

Water Quality Program

Permit Submittal Electronic Certification

Permittee: PIERCE COUNTY SW

Permit Number: WAR044002

Site Address: 930 TACOMA AVE S POLICE GARAGE
Tacoma, WA 98402

Submittal Name: MS4 Annual Report Phase I City County

Version: 1

Due Date: 3/31/2020

Questionnaire

Number	Permit Section	Question	Answer
1	S9.D.6	Attach a notification of any annexations, incorporations or jurisdictional boundary changes resulting in an increase or decrease in the Permittee's geographic area of permit coverage during the reporting period per S9.D.6.	Not Applicable
2	S5.A.1	Attach updated annual Stormwater Management Program Plan (SWMP Plan). (S5.A.1)	2020 Stormwater Management Pla_2_03272020111518
3	S5.A.2	Implemented an ongoing program to gather, track, and maintain information per S5.A.2, including costs or estimated costs of developing and implementing the SWMP?	Yes
4	S5.C.2.a	Maintained mapping data for the features listed in S5.C.2.a?	Yes
5	S5.C.2.b.i	Collected outfall size and material in accordance with S5.C.2.b.i (Required to begin no later than January 1, 2020)?	Yes
6	S5.C.2.b.iii	Completed mapping of known connections from the MS4 to a privately owned stormwater system S5.C.2.b.ii? (Required no later than August 1, 2023)	Not Applicable
7	S5.C.2.b.iv	Counties only: Mapped conveyances as described in S.5.C.2.a.v for 50% of areas outside the urban/higher density rural sub-basins, as described in S.5.C.2.b.iii? (Required by December 31, 2023)	Not Applicable
8	S5.C.3.a	Did you update your internal coordination agreement(s) or directives to facilitate compliance with this permit? (S.5.C.3.a) (Required by March 31, 2020)	Yes
8a	S5.C.3.a	If yes, attach a written description of internal coordination mechanisms. (S5.C.3.a)	EO_2017-01_Stormwater Manageme_8a_030220 20140653
9	S5.C.3.b.i	Implemented coordination mechanisms clarifying roles and responsibilities for control of pollutants between physically interconnected MS4s per S5.C.3.b.i?	Yes

10	S5.C.3.b.ii	Coordinated stormwater management activities for shared waterbodies among Permittees and Secondary Permittees, as necessary to avoid conflicting plans, policies and regulations? (S5.C.3.b.ii)	Yes
11	S5.C.4.a	Describe in Comments field opportunities created for the public, including overburdened communities, to participate in the decision making processes involving the development, implementation and updates of the SWMP and SMAP (SMAP applies to Counties). (S5.C.4.a)	Direct contact with businesses and residents through inspections and investigations, on ways to become involved with the process of developing the SWMP and permit compliance. The County coordinates with other programs, including watershed councils that support salmon recovery, who have a more direct nexus with overburdened communities, such as Tribal governments.
12	S5.C.4.b	Posted the updated SWMP Plan and latest annual report on your website no later than May 31? (S5.C.4.b)	Yes
12a	S5.C.4.b	NOTE website address in Comments field.	https://www.co.pierce.wa.us/1855/Managing-Stormwater-Runoff
13	S5.C.5.b.iii	Submitted draft enforceable requirements, technical standards and manual to meet site and subdivision-scale requirements of S5.C.5.a to Ecology no later than July 1, 2020. (S5.C.5.b.iii)	Not Applicable Comment: We are currently on schedule with the update to our Stormwater Management and Site Development Manual and expect to meet this deadline.
14	S5.C.5.b.iv	Adopted or updated, and made effective the Ecology-approved enforceable requirements, technical standards and manual to meet site and subdivision-scale requirements of S5.C.5.a no later than July 1, 2021? (S5.C.5.b.iv)	Not Applicable Comment: We are currently on schedule with the updated to our Stormwater Management and Site Development Manual and expect to meet this effective date.
15	S5.C.5.a.i, and Section 5 of Appendix 1	Number of adjustments granted to the minimum requirements in Appendix 1? (S5.C.5.b.i, and Section 5 of Appendix 1)	40 Comment: Minor adjustments were made when it was possible to achieve equivalent environmental protection.
15a.	S5.C.5.a.i, and Section 5 of Appendix 1	Number of adjustments granted to minimum requirement #5?	0
16	S5.C.5.b.i, and Section 6 of Appendix 1	Number of exceptions/variances granted to the minimum requirements in Appendix 1? (S5.C.5.b.i, and Section 6 of Appendix 1)	0

