ride or handicap access. |
| 105. | Shade trees and barbecue grills. | 130. | Walking for senior citizens. |
| 106. | Skate parks. | 131. | Walking paths. |
| 107. | Soccer Fields. | 132. | Water park. |
| 108. | Soccer/football fields. | 133. | We would like barbeque areas, covered for picnicking. |
| 109. | South Hill Farmer's Market. | 134. | Wheelchair access. |
| 110. | Space for Saturday Markets and community fairs. | 135. | Wildlife habitat. |
| 111. | Spray Park. | 136. | Yoga area. |
| 112. | Spray park. | 137. | botanical gardens such as rose gardens, fern gardens, etc.. |
| 113. | Spray parks and recreation. | 138. | classes during daytime for school hours homeschool children. |
| 114. | Staffing. | 139. | community pool. |
| 115. | Stage. | 140. | covered kitchen areas. |
| 116. | Stage for concerts. | 141. | free community center. |
| 117. | Stage for live music performances. | 142. | gazebos or picnic table areas for rent. |
| 118. | Story telling outdoor seating. | 143. | multiuse buildings with classrooms for community rental. |
| 119. | Streams and water. | 144. | outdoor pools. |
| 120. | Summer Festivals permits *at* Dawson. | 145. | parking. |
| 121. | Swim and playground. | 146. | picnic tables. |
| 122. | Swimming. | 147. | picnic tables, some with a shelter. |
| 123. | Swimming pool and spa. | 148. | public bbq and picnic facilities. |
| 124. | Swimming pools. | 149. | restrooms. |
| 125. | Toddler appropriate playground. | 150. | rubberized running track. |
| 126. | Trees. | 151. | swimming pools. |
| | | 152. | wildlife blinds on nature trails. |

Appendix D. Great Ideas for Park System

| | |
|-----|--|
| 1. | Pierce county needs more walking trails. |
| 2. | "First Friday" (or Saturday) Farmer's Market at the Meridian Habitat Park or Sunrise Village... coordinate with the Puyallup Farmer's Market? |
| 3. | ? |
| 4. | A good playground without wood chips, the floor like Frontier park would be nice. Lots of slides and swings. With covered areas too so it doesn't get too hot. NO WiFi. This will just attract people to loiter and cause problems. I could see it turning into a homeless haven very quick if you provide Wi-Fi. Needs good bathrooms, clean and with multiple stalls and sinks |
| 5. | A naturalist program would be great! |
| 6. | Access to parks would be great. We have to drive to our park since biking isn't safe. More mature trails and community space for food trucks. Marymoor has a great concert series and the food trucks are very successful. |
| 7. | Actually, I have never used the park that's a few blocks away from me. |
| 8. | Add things people WANT to do |
| 9. | Advertising the existence of these spaces would be a good start, I've lived here my whole life and I only knew about half of those were parks. The rest looked like privately owned land. |
| 10. | Again, look at what is working well in city and state parks. I see things all over that I like, including in some of the county parks. I'm really looking forward to the Stan & Joan Cross Park off of Military. |
| 11. | ALL NATURE!!!!!!! NATURAL PARKS ARE THE BEST!!! |
| 12. | allowing vendors to bring food trucks and sell at parks should bring in money, not cost any. just require them to kick back a small percentage of sales. |
| 13. | Anytime of outdoor equipment that both kids and adults can use!!! |
| 14. | As an advocate for Meridian Habitat, please continue to provide recreation, and passive enjoyment for special needs children and adults. |
| 15. | As an older couple, we don't really get out to the community parks. |
| 16. | As I mentioned before, multi-sports complexes with recreational league activities for the different sports offered. |
| 17. | As mentioned above, I'd like to see more off-leash dog parks. |
| 18. | As much preserved open space as possible |
| 19. | Beautiful grounds. Places to unwind. Beach access. |
| 20. | Been great for my kids throughout the years. |
| 21. | Bike and walking trail that connects parks |
| 22. | Build a park near Washington High School that involves PLU, Franklin Pierce, and the county. PLU creates stadium and county creates a NICE baseball field. Pierce College and county should build a baseball field and soccer field in Puyallup. |

| | |
|-----|---|
| 23. | Caretaking, family areas |
| 24. | Child safety precautions like fencing to keep runaway kids away from cars. More toddler friendly equipment like bucket swings |
| 25. | Clean up and be attentive to the issues and problems of our current parks prior to building more parks. I enjoy a good park, just like the next guy but there are so many issues and lack of funds to take care of the existing parks. |
| 26. | Clubhouse with classes. Art, dance, karate etc. |
| 27. | Community parks are fantastic but more important are onsite parks for each development. Kids are not going to travel miles to a park every day but are going to use available neighborhood facilities. Developers are currently not required to have adequate recreation facilities. The County care more about parking than the welfare of the children |
| 28. | community pool please and just more park areas for each area |
| 29. | concern that chambers park is drawing monies that would have been spent on languishing community parks do to political prestige park for that area by incorporated cities elected reps. |
| 30. | Continue to help make Cross Park a reality. |
| 31. | control vagrant population and skate boarders |
| 32. | Creating natural spaces that reflect beauty make a community livable and vibrant. Make more parks and do less "stuff" just maintain the beauty, and trails |
| 33. | Crime prevention by having small police sub stations on the campus of the park. |
| 34. | Cross property would be excellent park |
| 35. | Cut costs like the entrance fee for Spanaway lake park |
| 36. | Develop a wider variety of payment plans to access the parks. |
| 37. | Fairly distributed money |
| 38. | Family and community space, covered areas for farmers' markets, or rent for use, food trucks, seating and grass picnic areas spray parks and wider accessible seats for heavier people or those with disabilities also clean and accessible water available toilet facilities that are maintained hourly and not disgusting or transient housing more like hiway road side facilities are kept. Rest areas you might say would be a good type plan to follow. |
| 39. | Fire Metro Parks and get someone that maintains them correctly. |
| 40. | Get rid of some of the trees and have more open areas and paved walkways. |
| 41. | Get rid of the ball fields at Gonyea, Lidford, and Dawson and replace them with trees, picnic areas, and walking trails. Lidford would be great for an off-leash dog park as well. Ball fields are used a few months of the year by a relatively small percentage of the community. Walking trails and picnic areas with trees can be used year-round by everyone. |
| 42. | Get some at this end of Pierce Co. There is some land still available if you hurry. |
| 43. | Have dinner & a movie events or something similar in the smaller community parks to bring the neighbors out for meet and greets so they become more invested in their neighborhoods and develop a network. |
| 44. | Have more of them. |

| | |
|-----|---|
| 45. | Homeless camps are out of control. Security needs to be amped up so it will be safe again to take kids thru Bresemann Forest and all parks. Too much drug activity, fights, gangs, and homeless throughout most parks. |
| 46. | I attend many different meetings and want to support the parks department developing parks |
| 47. | I believe Pierce County would benefit from increase in green space; it would be wonderful to see forest areas brought back to the parks system for increased quality of life for both people and wildlife living in the area. |
| 48. | I didn't do the above due to not knowing the total budget. |
| 49. | I don't need a place where crime is a potential. As for other things do what you want but don't tax me for it |
| 50. | I have none |
| 51. | I like a facility in the frontier park for the classes and events. |
| 52. | I like parks that have large open grassy spaces and maintained fields for games like Ultimate Frisbee. I also want them to have trash facilities and trees. Also, to be somewhat wheelchair accessible. It would also be great if there were areas for hammocks either between trees or poles for hammocks. |
| 53. | I like walking trails and picnic tables. I enjoy keeping things natural. But, have lots of garbage cans because I am tired of seeing all the trash! What happened to teaching people not to litter? |
| 54. | I look forward to improvements |
| 55. | I love the idea of spray parks, swimming access, and off leash dog parks. |
| 56. | I love the trails idea or fort would be cool. A safe place off the street for kids to ride bike or roller skate. An outdoor pool would be amazing. |
| 57. | I recently visited Wapato Park with my family. If there could be a park similar to that near our Frederickson area for free (not including Spanaway Park, I was disappointed when we had to pay to park), my family would frequent it all the time. |
| 58. | I think a trail system connecting all parks to the communities would be awesome. With safety additions for either bicycle cops or police horses to patrol the trail system. |
| 59. | I think any new events beyond what is currently done now would be welcome. |
| 60. | I think playgrounds for the children would be a great idea because so many do not even have back yards anymore and it is somewhere to take your children that is not costly. Everything is so expensive anymore! |
| 61. | I think that nature appreciation is more important than additional sports facilities, as I feel those are adequately provided for. There is little to no actual natural space (as opposed to manicured lawns) and that should change. |
| 62. | I think they are doing well with what they have to work with. If anything, just spruce it up a bit. |
| 63. | I would like a neighborhood playground somewhere around 115th & Park Ave Parkland! |
| 64. | I would love for each park to have something for everyone so kids of a wide age span can have fun. The park system is in desperate need of Spray Grounds and Water amenities for kids to play in and cool off in South Pierce County. |
| 65. | I would love to have a community space that offered a spray park with walking paths, nature trails and a place for events |
| 66. | I would love to see zip lines and a spraypark. |

| | |
|-----|--|
| 67. | If it can't be maintained, don't do it. |
| 68. | Improved dirt trails for running dogs would be fantastic (maybe this request overlaps with "mountain bike trails" - I'm not sure). It is useful for running dogs but being easier on their paws! |
| 69. | In addition to active parks, it would great to have a focus on intact passive open spaces, like forested areas. Within these areas, we should have significant restoration and maintenance to address the invasive species issues / manage for ecosystem services. |
| 70. | Indoor pool and community classes. |
| 71. | It isn't a great idea, just a logical key idea: we just need more parks for all the people moving here. |
| 72. | It would be great to restore forested areas in Pierce County parks and manage them to reduce stormwater impacts in our urban areas. |
| 73. | It would be nice to have a park in South Hill with a city park feel (think Pioneer Park in Puyallup or Central Park in New York). |
| 74. | It would be nice to have greater connectivity to neighborhoods and between parks. This could be done through bike lanes on streets, or more tree lined streets with wide (8') sidewalks. A greater variety of play options in the parks helps to create an amenity that attracts people to the area |
| 75. | It would great for kids to be able to play little league baseball in the Spanaway area and not have outside the area to play and that not tied to bethel rec. and have better maintained fields then@ Gonyea |
| 76. | It's all about the kids and the communities, give them readily available options and access to facilities with fun activities, to keep them out of trouble. Minimize availability of facilities that can contribute to gang type activities. |
| 77. | I've run out of steam, this survey is taking a long time. |
| 78. | just make them safe, no homeless camps |
| 79. | Just overall cleanliness and safety with efficient activities that are actually used (not a paddle boat disaster like at Wapato). |
| 80. | Keep as much natural areas, with benches along the way garbage cans easy to find dog poop bag stations in many areas. |
| 81. | keep it simple |
| 82. | Keep them very much natural. With limited interruptions from nature. |
| 83. | Kid and senior events. Family fun outside. |
| 84. | Learn how to remove ivy from parks. Do a public education campaign to teach people how to maintain and remove ivy so it doesn't grow rampant and spread. (When ivy grows high it develops seeds that are spread by birds, the weight of the ivy breaks down trees; and spreading ivy shades and kills smaller plants.) |
| 85. | Leave as many old growth trees as possible. |
| 86. | Love nature walks with my family with park access, like Nathan Chapman trail, Bradley lake, Sprinker rec. these are nice parks |
| 87. | Make something like the San Antonio River Walk! |
| 88. | Make them as environmentally friendly as possible. |
| 89. | Make them safer. No druggies, needles, no homeless camps, better lighting. |

| | |
|------|---|
| 90. | Meandering through nature with flower gardens and coy ponds is nice. A place to find peace and quiet. Another park (separate from Peace and Quiet) has diverse activities available. |
| 91. | Metro Parks in Tacoma are fantastic. We lived there for 10 years and Pierce County doesn't compare. There are a handful of exceptions (i.e. Bradley Lake, downtown Puyallup's Pioneer) but for the most part they seem to be created and forgotten about. Parks need to be the center of the community. |
| 92. | More classes at Frontier for adults from fitness to cooking. |
| 93. | More fun play equipment, trails, seating, restrooms |
| 94. | More geared to family recreation. Less emphasis on specialty stuff like skate parks, ice skating, etc. Lots of picnic space and areas suitable for family and private events such as office picnics, birthday parties, etc. |
| 95. | More green less dirt!! |
| 96. | More kids play equipment, bike / horse patrol. |
| 97. | More of them. |
| 98. | More of them. Create mobility via paths and trails to get to them. Adhere to concurrency requirements of the Growth Management Act before allowing development to run willy nilly like it has. If you do what you did, you'll get what you've got. |
| 99. | More open space parks with amenities. |
| 100. | more parking, transportation to and from |
| 101. | More parks in the Summit/Midland! |
| 102. | More parks less houses. |
| 103. | More parks please! Natural wooded areas, so kids can keep learning about the nature around us. Nice walking paths and spray parks and community pools for everyone to enjoy. |
| 104. | More parks! They can be smaller--just more places to go! |
| 105. | More security |
| 106. | My concern is crime in the parks. Drugs, shootings, transients, vandalism, etc. There were shootings in multiple parks in our area, including Gonyea park in the past year. If there are going to be parks, can there be covered picnic tables for families? With BBQ pits. |
| 107. | Na |
| 108. | na |
| 109. | Native plant trails! There are so many different native plant environments and species here in Pierce County and having a landscapes trail that shows the native plant species could be very helpful in educating the community about invasive plant species. Also, PLU biology students could help to maintain the plants on the trails. |
| 110. | Nature trails and bike paths are great for all ages and with the abundance of wooded areas in the area taking advantage of the space to do these is great! |
| 111. | Need more! Definitely security. Was walking in Bresemann Forest by Sprinker last year and there were many young men in there that looked at us suspiciously; it felt remote. We got spooked and left, and never went back, because we didn't feel safe. |
| 112. | Need open space/ wildlife corridors and trees, lots of trees, native species |

| | |
|------|--|
| 113. | need to be well lighted |
| 114. | Need to eliminate homeless use of parks that drives people away. |
| 115. | need to work with adjacent city's more to do larger projects across jurisdictional lines to maximize impacts for recreation destinations. people don't just use parks in their community. Use the limited dollars more wisely by working together. |
| 116. | No |
| 117. | No thanks. |
| 118. | Not a great idea but we don't want to have drug crazies and their needles around us. I can't bring this up enough. It's hard to enjoy any of our options with this problem ever present. I guess we need guards around every turn to deal with these people. |
| 119. | Organize community activities / leagues to utilize any equipment constructed and connect local communities. Sponsor small events and/or markets for local businesses and farms at the parks. Live concerts! |
| 120. | Our community needs a YMCA that's local so we have somewhere to take our kids. The closest are in neighboring towns adding to traffic congestion issues or keeping families from enrolling. |
| 121. | Parks should be free, and available to ALL residents regardless of income, all year. Ideally a resident should not have to drive more than 10 minutes to get to a park (we have one park within 10 minutes, and you have to pay to enter all summer). Parks should have age appropriate toys, both for big kids (which there always are toys for them) and toddlers. Rarely do I see toddler appropriate toys, and let's face it, young children make up a large amount of our community. The ability to WALK to a park would be amazing, though I don't see that as a possibility, because I can't imagine the county making small neighborhood parks. A paved trail connecting Pacific Ave (near Military or 176th) to Sunrise or South Hill would be wonderful for the community. |
| 122. | Partner with sports venues to bring events to the parks, outdoor concerts, farmers markets, off park hours security to keep bad people away, |
| 123. | Paved walking paths and more garbage cans would be amazing. As would splash parks and more playground equipment for kids. |
| 124. | PCP system needs to *never again* remove Dawson from the service list, like they did about 6 years ago-ish. Cut another park in another community if needed, but not Dawson. Midland's kids/family's have very little to do, so Dawson need to always be serviced and open to the public. |
| 125. | Pierce County Parks have been well ran in the past and this needs to continue in the future. We have had very good Superintendents such as Tom Cross and Jan Wolcott and I believe the current Superintendent as well. |
| 126. | please add outdoor pools and spray parks for kids! |
| 127. | Please build more parks with trails, spray parks, etc. Other than downtown Puyallup, we have to drive into Tacoma to go to Spray park. They are great places for kids and families during summer months. Would also love if some of beautiful forest areas could be preserved- such as by water tower by Emerald Ridge High School and made into actual parks with usable trails. |
| 128. | Please keep as many areas undeveloped and natural. Our birds and wildlife need it. The natural world is a wonderful thing. We need to teach our children to not litter and have respect for nature. |
| 129. | Please leave wide open spaces. It allows us to be creative in the use of the space. We have flown kites, held hopper ball races, and just run around in circles in the grassy field at Dawson Playfield. We can't do that if you put something in the wide open space. |
| 130. | Please put a neighborhood park in N. Parkland area! |

| | |
|------|---|
| 131. | Pour money into having parks be places to help people learn to love nature, understand ecological concepts, and take care of our air, land, and water. Help people understand why trees are important, the roles of various animals and birds and insects, how to keep hazardous materials from entering watersheds, etc. |
| 132. | public flogging for people who leave dog crap in the grass. |
| 133. | Reclaim land to build buffering zones as parks between high density housing from single family home communities. |
| 134. | Recycling stations. Led and solar lighting. Walking paths. Food truck parking. |
| 135. | Regional parks with the above priority amenities with in and around existing school facilities for maximum use. |
| 136. | Safety and cleanliness are top concerns always. Dog friendly and kid friendly trails are good. Clear information on available amenities is good. A pool or splash park further south in the area would be nice. |
| 137. | save your money!! |
| 138. | Security!!!! We can't even go to the Nathan Chapman Trail or Bradley Lake anymore. Our windows are broken and there's homeless people in the woods |
| 139. | See above. I think that hits the highlights for me. More space to bird watch, walk, hike, enjoy both managed gardens and maintained natural areas. Basically, I want a Point Defiance in every neighborhood! |
| 140. | Sidewalks Parking Spraygrounds |
| 141. | Sierra Viata AZ has a great aquatics center and activities program. Take a peek :) |
| 142. | Soccer important attribute to the region, having a community field in the South Hill area would be great. A lot of the Seattle Parks have one or two fields. Also, a legitimate off leash dog park should be included. Fort Steilacoom park has an amazing one but it is 40 minutes away from South Hill. |
| 143. | Soften the visual impacts of the Cowlitz Substation |
| 144. | Spanaway area needs a spray park and Spanaway Lake Park needs more picnic benches and bbqs. |
| 145. | Spray park greatly needed along with more playground equipment & a dog park. |
| 146. | Spray parks, trails, and open leash dog park |
| 147. | Sprinker and Heritage are great! |
| 148. | Start by keeping our parks safe, clean and when things are broken fix our family has seen drug use, homelessness, broken playground equipment, |
| 149. | Thank you for your ongoing efforts to open Cross Park!!!! We need it! |
| 150. | Thanks for the chance to give my thoughts on this survey. Homeless is a big concern I have for South Hill. Safety too! |
| 151. | The above question covers what is needed in the area. My only comment is the importance of getting a community area established. Without any formal meeting area to meet your community, it is impossible to build that community and the relationships needed for growth. |
| 152. | The community needs more play parks, an equestrian center, and community meeting places |
| 153. | The improvements that have been made at Habitat are wonderful It would be great if there were some gardens in the park as well. The amphitheater is good, but could made more attractive with |