17	S5.C.5.a.v(a)	Reviewed Stormwater Site Plans per S5.C.5.b.vi.(a).	Yes
17a	S5.C.5.a.v(3)	Number of stormwater site plans reviewed during the reporting period?	2130
18	S5.C.5.b.vi.(b)	Inspected, prior to clearing and construction, permitted development sites per S5.C.5.b.vi.(b)?	Yes Comment: Since 1991 Pierce County policy has required both Preliminary Site Inspections and on site pre-construction meetings for all proposed subdivisions and commercial development projects. On June 28, 2010 we implemented screening and preliminary site inspections for single family projects with a high potential for sediment transport and we have completed the preliminary inspections for all projects identified as triggering the requirement since implementation.
19	S5.C.5.b.vi.(c)	Inspected permitted development sites during construction to verify proper installation and maintenance of required erosion and sediment controls per S5.C.5.b.vi.(c)?	Yes Comment: Pierce County has completed erosion control installation and monitoring inspections for all permitted site development projects since 1991. Site development permits have been required for all individual single family homes since 1997. In 2019 this amounted to a total of 2,845 inspections verifying initial installation of erosion control measures and an additional 5,526 Check Compliance inspections to monitor maintenance of erosion control measures throughout construction.
20	S5.C.5.b.vi.(d)	Inspected stormwater treatment and flow control BMPs/facilities and catch basins in new residential developments every 6 months per S5.C.5.b.vi.(d)?	Yes Comment: Development Engineering completed 297 post construction inspections on 194 total projects which were in the Performance Monitoring phase during at least part of 2019.

21	S5.C.5.b.vi(e)	Inspected permitted development sites upon completion of construction and prior to final approval or occupancy to ensure proper installation of stormwater facilities per S5.C.5.b.vi(e)?	Yes Comment: Pierce County has required and completed final site development inspections for all general site development projects permitted since 1991, and for all single family site development projects permitted since November 15, 2000. Installation of permanent stormwater measures/facilities and final site stabilization have always been required elements of these inspections. Reliable mechanisms are in place to insure that projects do not receive final approval or occupancy until they pass these required site development inspections.
22	(S5.C.5.b.vi(e))	Verified that a maintenance plan is completed and responsibility for maintenance is assigned for stormwater treatment and flow control BMPs/facilities prior to final approval and occupancy being granted? (S5.C.5.b.vi(e))	Yes Comment: Maintenance responsibility is determined during the stormwater site plan review process and agreements are put into place typically prior to permit issuance, but no later than building occupancy or final project approval.
23	(S5.C.5.b.vi(b)-(e))	Number of enforcement actions taken during the reporting period (based on construction phase inspections at new development and redevelopment projects)? (S5.C.5.b.vi(b)-(e))	128 Comment: 128 permit suspensions occurred in 2019. While suspending the permit is technically step 2 in our enforcement process, this step is always taken in conjunction with Step 1. This indicates that enforcement action against permitted projects was initiated 128 times in 2019.
24	S5.C.5.a.vi	Achieved at least 80% of scheduled construction-related inspections? (S5.C.5.b.vi.(e))	Yes Comment: 99.977% Completion rate