| | |
|------|---|
| | some landscaping. We like Pioneer Park because of all the walking trails and open areas for running the dogs and enjoying the area. |
| 154. | The list provided is already excellent. Only suggestion is to incorporate educational/musical components to the playground areas. |
| 155. | The parks are very nice I just don't think they are protected enough at night when the boogie people are out |
| 156. | The parks in this area are well maintained and I enjoy going to them. |
| 157. | The parks we have are fine. Save your money. |
| 158. | The Spray Park at Ruston Pointe is very popular as well as the one at a Pioneer Park. I believe we need to focus on more of these in the area. |
| 159. | There are no Parks in the Frederickson area to walk to. I have to drive just to take my kids to a nice park. There are not enough community centers to hold events at in the community |
| 160. | There are not enough rural or wilderness-like areas to fish in Pierce County. The lakes we have are significantly impacted by development - making the water quality poor and/or preventing public access. We need to protect and develop (with recreational infrastructure) places where families can fish, hike, and enjoy the outdoors without being in a subdivision. Lake Kapowsin would be an excellent place to make such an investment. |
| 161. | There are so few places left for our kids to explore in nature. Please try to keep some natural spaces, with trails to let families enjoy our beautiful woods. Sport fields and courts are nice, but not at the expense of our woods. |
| 162. | There is a big lack of space to play football and soccer. I think there is too much emphasis on baseball and there need to be some soccer and football fields in the area where people can go play |
| 163. | There is a definite need for senior centers in the areas. There is also no swimming pools or spray parks in the area. Both are needed. |
| 164. | There is no Spray Park in the Spanaway/Parkland area and that is a SHAME. Sprinker would be ideal place, either Park or the Recreation Center |
| 165. | There needs to be more access in Rural Pierce county to some of these services |
| 166. | There really needs to be a crosswalk and traffic stopping connection between Sprinker/Bresemann and Spanaway Park! |
| 167. | This is a rural park, not a city park. Leave it as natural as possible with the needed amenities for those using it. It is relaxing to walk along "Little Spanaway" and watch the ducks & geese. |
| 168. | Visitor centers. Get information, sign up for classes or nature walks. Buy or rent walking sticks, baseballs, soccer balls or tennis balls and rackets. |
| 169. | Volunteers bringing their own tools and using free TAGRO would make for a very cheap garden. Consider contacting schools and churches to be involved. |
| 170. | Walking paths and community space |
| 171. | We definitely need an off-leash dog park area! The one at Clark's Creek park is not adequate. We need a larger area, more grass, more seating for "pet parents." |
| 172. | We have so few parks in the Parkland-Spanaway-Midland area, so having more parks scattered in various neighborhoods might be a good idea. |
| 173. | We love how well Heritage Recreational Park, Nathan Chapman Memorial, and South Hill Loop is maintained. |
| 174. | We need a local skate park and outdoor pool. |
| 175. | We need a much longer fishing pier at Spanaway Park. The lake provides a rare urban fishing opportunity but the present day dock is too short and does not extend far enough into the lake to reach the better fishing areas. |

176. We need more community gardens and event spaces that better represent the local neighborhoods. It would be wonderful to have a cooperative art center for all ages of people in the community. We need more facilities with organized activities, so that community members can come together and get to know each other. In Parkland, many people don't even know their neighbors, and kids spend very little time outside. The Parkland area needs to come together to work in order to develop as a community. Community gardens, a cooperative art center, a cooperative learning center for after school enrichment, festivals representing the diverse cultures found in this area, and a Parkland farmers market would offer this community more opportunities for healthy living, and to develop unity, and pride in our neighborhoods. Better services and community resources would lead to more pride, more pride leads to more feeling of ownership and responsibility for our neighborhood, and more feeling of ownership and responsibility leads to a safer, cleaner, and healthier community.
177. We need more parks in Spanaway/Fredrickson/no man's land. Spanaway Lake gets overloaded with people in the summer, because lots of people don't have yards. Cross park in Fredrickson just needs to become a park already.
178. We only been to one park nearby, I have no idea what the name is? sorry not much help.
179. We REALLY need a south hill splash park AND lacrosse fields! Lax fields can be shared with all other field sports, just proper lining
180. We want one near us!! We've been waiting for across Park for ages it seems! Find this park and get it developing into an actual park. My kids want to actually use it before they move out!
181. When?
182. Where is the money coming from? Don't want additional taxes!!
183. While I enjoy Frontier park, I wish there were parks more in the Pioneer Valley area.
184. Wish I had some brilliant thought - I don't. Whatever will get kids exercising and keep old folks moving.
185. With Lipoma Firs GC closing and Brookdale rumors of closing popping up from time to time, I hope Lake Spanaway GC continues to be available.
186. Would like to see whatever is developed has a long-term plan for maintenance/replacement operation and financing supporting any improvements.
187. Would love a large community park for kids and family and pets with trails
188. Would love more parks for family use.
189. Would love to see a park where 122nd Ave and Lipoma Firs Drive will meet.
190. Would love to see a park with unique, thinking outside the box type ideas. Not what you see on most other parks like the fields for sports, but something to keep kids not interested in sports interested as well instead of them wanting to play on the computer all the time.

PROS Plan – Summary of Public Feedback as of 10/29/19:

66 individual responses have been collected. Four special user group responses were also collected.

53 (80%) individual respondents identified themselves as White, while four (6%) identified as Asian/Pacific Islander and one (2%) identified as Hispanic.

In terms of age groups, 18 (27%) identified as 65+, 21 (32%) as 45-64, 10 (15%) as 35-44, 8 (12%) as 25-34 and 1 (2%) as under 18.

Zip Codes represented include:

98101: 1 (Downtown Seattle)

98321: 1 (Buckley)

98328: 2 (Eatonville)

98338: 4 (Graham)

98360: 1 (Orting)

98371: 1 (Puyallup)

98372: 3 (Puyallup)

98374: 3 (SE Puyallup/South Hill)

98375: 4 (Frederickson/South Hill)

98387: 2 (Spanaway)

98388: 2 (Steilacoom)

98390: 1 (Sumner)

98391: 2 (Bonney Lake)

98402: 1 (Tacoma)

98403: 1 (Tacoma)

98406: 4 (Tacoma)

98407: 2 (Tacoma)

98408: 2 (Tacoma)

98418: 1 (Tacoma)

98422: 2 (Tacoma/Browns Point/Dash Point)

98424: 1 (Fife/Milton)

98444: 3 (Parkland)

98445: 3 (Midland/Parkland)

98465: 1 (Tacoma)

98466: 4 (University Place/Fircrest)

98467: 5 (University Place)

98499: 1 (Lakewood)

Many park programs and uses were requested, but the most common request was for additional trails. There were 57 votes (86%) for pedestrian, bike, and nature trails. This was far more than any other request. The second most popular request, at 20 votes (30%), was for open space. Family/youth activities and pickleball received 15 (23%) and 10 (15%) votes, respectively. Water access (10), new parks (9), spray parks (8), new or improved playgrounds (8) and dog parks (6) were next in popularity (12%), followed by picnic areas (5), sport courts (5), improvements in access to parks (sidewalks, bike lanes, trail heads – 5), accessible amenities (4), parks preservation (4) pump tracks (2) and swimming pools (3). These items represented 6% of the vote. Single votes were given for public art, culturally appropriate activities, and increased shade cover.

The following observations based on respondent comments and the survey's priority chart are as follows:

- There is a lot of interest in the Chambers Creek Canyon improvements - especially in terms of connecting to Chambers Creek Regional Park (4th Phase which includes the road bridge/dam). 11 of the 57 votes for trails (17%) included a mention of this trail. Also of interest for trails, 8 requested more trails in the Central Urban Growth Area (12%) and 11 (17%) requested extensions to the Foothills Trail (especially toward Mt. Rainier)
- There were a few mentions of youth activities as distinct from child or family activities. This may be a topic for recreation programming to explore, especially if partnerships could be developed to support additional youth programming.
- The most-mentioned Park was Cross Park. It was mentioned in 7 (11%) surveys. Also of interest was the Carbon River Valley Conservancy, which received 4 (6%) mentions.
- The survey's priority chart supports respondents' survey narratives. Respondents prioritized trails (avg. score 4.6), open space and family activities tied (4.4), and water access came in last with an average score of just 3.6.

When comparing these results to the Statistically Valid 2013 Phone Survey, the following observations can be made:

- In 2013, the lowest performing, and less "important" amenities included "Open Space", "Regional Trails" and "Waterfront Facilities". In the 2019 survey, Trails and Open Space were given the highest priority, while interest in "Waterfront Facilities" seems to have fallen.
- In 2013, close to the axis of performance and importance, we see "Retaining Wooded Areas" and "Wildlife Habitat Conservation". While these items were not specifically called out in the 2019 survey, they are most closely aligned with the 2019 survey priority called "Open Space".
- Finally, the 2013 survey showed that while respondents rated Parks' efforts toward "Facilities for Family Activities" and "Active Recreation Facilities" as high performers, they ranked them as "high importance". While 2019 survey respondents still denote a high demand for "Family Activities", it would seem that they now rank Open Space and Trails more highly in terms of importance.

Appendix E. CAPITAL REVENUE PROJECTIONS

Revenue projections for funds that are dedicated or partially dedicated to park-related capital projects in support of PROS Plan Chapter 5

PARKS, RECREATION, & OPEN SPACE PLAN

2020

November 2019 Draft

Appendix E.

Capital Revenue

Projections

This appendix expands upon Chapter 5, Capital Facilities Action Plan, to provide additional information about revenue projections for funds that are eligible for capital projects.

Special revenues and other revenues are addressed including:

Special Revenues and Grants Used for Capital Improvements

- Park Impact Fees
- Park Sales Tax
- Real Estate Excise Tax 2 (REET 2)
- Grants

Each of the special revenues is summarized in Chapter 5, Capital Facilities Action Plan, and expanded upon below. A summary of the projections follows the revenue-specific discussions.

This section does not address Motor Vehicle Fuel Tax (MVFT). Though it can be used for either maintenance and operations or capital facilities development Pierce County focuses its use for maintenance and operations of trails.

APPROACH AND ASSUMPTIONS

The revenue projections are based on an evaluation of historic trends and changes in the drivers of the revenue: population growth targets and inflation for park impact fees, growth in taxable retail sales for Parks Sales Tax, change in assessed value for REET, and historic per capita average for grants. The horizon year for the projections is consistent with the Pierce County Comprehensive Plan.

The following are assumptions by revenue or funding type:

- **Park Impact Fees:** The analysis assumes the Park Impact Fee is increased for inflation as directed in PCC 4A.10.130 and 4A.20.020. The projected growth is consistent with the Pierce County Comprehensive Plan population targets for the year 2030. Growth projections for 2020-

2030 are slightly lower than recent actual growth; if the County were to grow more consistent with recent trends, there would be additional Park Impact Fee revenues.

- **Park Sales Tax:** Estimates of Park Sales Tax revenues are based on growth in taxable retail sales (TRS). The analysis assumes a future growth rate of 5.8%, which was the average growth in Pierce County TRS over the last two decades. The estimates are further calculated based on proportion of the County's population living in unincorporated areas.
- **REET 2:** REET 2 revenues are estimated by multiplying assessed property values of properties in unincorporated Pierce County by 0.0049%. That percentage is based on a long-term average of property sales and the proportion of revenue from those sales that comes to Pierce County Parks and County budget assumptions for 2019. This provides a realistic average for growth that considers market spikes and recessions.
- **Grants:** In the period of 2006-2018, the County received about \$1.86 per capita in combined state and federal grant revenues. While it is possible the County could be more successful leveraging other special revenues as match for the 2020-2030 period, this revenue analysis assumes the historic rate of \$1.86 per capita.

SPECIAL REVENUES AND GRANTS

Impact Fees

A county can impose impact fees on new residential developments to help fund needed capital parks projects to serve the new development. Impact fees can be used to pay the proportional share that each development benefits from public facilities but cannot be used to correct existing deficiencies. Parks impact fees may only be charged on developments in unincorporated areas of the County, unless there are reciprocal impact fee agreements with cities (e.g. shared demands on regional facilities from development in cities).

Park Impact Fees can be used for capital "system improvements," including park development, site acquisition, and debt service on projects that add capacity to the park system. An updated impact fee became effective in 2017 (Ordinance 2016-51s). It is based on the value of the park system per capita in 2016, carried forward in the future as growth occurs. As of 2019, the fee is \$2,552 per new dwelling unit.

Chapters 4A.10.130 and 4A.20.020 of the PCC create a schedule and method for the regular review and revision of the Park Impact Fee.

PCC outlines the method that should be used for updates and inflationary adjustments to the Park Impact Fee. However, for the purposes of longer-term budgeting and planning, recent construction costs have increased substantially at a rate that is unlikely to continue indefinitely. For planning purposes, the County used the more conservative 10-year average annual growth rate of 2.84% to project changes in Park Impact Fees.

Assumptions. Since impact fees are related to new residential development, this analysis estimates future revenues based on projected residential construction in the unincorporated area of the County. The basis for the projection is the 2030 population figures from Countywide Planning Policies for Pierce County and an average household size of 2.5 persons, as identified in the Park Impact Fee Working Group Report to the Pierce County Council (June 29, 2016) and Park Impact Fee regulations (PCC 4A).

As described in Chapter 4, Demand and Needs Assessment, the population in unincorporated Pierce County is expected to grow by more than 22,000 people between 2019 and 2030. Growth projections for 2020-2030 are slightly lower than recent actual growth; if the county were to grow more consistent with recent trends, there would be additional impact fee revenues to address the needed parks, trails, and facilities capacity. See Exhibit 1 regarding housing changes over the 2020-30 period and potential impact fee revenue.

Exhibit 1. Housing Change 2020-2030 and Potential Impact Fee Revenue

| Method | Annual Change in Dwellings: 2020-2030 | Potential Parks Impact Fee Net Revenue |
|--|---------------------------------------|--|
| 2020-2030 Population Target Divided by Household Size 2.5 | 809 | \$25,413,000 |
| Average Annual Change 2007-2017 Pierce County Net Building Permits PSRC Unincorporated Urban and Rural | 1,484 | \$46,826,000 |
| Average Annual Change 2011-2019 OFM Unincorporated Urban and Rural | 1,615 | \$50,707,000 |
| 2020-2030 Housing Target Unincorporated Urban and Rural | 1,657 | \$52,040,000 |

Sources: Pierce County 2011, OFM 2019, PSRC 2017, BERK 2019.

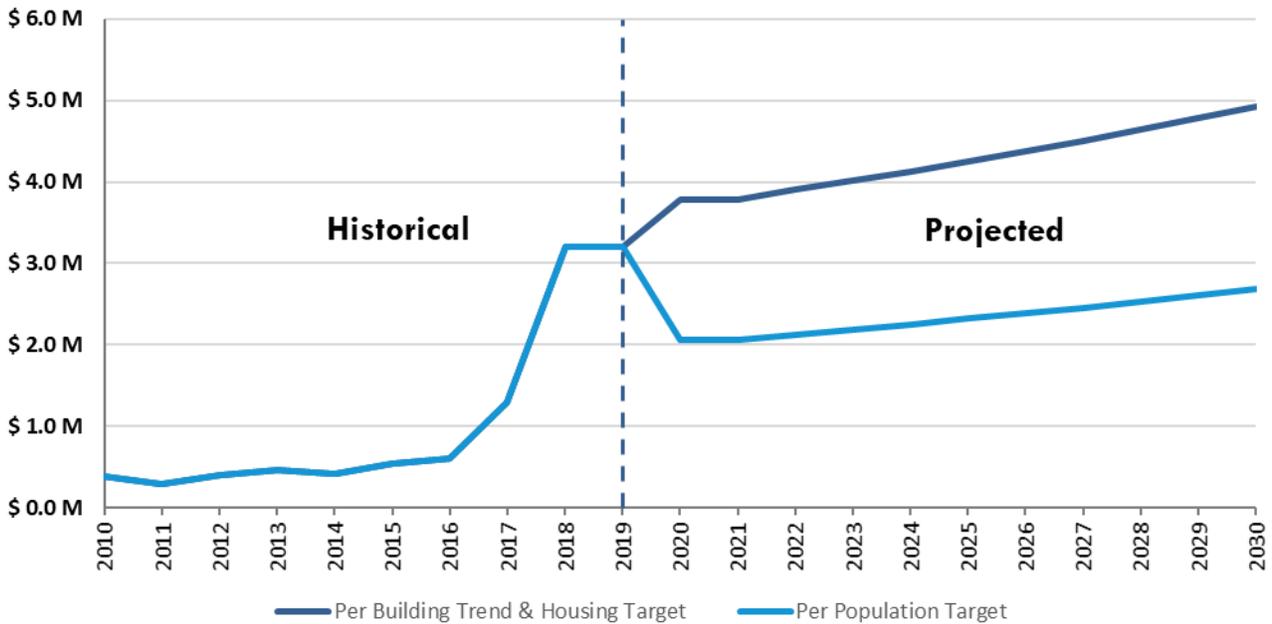

Since the County has added population in existing dwellings as well as in new ones, there is less population target left compared to remaining housing target. Dividing the remaining population by the average 2.5 persons per

household, there would be an annual average of 809 dwelling units per year from 2020 to 2030. The resulting revenue over the 10-year period would be about \$25 million. If considering remaining housing targets, there could be an annual average change of 1,657 dwellings. This would result in about \$52 million. Based on issued building permits the revenue would be about \$47-\$51 million. For a reasonably conservative approach this revenue projection is based on \$47 million factoring in growth trends that are within housing targets.

Exhibit 2, Actual and Projected Park Impact Fee Revenues, shows historical Park Impact Fee revenues to the left of the dotted line reflecting much lower revenues as a result of the lower fee prior to adoption of the updated Park Impact Fee in 2016, and full implementation of that fee in 2018. Estimated future revenues shown on the right based on the adopted Impact Fee. The graphic illustrates the low population-based range and expected building trend range.

Projections are expressed in year of expenditure dollars. Future years 2022-2030 assume an inflationary increase in the fee, as allowed in PCC 4A.20.020 B) at the 10-year historic average annual growth rate of 2.84%.

Exhibit 2. Actual and Projected Park Impact Fee Revenues (2010-2030 in YOES)

Source: Pierce County, 2017; and BERK, 2017.

Park Sales Tax

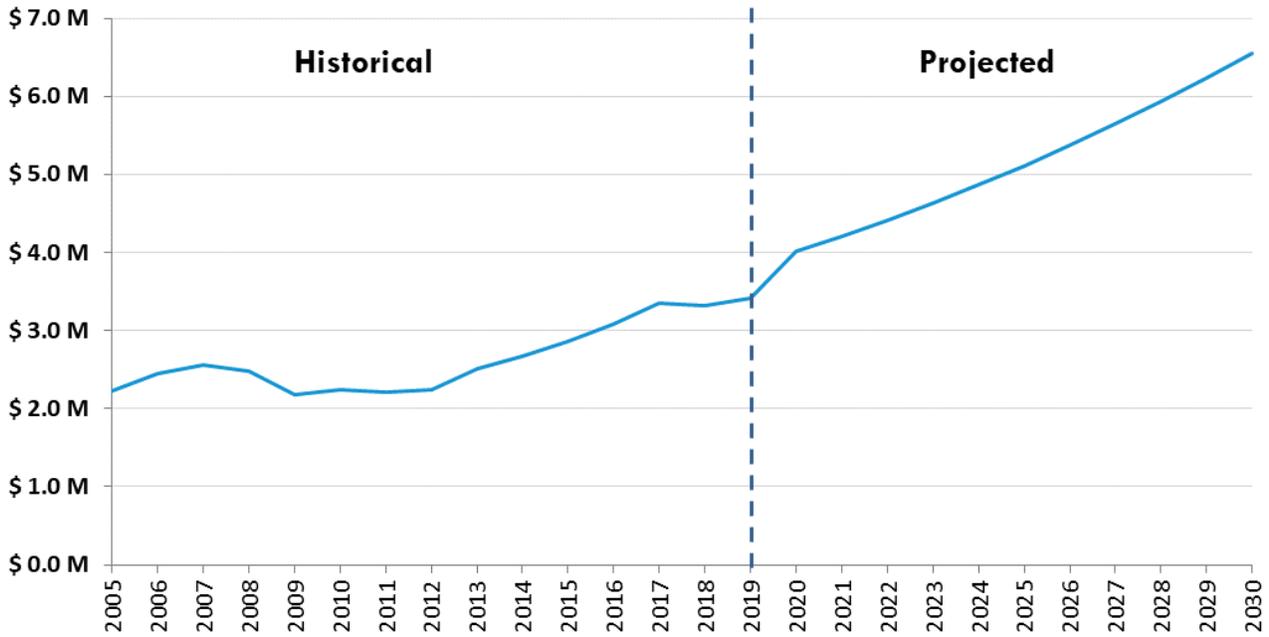

Unique to Pierce County, a Park Sales Tax equal to one tenth of one percent was approved by voters in 2000. The tax is to be used for regional and local parks, accredited zoos, aquariums, and wildlife preserves. The allocation of the tax receipts was established as 50% for the Zoo/Trek authority and 50% for the cities and Pierce County. The second 50% is allocated between the cities (or Metro Park Districts) and the County based upon the most recent state-certified population figures.