25	S5.C.5.a.vii	Made Ecology's Notice of Intent for Construction Activity and Notice of Intent for Industrial Activity available to representatives of proposed new development and redevelopment? (S5.C.5.b.vii)	Yes Comment: Our initial response to project proponents includes an explanatory paragraph about Construction Stormwater General Permits and Industrial Stormwater General Permit as well as links to the Notice of Intent forms.
26	(S5.C.5.b.viii)	All staff whose primary job duties are implementing the program to control stormwater runoff from new development, redevelopment, and construction sites are trained to conduct these activities? (S5.C.5.b.viii)	Yes Comment: All Development Engineering review engineers are trained and experienced with the requirements mandated under the current stormwater management manual. Likewise, our site development inspectors maintain current CESCL certifications, all inspectors hired since 1998 have been required to complete the Development Engineering Inspector Training Program and all are qualified and experienced inspectors. Ongoing Stormwater Manual and NPDES training is provided to Development Engineering Technical Staff as opportunities arise.
36	See S5.C.6.c.i.	Continue to design and implement local development-related codes, rules, standards, or other enforceable documents to minimize impervious surfaces, native vegetation loss, and stormwater runoff, where feasible? See S5.C.6.c.i. (Required annually)	Yes
37	S5.C.6.c.i.(a)	From the assessment described in S5.C.6.c.i.(a), did you identify any administrative or regulatory barriers to implementation of LID Principles or LID BMPs.	No
43	S5.C.7.c	Submitted a list of planned, individual projects scheduled for implementation during this permit term with the information and formatting specified in Appendix 12? (S5.C.7.c)	Yes
43a	S5.C.7.c	Attach an updated list annually. (S5.C.7.c)	Q43_2019_43a_031120 20092608
45	S5.C.8.b.ii	Updated inventory to identify commercial and industrial properties which have the potential to generate pollutants to the Permittee's MS4 per S5.C.8.b.ii? (Required once every five years.)	Yes

45a.	S5.C.8.b.ii	Number of total sites identified for inventory?	1660
46	S5.C.8.b.iii and S5.C.8.b.iv	Attach a summary of actions taken to implement the source control program per S5.C.8.b.iii and S5.C.8.b.iv.	Q46_2019_46_03112020092623
47	S5.C.8.b.iii	Attach a list of inspections, per S5.C.8.b.iii, organized by the business category, noting the amount of times each business was inspected, and if enforcement actions were taken.	Q47_2019_47_03112020092624
48	S5.C.8.b.v	Implemented an ongoing source control training program per S5.C.8.b.v?	Yes
49	S5.C.8.b	Continued to implement the regulatory mechanisms to effectively prohibit illicit discharges into the MS4 per S5.C.9.b	Yes
50	S5.C.9.b	Implemented procedures for conducting illicit discharge investigations in accordance with S5.C.9.b?	Yes
50a.	S5.C.9	Cite field screening methodology used in the Comments field.	Pierce County Public Works Surface Water Management, Illicit Discharge Detection and Elimination Field Screening Procedures, April 2016 Comment: Pierce County Public Works Surface Water Management, Illicit Discharge Detection and Elimination Field Screening Procedures, April 2016
51	S5.C.9	Provide the percentage of conveyance systems screened in reporting year per S5.C.9.c.i(a). (Required to screen 12% each year.)	32
51a.	S5.C.9	Cite field screening techniques used to determine percent of MS4 screened.	Maintenance and Operations staff inspect all of the drainage structures in the County's MS4 every year and as part of the inspection staff note any potential IDDE's. IDDE staff conduct field screenings in TMDL areas. Information collected includes length of MS4, mainline pipe, and open channel inspected in miles. To determine percentage of MS4 screened, staff includes percentage of catch basins cleaned combined with percentage of MS4 screened (including mainline pipe and open channel).

52	S5.C.9	Percentage of total MS4 screened from permit effective date through the end of the reporting year?	32%
53	S5.C.9	How is your hotline telephone number being publicized?	Water pollution hotline telephone number (253-798-4274) is published on Pierce County SWM Water Quality website (https://www.co.pierce.wa.us/1851/Water-Quality), inspector business cards, and after hours voicemail messages.
54	S5.C.9	Implemented an ongoing illicit discharge training program for all municipal field staff per S5.C.9.c.iii?	Yes
55	S5.C.9	Implemented an ongoing program to characterize, trace, and eliminate illicit discharges into the MS4 per S5.C.9.d?	Yes
56	S5.C.9.e	Trained staff responsible for illicit discharge detection and elimination activities per S5.C.9.e?	Yes
57	S5.C.9.f	Participated in a regional emergency response program, or implemented procedures to investigate and respond to spills and improper disposal? (S5.C.9.f)	Yes
58	S5.C.9.g	Attach a report with data describing the actions taken to characterize, trace, and eliminate each illicit discharge reported to, or investigated by, the permittee as described in S5.C.9.g. The submittal must include all of the applicable information and must follow the format described in Appendix 14.	Q58_2019_58_03202020122938
59	S5.C.10.a	Implemented maintenance standards that are as protective, or more protective, of facility function than those specified in the Stormwater Management Manual for Western Washington? (S5.C.10.a)	Yes
60	S5.C.10.a	Updated maintenance standards per S5.C.10.a no later than June 30, 2021?	Not Applicable
61	S5.C.10.a	Applied a maintenance standard for a facility or facilities which do not have maintenance standards specified in the Stormwater Management Manual for Western Washington? If so, note in the Comments field what kinds of facilities are covered by this alternative standard. (S5.C.10.a)	Not Applicable
62	S5.C.10.a.ii	Verified that maintenance was performed per the schedule in S5.C.10.a.ii when an inspection identified an exceedance of the maintenance standard.	Yes
62a	S5.C.10.a.ii	Attach documentation of maintenance time frame exceedances that were beyond the Permittee's control.	Not Applicable