These funds can be used for financing, acquisition, capital construction, administration, maintenance, and operations. Park Sales Tax funds cannot be used to replace or supplant existing capital funding per RCW 82.14.400. In Pierce County only a portion of Park Sales Tax is used for capital funding, as it is also used for maintenance and administration.

Assumptions. The estimates of Park Sales Tax revenues are based on growth in taxable retail sales (TRS) over the planning period. Pierce County TRS generally declined during the economic downturn but have increased annually since 2012. This analysis assumes a future growth rate of 5.8%, the average growth in Pierce County TRS over the last two decades. This is higher than the 3.5% growth rate assumed in the 2014 PROS Plan, which was conservative in response to the economic downturn. By including more than 20 years of data, the rate used in this assumption is more likely to account for periods of exuberant growth and recessions. The estimates are further calculated based on proportion of the County's population living in unincorporated areas.

Exhibit 3, Actual and Projected Park Sales Tax Revenues, illustrates historical/actual revenues to the left of the dotted line and estimated future revenues to the right. These are total revenues that may be used for any allowed purpose including financing, acquisition, capital construction, administration, maintenance, and operations.

Exhibit 3. Actual and Projected Park Sales Tax Revenues (2005-2030 in YOES\$)

Source: Pierce County, 2019; and BERK, 2019.

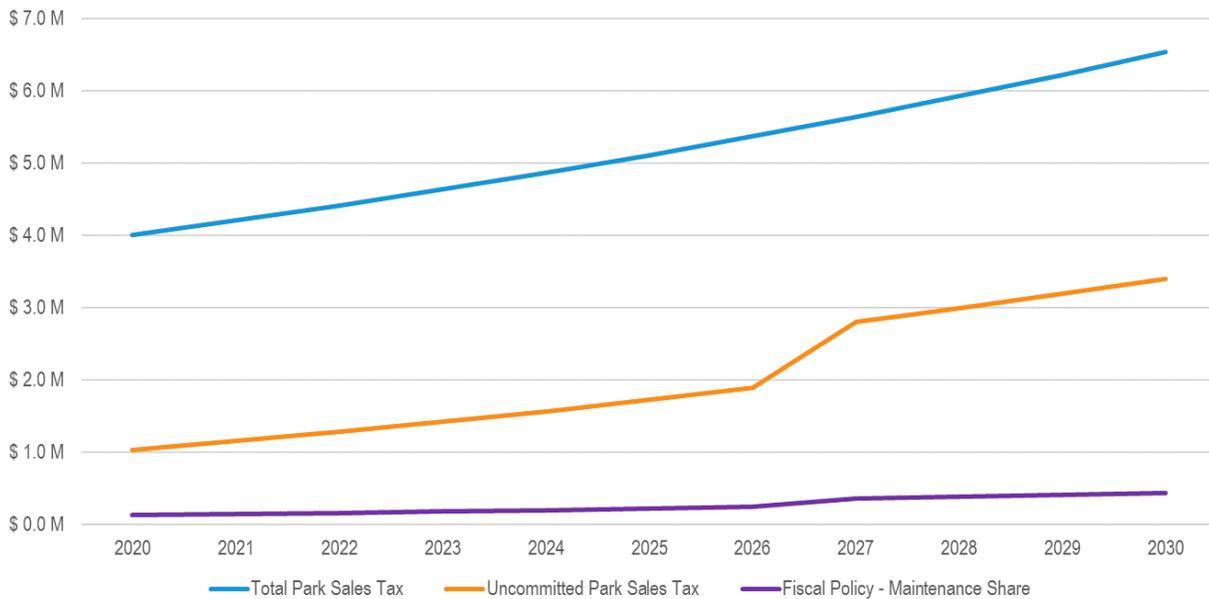

About 60% of Parks Sales Tax is used for debt service, administration, maintenance, and operations.

Pierce County Parks has had variable experience with its share of special revenue accounts used for administration, maintenance, and operations. In the last 10 years (2008-2018) the share was about 40% including all special revenues examined in this Appendix plus MVFT, and most of that drawn from Park Sales Tax. From 2014-2018 the share of administration, maintenance, and operations from these funds was lower at 31%.

It is important to maximize the use of special revenues for capital facility purposes, as well as to identify additional resources for operation and maintenance to keep pace with the growing park system. The revenue projections assume an average of the 2017-2018 administration, maintenance, and operations expenses with inflation over time. In addition, to ensure there is adequate maintenance and operations funding and a contingency for matching dollars, insurance, etc. the Park Sales Tax revenue projections assume a similar relationship of maintenance resources to total capital budget per the fiscal policy capital list.

See Exhibit 4 indicating Total and Uncommitted Park Sales Tax Revenues including the potential set aside for expenses.

Exhibit 4. Actual and Projected Park Sales Tax Revenues – Total and Uncommitted (2020-2030 in YOES\$)

Source: Pierce County, 2019; and BERK, 2019.

Second Real Estate Excise Tax (REET 2)

A Real Estate Excise Tax (REET) is levied on all real estate sales measured by the full selling price (including the amount of any liens, mortgages, and other debts) given to secure the purchase. All cities and counties may levy a 0.25% of the full sale price of real estate (described as "the first quarter percent of the real estate excise tax" or "REET 1") to fund a wide range of street/road, water, sewer, parks, trails, law and judicial, fire protection, library, administrative, and flood control projects, as well as housing relocation assistance. Cities and counties that are planning under the Growth Management Act (GMA) have the authority to levy a second quarter percent tax (REET 2) to fund transportation, water/storm/sewer, and park capital projects. Counties can collect REET revenues only on transactions in the unincorporated portions of the jurisdiction.

Because this funding may be used for different types of capital and is not restricted to parks only, it is up to each jurisdiction to determine how to spend these funds. Pierce County currently allocates 75% of REET 2 to transportation projects and 25% for park projects.

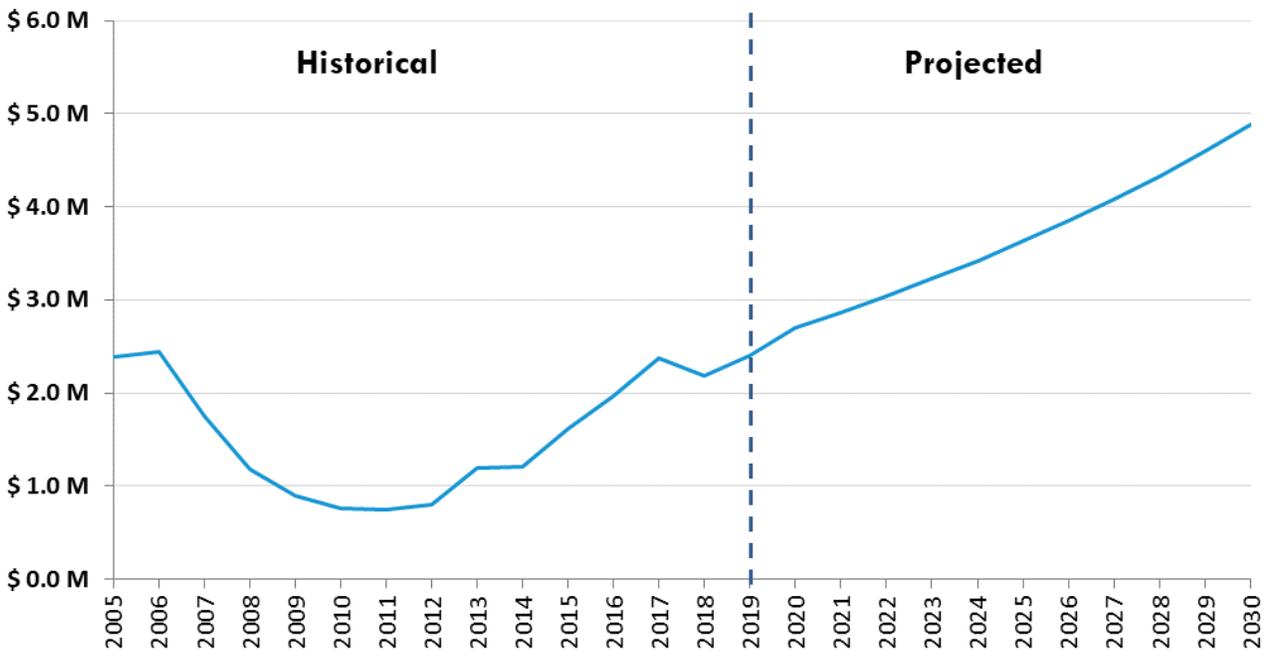

Since REET is based on the total value of real estate transactions in each year, REET revenues can vary substantially from year to year based on fluctuations in the real estate market. During years when the real estate market is active, revenues are high, and during softer real estate markets (as demonstrated during the recent recession), revenues are lower.

Assumptions. Because REET 2 revenues are directly related to the sale and value of real estate, this analysis calculates REET 2 revenues as a share of total assessed value (AV) for unincorporated Pierce County. Using the REET’s percent of total AV is imperfect because REET is only collected on real estate transactions. Nevertheless, the assumption used is based on historic AV trends.

Between 2006-2018, the average revenue from REET 2 that has come to park projects as a share of total AV has been 0.0042%. This period was a time of extreme volatility in the real estate market. However, because it includes a bubble, recession, and recovery, the average is considered an appropriate approximation. The 2018 budgeted amount was 0.0050%; the 2019 budgeted amount is 0.0049%. For the last five years the average actual REET as a share of total AV has been 0.0052%. The 2019 budgeted amount is used for the remaining years 2020-2030 and is slightly less optimistic than the last five years but is more aligned with longer-term actuals. The assumption can be revisited in the future as the County updates its PROS Plan every six years and as it updates its Capital Facility Plan every two years.

Exhibit 5, Actual and Projected REET 2 Revenues, shows historical REET 2 revenues to the left of the dotted line and estimated future revenues to the right.

Exhibit 5. Actual and Projected REET 2 Revenues (2005-2030 in YOES\$)

Source: Pierce County, 2019; Washington State Department of Revenue, 2018; and BERK, 2019.

Grants

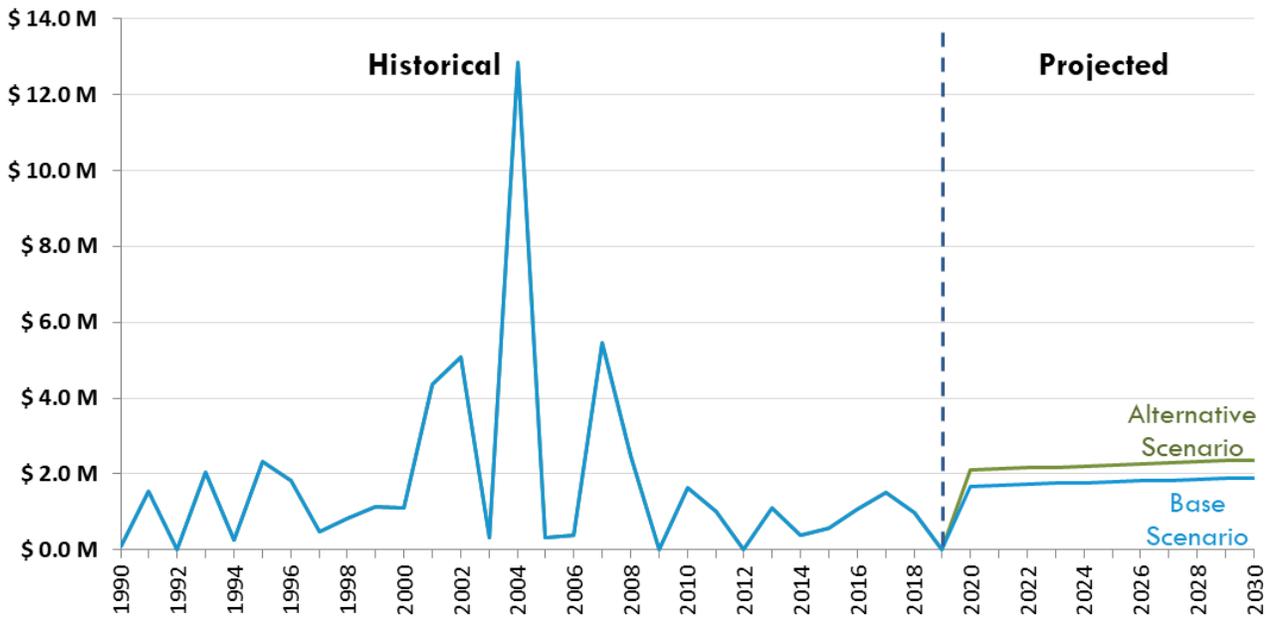

Additional revenues for parks capital projects and acquisitions generally come from state and federal grants. State grants, which usually come from the Washington State Recreation and Conservation Office (RCO) and the Washington State Department of Commerce, make up the largest of these sources. Additionally, this analysis considers Conservation Futures grants, which are primarily used to add acres to the park system through open space acquisition.

Assumptions. Because grants are competed for on a state or national level, this analysis estimates these revenues on a per capita basis on the assumption that over time a jurisdiction will generally receive its “fair share” of available grant revenues. In the period of 2006-2018, the County has received about \$1.86 per capita in combined state and federal grant revenues. The annual grants per capita varies from \$0 to \$6.92, reflecting the uncertainty in securing grants.

In addition to the historical average per capita rate, the County increased the Park Impact Fee to \$2,552 per new dwelling unit in November 2016 (phased in through 2018). The revenues from the Park Impact Fee have increased the amount of matching funds available for grants, which is expected to increase the County’s general success rate at securing grant funding. If success were to increase by 25%, the per capita amount would increase to \$2.33.

Exhibit 6, Actual and Projected Grant Revenues, shows historical revenues to the left of the dotted line and estimated future revenues to the right. For the 2020-2030 period, this revenue analysis assumes a base scenario using the historic rate of \$1.86 per capita. The higher per capita amount at \$2.33, assuming more available matching funds, is illustrated as the Alternative Scenario, with the green line. No matter what the future per capita rate is, grant revenues will continue to vary greatly from year to year and will likely resemble the trend of peaks and valleys shown in historical data.

Exhibit 6. Actual and Projected Grant Revenues (1990-2030 in YOES)

Source: Pierce County, 2019; and BERK, 2019.

Conservation Futures Grants: Because Conservation Futures is a competitive granting program to eligible jurisdictions and organizations countywide, Pierce County must make application to compete to use Conservation Futures resources to acquire properties. Once acquired, no more than 25% of Conservation Futures resources can be used to maintain and operate the properties acquired by the County. The County’s historic success in being awarded Conservation Futures is included in Grant revenues in the section above.

Special Revenues Summary

Special Revenues are that portion of the total Pierce County Parks budget that are used for capital improvements. Estimated future Special Revenues have been projected for the Plan’s full 2020-2030 period, as well as the six-year period of 2020 to 2025 (aligning with the County’s biennial budget and capital facilities plan adoption cycle). Revenues for both periods are expressed in year of expenditure dollars (YOES).

Generally, the projections are based on a consideration of historic trends and expected growth in population/dwellings (Park Impact Fees), assessed value (REET 2), or taxable retail sales (Park Sales Tax). The assumptions for each Special Revenue are detailed above.

Exhibit 7, Projected Funds Available for Capital Expenditures: Special Revenue Funds and Grants, summarizes projected total capital revenues dedicated to park and trail capital projects available over the planning period.

Exhibit 7. Projected Funds Available for Parks Capital Expenditures: Special Revenue Funds and Grants (2020-2030 in YOES)

| Potential Revenue and Expenditures | Subtotal 2020-2025 | Subtotal 2026-2030 | Total 2020-2030 |
|--|-----------------------|-----------------------|----------------------|
| Park Impact Fees | | | |
| Gross Revenue | \$23,876,000 | \$23,227,000 | \$47,103,000 |
| Expenditures excluding capital | \$138,000 | \$139,000 | \$277,000 |
| Net possible for capital | \$23,738,000 | \$23,088,000 | \$46,826,000 |
| Park Sales Tax | | | |
| Gross Revenue | \$27,253,000 | \$29,717,000 | \$56,970,000 |
| Expenditures excluding capital | \$20,105,478 | \$17,247,225 | \$37,352,703 |
| Net possible for capital | \$7,148,000 | \$12,470,000 | \$19,618,000 |
| Park REET 2 | | | |
| Gross Revenue | \$18,882,000 | \$21,742,000 | \$40,624,000 |
| Expenditures excluding capital | \$2,606,000 | \$1,525,000 | \$4,131,000 |
| Net possible for capital | \$16,275,000 | \$20,217,000 | \$36,492,000 |
| Sum of Net Special Revenues for Capital | \$47,161,000 | \$55,775,000 | \$102,936,000 |
| Grants and Donations | | | |
| Grants | \$10,404,000 | \$9,272,000 | \$19,676,000 |
| Donations | \$1,683,000 | \$0 | \$1,683,000 |
| Sum of Other Potential Capital Funding Sources | \$12,087,000 | \$9,272,000 | \$21,359,000 |
| Grand Total Net Revenues | \$59,248,000 | \$65,047,000 | \$124,295,000 |

Source: BERK 2019.

As represented in Exhibit 7 above, Pierce County Parks is forecasted to have \$102.9 million available for capital funding with special revenues, and if successful with grants and donations up to \$124.3 million for capital improvements from 2020 to 2030.

| 6 | 1 | Parkland Community Trail Design and Construction | Design and construct a community trail between PLU and Sprinker Recreation Center linking parks and schools. | \$2,210,000 | | | \$2,125,000 | | | \$4,335,000 | 2019-23 | Trail |
| 7 | 1 | Pipeline Trail Design and Construction | Design and construct a trail along the Tacoma Water Pipeline between Tacoma and South Hill. This project is in both the Central and South regions. | \$5,200,000 | | | \$2,200,000 | | | \$7,400,000 | 2019-23 | Trail |
| 8 | 1 | Pipeline Trail Trailhead at Oranegate Park Design and Construction | Design and construct a trailhead for the Pipeline Trail at Oranegate Park and additional park amenities identified in the 2020 master plan update if funding allows. | \$1,000,000 | \$900,000 | | \$500,000 | | | \$2,400,000 | 2021-22 | New Park |
| 9a | 1 | Spanaway Regional Park – Spanaway Park Fantasy Lights Storage Building Construction | Construct a storage building for secure and dry storage of light displays. | | | | | \$800,000 | | \$800,000 | 2020 | Preservation |
| 9b | 2 | Spanaway Regional Park – Spanaway Park Water Access Improvements Design and Construction | Design and construct improvements for public access to the waterfront at Spanaway Park as identified during public outreach in 2026-27. | \$500,000 | \$3,800,000 | | \$1,000,000 | | | \$5,300,000 | 2026-30 | Existing Park |
| 10a | 2 | Spanaway Regional Park – Sprinker Recreation Center Building and Programming Study and Building Improvements | Master plan SRC building and programming to ensure preservation projects meet the needs of future building uses. Building improvements are unfunded. | \$125,000 | | \$2,000,000 | | | \$6,000,000 | \$8,125,000 | 2020-28 | Existing Park |
| 10b | 1 | Spanaway Regional Park – Sprinker Recreation Center Maintenance Shop Construction | Construct a maintenance shop to securely store maintenance equipment. | | | \$600,000 | | | | \$600,000 | 2022-23 | Preservation |
| 10c | 1 | Spanaway Regional Park – Sprinker Recreation Center Outdoor Improvements Design and Construction | Design and construct outdoor improvements identified in improvement study and 2019-20 public outreach. | \$5,150,000 | \$2,120,000 | \$2,000,000 | \$850,000 | | | \$10,120,000 | 2019-23 | Existing Park |
| 10d | 1 | Spanaway Regional Park – Sprinker Recreation Center Hockey Team Rooms Construction | Construct team rooms for hockey inside Sprinker Recreation Center. | | \$1,285,000 | \$315,000 | | | | \$1,600,000 | 2019-23 | Existing Park |