63	S5.C.10.b.i	Evaluated and, if necessary, updated the existing ordinances or other enforceable documents requiring maintenance of all stormwater treatment and flow control BMPs/facilities (including catch basins that are part of the facilities) regulated by the Permittee. (S5.C.10.b.i)	Yes
63a	S5.C.10.b.i	If updated, cite ordinance or other enforceable document.	Not Applicable
64	S5.C.10.b.ii	Implemented an ongoing inspection program for stormwater treatment and flow control BMPs/facilities regulated by the Permittee per S5.C.10.b.ii.	Yes
65	S5.C.10.b.ii	If using reduced inspection frequency on stormwater treatment and flow control BMPs/facilities regulated by the Permittee for the first time during this permit cycle, attach documentation per S5.C.10.b.ii.	Not Applicable
66	S5.C.10.b.iii	Achieved at least 80% of inspections required per S5.C.10.b.ii and iii? (S5.C.10.b.iv)	Yes
67	S5.C.10.c.i	Number of known municipally owned or operated stormwater treatment and flow control BMPs/facilities? (S5.C.10.c.i)	830
67a	S5.C.10.c.i	Number of municipally owned or operated stormwater treatment and flow control BMPs/facilities inspected during the reporting period? (S5.C.10.c.i)	830
67b	S5.C.10.c.i	Number of municipally owned or operated stormwater treatment and flow control BMPs/facilities for which maintenance was performed during the reporting period? (S5.C.10.c.i)	637
68	S5.C.10.c.i	If using reduced inspection frequency for municipally owned or operated stormwater treatment and flow control BMPs/facilities for the first time during this permit cycle, attach documentation per S5.C.10.c.i.	Not Applicable
69	S5.C.10.c.ii	Conducted spot checks and inspections, if necessary, of potentially damaged stormwater treatment and flow control BMPs/facilities after major storm events? (S5.C.10.c.ii)	Yes
70	S5.C.10.c.iii	Achieved at least 95% of required inspections per S5.C.10.c.iii?	Yes
71	S5.C.10.d.i	Inspected municipally owned or operated catch basins and inlets every year or used an alternative approach? (S5.C.10.d.i)	Yes
71a.	S5.C.10.d.i	Number of known catch basins?	25053
71b.	S5.C.10.d.i	Number of catch basins inspected during the reporting period?	24997
71c.	S5.C.10.d.i	Number of catch basins cleaned during the reporting period?	7304
71d.	S5.C.10.d.i	Attach documentation of alternative catch basin inspection approach, if used. (S5.C.10.d.i.(a)-(c))	Not Applicable
72	S5.C.10.d.iii	Achieved at least 95% of required catch basin inspections? (S5.C.10.d.iii)	Yes

73	S5.C.10.e	Implemented practices, policies, and procedures to reduce stormwater impacts per S5.C.10.e?	Yes
74	S5.C.10.e	Documented practices, policies, and procedures to reduce stormwater impacts per S5.C.10.e?	Yes
74a	S5.C.10.e	Cite documentation in the comments	Regional Road Maintenance Guidelines, 2002 https://www.co.pierce.wa.us/2856/Our-Commitment-to-the-Environment
75	S5.C.10.f	Implemented an ongoing training program per S5.C.10.f?	Yes
76	S5.C.10.g	Implemented a Stormwater Pollution Prevention Plan for all heavy equipment maintenance or storage yards, and material storage facilities per S5.C.10.g?	Yes
77	S5.C.11	Did you choose to adopt one or more elements of a regional program? (S5.C.11)	Yes
77a	S5.C.11	If yes, list the elements, and the regional program.	Pierce County participates in Puget Sound Starts Here (PSSH) campaign aimed at the impacts of stormwater on surface waters. In 2019, Pierce County and other partners did an ad buy with Comcast to create advertisements throughout Puget Sound explaining how simple, individual behavior changes add up to big impacts on stormwater and surface water. PSSH also implemented an "Orca Hero" program linking recent media coverage of the orca population with stormwater BMPs.
78	S5.C.11	Attach description of public education and outreach general awareness efforts conducted, including your target audiences and subject areas, per S5.C.11.a.i.	Q78_2019_78_0311202 0103414