| MapID | Priority | Project Name | Project Description | Park Impact Fee | REET 2 | Park Sales Tax | Projected Grant Funding | Other | Unfunded | Estimated Total Project Cost | Estimated Timeline | Project Type |
|------------------------------|----------|---|--|-----------------|-------------|----------------|-------------------------|-----------|-------------|------------------------------|--------------------|---------------|
| NORTH REGION PROJECTS | | | | | | | | | | | | |
| 11 | 2 | Buckley Forestland Preserve Public Access | Design and construct improvements to provide public access. | \$75,000 | | | | | \$350,000 | \$425,000 | 2019-21 | New Park |
| 12 | 2 | Carbon River Valley Master Plan | Work with major landholders and stakeholders to develop a master plan to improve public access to recreation in the Carbon River Valley. | | \$75,000 | | | | | \$75,000 | 2020 | New Park |
| 13a | 1 | Foothills Trail - Bridge at White River Construction Partnership with King County | Contribute funding to King County construction of pedestrian bridge linking Foothills Trail at Buckley to trails in Enumclaw. | \$266,000 | | | | | | \$266,000 | 2021 | Trail |
| 13b | 2 | Foothills Trail – Cascade Junction to Carbonado Extension Design and Construction | Design and construct trail extension to Carbonado. A portion of this project in unfunded. | \$1,700,000 | | | \$1,300,000 | | \$3,900,000 | \$6,900,000 | 2020-30 | Trail |
| 13c | 1 | Foothills Trail – Preservation and Safety Improvements Construction | Construct improvements to bridges to preserve public safety and continued use. | | | \$700,000 | | | | \$700,000 | 2023-25 | Preservation |
| 13d | 2 | Foothills Trail – Puyallup Trailhead Expansion Design and Construction | Design and construct expansion to existing trailhead to accommodate additional vehicle parking and improve stormwater system. | \$1,550,000 | | \$500,000 | \$600,000 | \$350,000 | | \$3,000,000 | 2021-23 | Trail |
| 13e | 1 | Foothills Trail – Riverwalk Trail Connection Design and Construction | Design and construct a trail segment connecting to Riverwalk Trail. | \$840,000 | | \$2,000,000 | \$600,000 | | | \$3,440,000 | 2029-30 | Trail |
| 14a | 1 | North Lake Tapps Park – Restroom and Bulkhead Replacement Construction | Construct replacement restroom and bulkhead. | | \$3,000,000 | | | | | \$3,000,000 | 2019-20 | Preservation |
| 14b | 1 | North Lake Tapps Park – Parking and Water Access Improvements Design and Construction | Design and construct improvements to parking and water access as identified in improvement study. | \$2,000,000 | \$5,900,000 | | \$2,300,000 | | | \$10,200,000 | 2022-25 | Existing Park |
| 15 | 2 | North Region New Sports Complex Design and Construction | Design and construct a new sports complex in the North Region in partnership with another provider. | \$200,000 | \$500,000 | | \$500,000 | | | \$1,200,000 | 2028-30 | New Park |
| 16 | 1 | Plateau Park Design and Construction | Design and construct new park improvements identified in 2025 master plan update. | \$3,800,000 | \$1,000,000 | \$1,900,000 | \$500,000 | | | \$7,200,000 | 2025-28 | New Park |
| 17 | 2 | Tacoma-to-Puyallup Trail Study Partnership | Contribute funding to a study to identify future alignment of a trail between Tacoma and Puyallup. | \$60,000 | | | | | | \$60,000 | 2020 | Trail |
| 18 | 2 | White River Flume Trail Public Access Design Partnership | Partnership with Cascade Water Alliance to study public access improvements needed for the White River Flume Trail. | \$100,000 | | | | \$100,000 | | \$200,000 | 2020-21 | Trail |
| SOUTH REGION PROJECTS | | | | | | | | | | | | |
| 19a | 1 | Cross Park Phase 1 Construction | Construct Phase 1 of Cross Park as identified in the master plan. | \$2,822,500 | \$25,000 | | \$1,292,500 | | | \$4,140,000 | 2019-20 | New Park |
| 19b | 2 | Cross Park Phase 2 Design and Construction | Design and construct improvements identified in 2026 master plan update. | \$1,850,000 | \$1,300,000 | | \$500,000 | | | \$3,650,000 | 2026-29 | New Park |
| 20a | 1 | Frontier Park Preservation Construction | Construct ADA pathway and water system improvements to improve safety and preserve existing infrastructure. | | \$320,000 | | \$100,000 | | | \$420,000 | 2020-21 | Preservation |