79	S.5.C.11.a.iii	Conducted an evaluation of the effectiveness of the ongoing behavior change program and documented recommendations as outlined in S.5.C.11.a.iii (Required to submit no later than July 1, 2020).	Not Applicable Comment: This is in process and expected to be completed by the due date. The ability of Pierce County to meet this deadline may be impacted by the pandemic. If we are unable to meet this due date due, the County will submit a G20 in a timely manner citing the pandemic as the reason.
80	S5.C.11.a.iv	Developed a behavior change campaign that is tailored to the community, in accordance with S5.C.11.a.iv? (Required no later than February 1, 2021)	Not Applicable Comment: This is in process and expected to be completed by the due date.
81	S5.C.11.a.iv	Began implementing strategy outlined in S.5.C.11.a.iv. (Required by April 1, 2021 – S.5.C.11.a.v)	Not Applicable
82	S5.C.11.a.vi	Attach the report developed in accordance with S5.C.11.a.vi, which evaluated the changes in understanding and adoption of targeted behaviors resulting from the implementation of the strategy and any planned or recommended changes to the program in order to be more effective. (Required to submit no later March 31, 2024)	Not Applicable
83	S5.C.11.b	Promoted stewardship opportunities (or partnered with others) to encourage resident participation in activities such as those described in S5.C.11.b?	Yes
83a	S5.C.11.b	Attach a list of stewardship opportunities promoted.	Q83a_2019_83a_03112 020093153
84	S7.A	Complied with the Total Maximum Daily Load (TMDL)-specific requirements identified in Appendix 2? (S7.A)	Yes
84a	S8.A	List any requirements that were not met.	Not Applicable
85	S8.B.1.a	For TMDL listed in Appendix 2: attach a summary of relevant SWMP and Appendix 2 activities to address the applicable TMDL parameter(s). (S7.A)	Q85_2019_85_0320202 0121059
86	S8.B.1.b.iii	Submitted payment for cost-sharing for Stormwater Action Monitoring (SAM) status and trends monitoring no later than December 1, 2019 (S8.A.1); and no later than August 15 of each subsequent year? (S8.A.2.a)	Yes
87	S8.B.2.a	Notified Ecology by December 1, 2019 which option you selected: S8.A.2.a, or S8.A.2.b; Clark County: S8.A.3.b.i or S8.A.3.b.ii?	Yes
88	S8.B.2.b	Clark County: Submitted a revised, completed QAPP no later than June 30, 2020 (S8.A.3.a)?	Not Applicable
89	S8.C.1	Clark County: Submitted a revised site verification report, Table 6, and Figure 2 for the LC Urban Streams QAPP by September 30, 2019?	Not Applicable