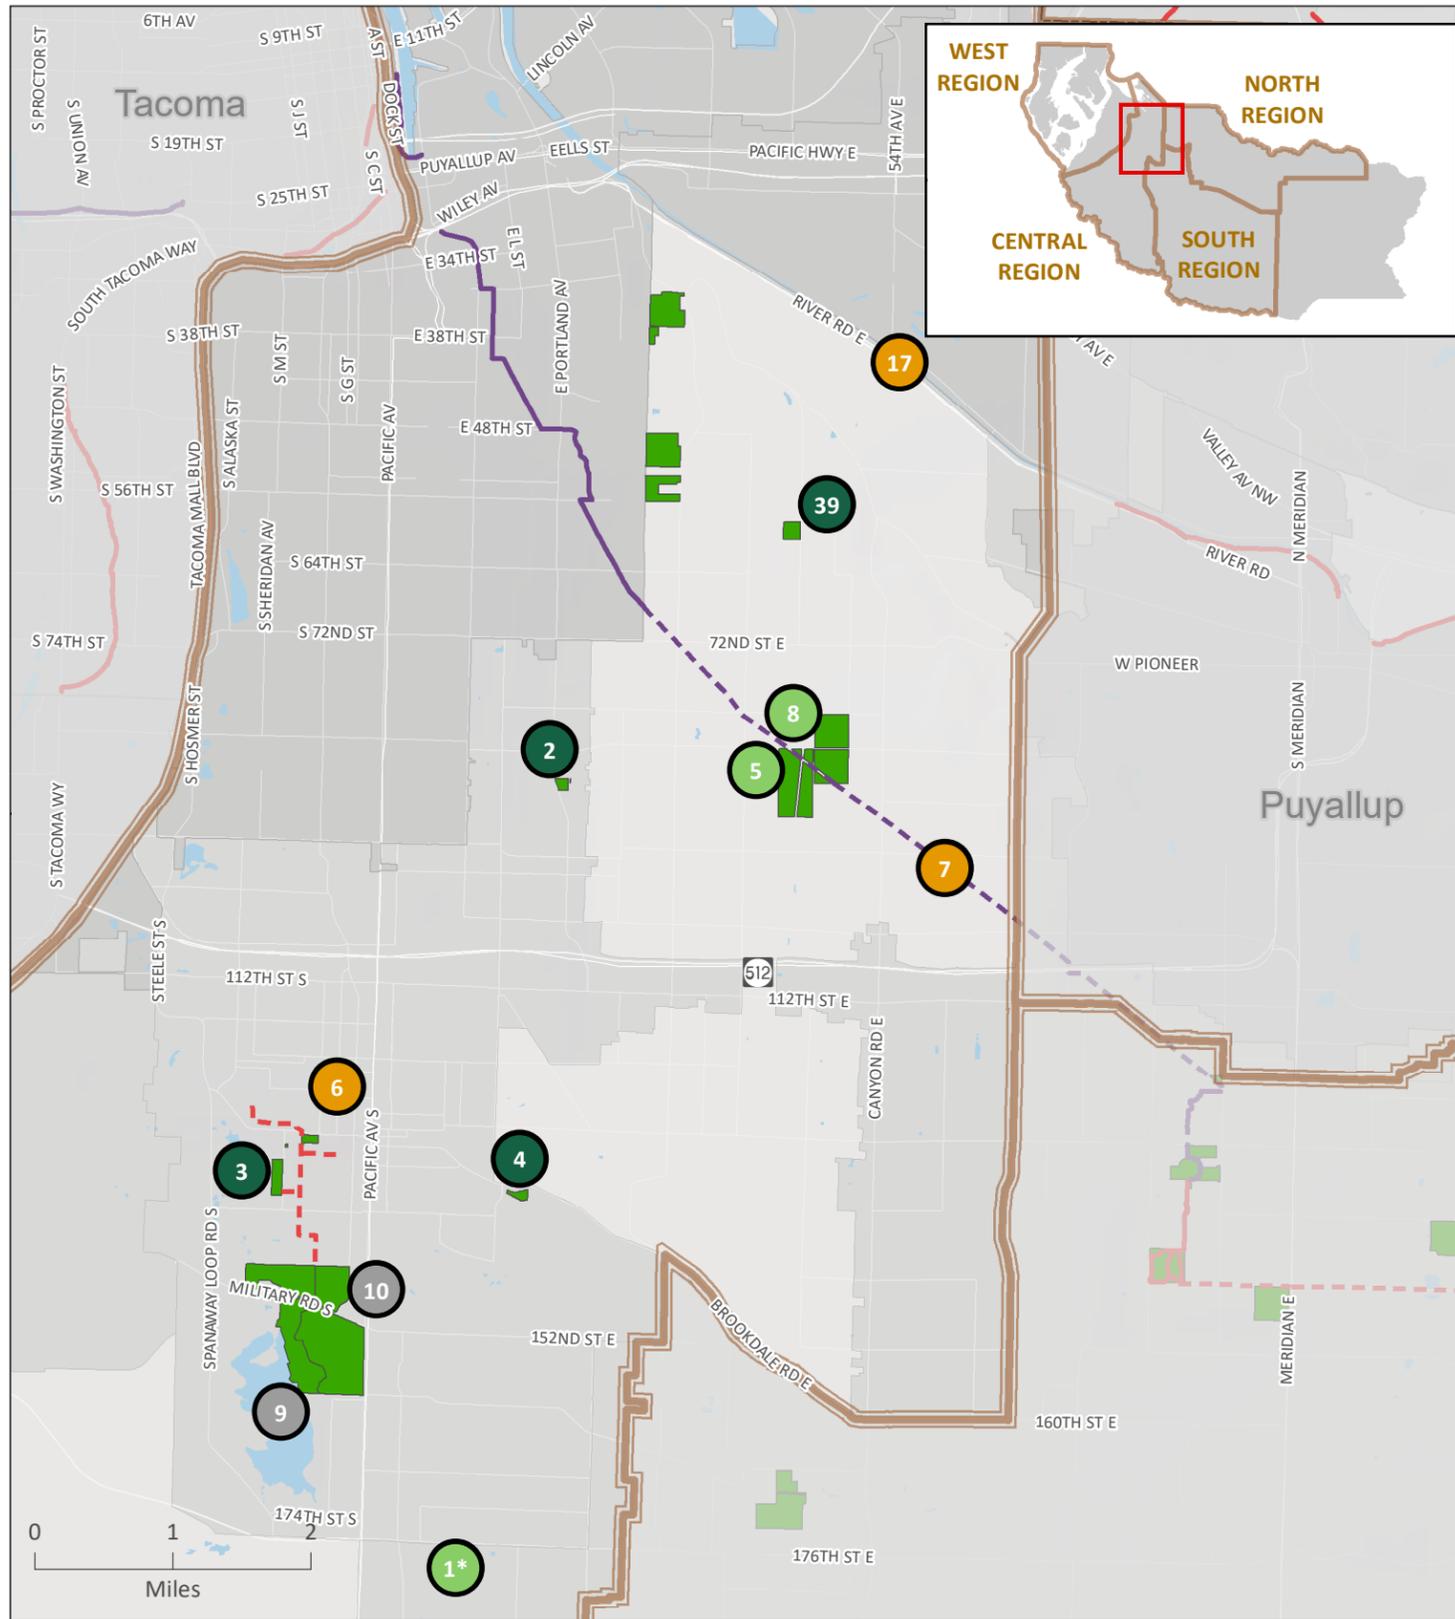

| MapID | Priority | Project Name | Project Description | Park Impact Fee | REET 2 | Park Sales Tax | Projected Grant Funding | Other | Unfunded | Estimated Total Project Cost | Estimated Timeline | Project Type |
|-----------------------------|----------|--|---|-----------------|-------------|----------------|-------------------------|-----------|-------------|------------------------------|--------------------|---------------------------|
| 20b | 1 | Frontier Park Improvements Design and Construction | Design and construct improvements identified in 2027 public outreach. | \$3,900,000 | | | \$500,000 | | | \$4,400,000 | 2028-30 | Existing Park |
| 40 | 3 | Hopp Farm Park Design and Construction | Design and construct new park improvements identified in 2025 master plan. | | | \$1,250,000 | \$500,000 | | | \$1,750,000 | 2026-28 | New Park |
| 21a | 2 | Meridian Habitat Park – Community Center Improvements | Design and construct improvements to community center. Building improvements are unfunded. | | \$1,300,000 | \$2,000,000 | | | \$5,000,000 | \$8,300,000 | 2022-25 | Preservation |
| 21b | 1 | Meridian Habitat Park – Outdoor Improvements Design and Construction | Design and construct outdoor improvements identified in the master plan. | \$500,000 | \$1,125,000 | | | | | \$1,625,000 | 2020-21 | New Park |
| 22 | 1 | Pipeline Trail Trailhead at Half Dollar Park Design and Construction | Design and construct a trailhead for the Pipeline Trail at Half Dollar Park with additional park amenities identified in the 2020 master plan if funding allows. | \$1,700,000 | \$400,000 | | | | | \$2,100,000 | 2021-24 | Trail |
| 23 | 1 | South Hill Community Trail Design and Construction | Design and construct a community trail system connecting South Hill Community Park and Nathan Chapman Trail to Hundred Acre Wood. | \$2,900,000 | | | \$1,100,000 | | | \$4,000,000 | 2026-30 | Trail |
| 24 | 1 | South Region Turf Ballfields Design and Construction | Design and construct turf ballfield improvements at a park in the South Region. | \$2,050,000 | \$2,100,000 | | \$800,000 | | | \$4,950,000 | 2028-30 | Existing Park or New Park |
| 25 | 1 | South Region New Park Acquisition and Design | Acquire and design a new park in the urban area of the South Region. Construction of first phase may be included if funds allow. | \$400,000 | \$1,900,000 | | \$1,000,000 | | | \$3,300,000 | 2026-30 | New Park |
| WEST REGION PROJECTS | | | | | | | | | | | | |
| 26 | 3 | Chambers Creek Regional Park – Central Meadow Improvements Design and Construction | Design and construct restrooms, stage or picnic shelter and other necessary improvements. This project is unfunded. | | | \$600,000 | | | \$1,000,000 | \$1,600,000 | 2026-27 | Existing Park |
| 27 | 2 | Chambers Creek Regional Park – Chambers Creek Canyon Trail Expansion Design and Construction | Design and construct improvements and extension of trail to connect to Kobayashi Park. | \$196,000 | | | \$859,000 | \$583,000 | | \$1,638,000 | 2019-21 | Trail |
| 28 | 3 | Lakewood Community Center Building Improvements Construction | Construct improvements to preserve the building. | | \$100,000 | | | | | \$100,000 | 2020 | Preservation |
| 29 | 1 | KeyPen/PenMet Park Districts Regional Park Project Partnership | Contribute Park Impact Fees to a regional park project partnership on Gig Harbor or Key Peninsula. | \$800,000 | | | | | | \$800,000 | 2023 | New Park |
| 30 | 1 | KeyPen/PenMet Park Districts Regional Trail Project Partnership | Contribute Park Impact Fees to a regional trail project partnership on Gig Harbor or Key Peninsula. | \$1,400,000 | | | | | | \$1,400,000 | 2027-30 | Trail |
| 31 | 2 | Seeley Lake Park Improvements Construction | Construct improvements to trails and habitat to improve safety and accessibility in partnership with City of Lakewood. | | \$50,000 | | | | | \$50,000 | 2020 | Preservation |
| SYSTEM-WIDE PROJECTS | | | | | | | | | | | | |
| 32 | 1 | ADA Transition Plan Improvements Design and Construction | Design and construct improvements identified in the ADA Transition Plan. | | | \$1,735,000 | | \$450,000 | | \$2,185,000 | 2020-27 | Preservation |
| 33 | 1 | Master Plans and Site Feasibility Studies | Develop and update master plans through a public outreach process and complete site feasibility studies to guide design of park projects identified in this plan. | \$1,640,000 | | | | | | \$1,640,000 | 2020-30 | All |

| MapID | Priority | Project Name | Project Description | Park Impact Fee | REET 2 | Park Sales Tax | Projected Grant Funding | Other | Unfunded | Estimated Total Project Cost | Estimated Timeline | Project Type |

PARKS, RECREATION, & OPEN SPACE PLAN

Parks, Recreation, & Open Space Plan 2020
November 2019 Draft

Draft

Appendix G. TRAIL INVENTORY DETAIL

Trail system detail including existing and proposed trail miles for Regional and Connector trails identified in the Regional Trails Plan.

PARKS, RECREATION, & OPEN SPACE PLAN

2020

November 2019 Draft

Appendix F. Connector and Regional Trail Inventory Detail

The following trail detail is accurate for Pierce County Parks trails; however, may be out-of-date for trails within other jurisdictions. Pierce County Parks will work with other jurisdictions and organizations to update this data in the future. Proposed trail mileage is estimated and is likely to change as trail routing and design are completed. See Chapter 6, Regional Trails Plan, for information about whether trails, or portions thereof, will be completed by Pierce County Parks in 2020-2030. See Chapter 3, Current Parks and Recreation Inventory, for a list of Intrapark trails (trails and walking paths located within Pierce County parks).

Existing and Proposed Connector and Regional Trail Miles

| Trail Name | Existing Mileage | Proposed Mileage | Total | Classification |
|---|------------------|------------------|-------|----------------|
| Central Pierce BPA | | 13.7 | 13.7 | Connector |
| Clover Creek Community Trail | | 9.5 | 9.5 | Connector |
| Cushman Trail | 5.9 | 25.4 | 31.3 | Regional |
| Dupont/Nisqually Trail | 0.9 | 16.9 | 17.8 | Regional |
| Eatonville Community Trail | | 26.4 | | Connector |
| Fennel Creek Trail | 1.0 | 7.1 | 8.1 | Connector |
| Foothills Trail | 21.4 | 29.1 | 50.5 | Regional |
| Frederickson Community Trail | | 13.0 | 13.0 | Connector |
| Graham Community Trail | | 7.8 | 7.8 | Connector |
| Hylebos Trails | 0.3 | 2.0 | 2.3 | Connector |
| Interurban Trail-Edgewood | 0.8 | 1.1 | 2.0 | Connector |
| Interurban Trail-Milton | 2.9 | | 2.9 | Connector |
| Interurban Trail - Connect to Sumner Link | | 1.1 | | Connector |
| Lakeland Hills Trail | 2.8 | 0.9 | 3.7 | Connector |
| Midland Community Trail | | 2.3 | 2.3 | Connector |