90	S8.C.2.c	Clark County: Submitted a revised extended monitoring report, Table 7 and Table 11 for the LC Urban Streams QAPP by March 31, 2020?	Not Applicable
91	S8.C.2	Submitted payment for cost-sharing for SAM effectiveness and source identification studies no later than December 1, 2019 (S8.B.1); and no later than August 15 of each subsequent year? (S8.B.2.a or S8.B.2.c)	Yes
92	S8.C.3.a	Notified Ecology by December 1, 2019 which option you selected: S8.B.2.a, or S8.B.2.b, or S8.B.2.c?	Yes
93	S8.C.3.b.i	If conducting a study per S.8.B.2.c, submitted a detailed effectiveness study proposal to Ecology no later than February 2, 2020? (S8.B.2.c.ii(a))	Not Applicable
94	S8.C.3.b.ii	If conducting a study per S.8.B.2.c, submitted a QAPP to Ecology within 120 days of Ecology's approval of the detailed effectiveness study proposal? (S8.B.2.c.ii.(b))	Not Applicable
95	S8.C.3.b.iii	If conducting a study per S.8.B.2.c, began full implementation of the effectiveness in accordance with the schedule in the approved QAPP, and submitted required reports? (S8.B.2.c.ii.(c))	Not Applicable
96	S8.C.3.b.iv	Clark County and City of Tacoma: Submitted data and final report on stormwater discharge monitoring conducted pursuant to S8.B.2 (Clark County) and S8.C Effectiveness Studies Option #2 (Tacoma) in the Phase I Municipal Stormwater Permit August 1, 2013 – July 31, 2018? (Extended to July 31, 2019) (S8.C.1; due June 30, 2020)	Not Applicable
97	S8.D	If conducting stormwater discharge monitoring in accordance with S8.C.2, submitted a QAPP to Ecology no later than February 1, 2020? (S8.C.2.c and Appendix 9)	Not Applicable
99	G3	Notified Ecology in accordance with G3 of any discharge into or from the Permittee's MS4 which could constitute a threat to human health, welfare or the environment? (G3)	Yes
100	G3.A	Took appropriate action to correct or minimize the threat to human health, welfare, and/or the environment per G3.A?	Yes
101	S4.F.1	Notified Ecology within 30 days of becoming aware that a discharge from the Permittee's MS4 caused or contributed to a known or likely violation of water quality standards in the receiving water? (S4.F.1)	Not Applicable
102	S4.F.3.a	If requested, submitted an Adaptive Management Response report in accordance with S4.F.3.a?	Not Applicable
103	G20	Notified Ecology of the failure to comply with the permit terms and conditions within 30 days of becoming aware of the non-compliance? (G20)	Not Applicable
104	G20	Number of non-compliance notifications (G20) provided in reporting year? List permit conditions described in non-compliance notification(s) in Comments field.	Not Applicable

I certify under penalty of law, that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Attestation Agreed to at Signing:

I certify I personally signed and submitted to the Department of Ecology an Electronic Signature Agreement. I understand that use of my electronic signature account/password to submit this information is equal to my written signature. I have read and followed all the rules of use in my Electronic Signature Agreement. I believe no one but me has had access to my password and other account information.

I further certify: I had the opportunity to review the content or meaning of the submittal before signing it; and to the best of my knowledge and belief, the information submitted is true, accurate, and complete. I intend to submit this information as part of the implementation, oversight, and enforcement of a federal environmental program. I am aware there are significant penalties for submitting false information, including possible fines and imprisonment.

EXECUTIVE ORDER NO. 2017-01,
Concerning Effective Stormwater Management
Pierce County, Washington

This Order requires and empowers Pierce County Departments to fully implement all applicable provisions of the NPDES Phase I Municipal Stormwater Permit issued to Pierce County. It is the intent of this Order that Pierce County departments coordinate, implement, track, and report specific actions required by the Permit. It is further the intent of this Order that Pierce County exercises its role in reducing polluted runoff into and out of County drainage systems, facilities and properties to the maximum extent practicable to protect Pierce County's surface and ground water resources and to continue to be a leader for water quality in the Puget Sound Region.

WHEREAS, polluted runoff is a leading cause of impairment of Pierce County's waterbodies; and

WHEREAS, waterbody impairment negatively affects beneficial uses of surface waters, including people, fish, shellfish, and wildlife, and hinder sustainable and livable communities; and

WHEREAS, effective control and reduction of polluted runoff is essential for ecological and economic health; and

WHEREAS, Pierce County has operated under a federal Clean Water Act, National Pollutant Discharge Elimination System (NPDES) Phase I Municipal Stormwater Permit since 1995 which requires a program to reduce negative effects of polluted runoff; and

WHEREAS, Pierce County invests millions of dollars annually towards implementation of the NPDES Permit and implements other local programs aimed at improving water quality; and

WHEREAS, Pierce County intends to fully meet its NPDES Stormwater Permit responsibilities and immediately take actions to enhance its implementation as needed;

NOW THEREFORE, I, Bruce Dammeier, Pierce County Executive, do hereby order and direct all Pierce County departments to implement the following to ensure Pierce County's full and continuing compliance with its municipal stormwater permit, to prevent or reduce polluted runoff into and out of County drainage systems, facilities, and properties, and to continue to be a leader for water quality in the Puget Sound Region:

1. Organization

- a. The Surface Water Management Division of Planning and Public Works shall be County policy and administrative lead on the NPDES Stormwater Permit and shall also be responsible for reporting, including the County's overall annual report to the Department of Ecology, and evaluating permit compliance as well as lead for monitoring, inspections, training, outreach, internal technical assistance, maintenance and development standards, illicit stormwater discharge response, and intra- and inter-jurisdictional coordination.
- b. Each affected department of the County that owns assets or conducts actions regulated under the Permit or whose activities or programs could support its water quality goals shall be responsible for understanding and fully implementing the requirements of the municipal stormwater Permit and for integrating compliance activities into departmental programs and plans.
- c. Each department engaging in any activity or program that may be subject to or could support the municipal stormwater Permit shall designate a municipal Permit lead who will assist Surface Water Management in analyzing the Permit for its applicability to the department's programs and activities.
- d. Each department having assets or activities regulated by the Permit shall fully comply with all applicable Permit requirements, including, but not limited to, site development, construction oversight, source control, record keeping, tracking and reporting, and staff training.
- e. Each department having assets or activities regulated by the Permit shall fully coordinate and respond to reports, records, policies and procedural inquiries conducted by Surface Water Management in fulfilling its duties as County Permit lead.

2. Oversight of County Construction Projects

- a. Every County department or division that conducts construction activities regulated under the NPDES Phase I Municipal Stormwater Permit or under the NPDES Construction Sites Permit shall continue to fully implement all applicable requirements for onsite Erosion and Sedimentation Control (ESC) lead designation and Stormwater Pollution Prevention Plan development, training, onsite inspection, and monitoring report requirements.
- b. Each County department or division that conducts construction activities regulated under the NPDES Phase I Municipal Stormwater Permit or under the NPDES Construction Sites Permit shall exercise provision 1-09.9 (page 1-94, WSDOT 2012 Standard Contract Specifications), or equivalent, to withhold payment in the event the contractor fails to fully meet terms of the NPDES Phase I Municipal Stormwater Permit or the NPDES Construction Sites Permit for the County's construction project.

3. Pollution Prevention and Source Control
 - a. Every County department or division that owns lands, structures or portions of the County's municipal separate stormwater sewer system shall implement pollution prevention and operational source control best management practices and if necessary, structural source control best management practices.
4. Designation of County NPDES Stormwater Permit Training Coordinator
 - a. There is hereby designated a full time NPDES Stormwater Permit Training Coordinator in Surface Water Management Division. The duties of the Training Coordinator shall be to develop, deliver, evaluate, track, and report NPDES Stormwater Permit related training for County staff, tenants of County facilities, and others as applicable.
5. This Executive Order supersedes EO 2008-01 and EO 2012-01

Effective Date: July 13, 2017

Bruce F. Dammeier, Pierce County Executive

Structural Stormwater Control Projects, Appendix 11 of NPDES Permit #WAR04-4022, 2019 through 2024 (as of Dec 31st)

Question 46:

Attach a summary of actions taken to implement the source control program, per S5.C.8.b.iii and S5.C.8.b.iv

Pierce County's Municipal Stormwater Phase I permit source control program identifies residential, commercial and industrial sites that are potentially pollutant-generating. Pierce County Code 11.05 (PCC 11.05) requires the implementation of measures described in the Pierce County Stormwater and Site Development Manual (PCSSDM) to achieve compliance and provides the legal authority for enforcement. Sites are inspected to identify both operational Best Management Practices (BMPs) and onsite drainage facilities to ensure that the appropriate operational and structural source control BMPs are in place and properly maintained. If BMPs are insufficient and/or require maintenance, verbal and written notice is given along with technical assistance, which details items that need to be done to achieve compliance. Follow-up inspections for all sites requiring maintenance or BMPs were instituted the last quarter of 2019. Failure to implement BMPs by the follow-up inspection triggered a warning letter and may proceed to enforcement actions. Below is a summary of actions taken in 2019 to continue implementing Pierce County's Source Control Program.

S5.C.8.b.iii

a. The County provided technical assistance during inspections, through follow-up letters, and during phone conversations. Letters contain specific references to County stormwater code and PCSSDM requirements. This information will continue to be provided over the permit term.

b. In 2019, Pierce County's updated source control inventory stood at 1,660, which included sites that discharge to the County's MS4 and to ground. These sites have some activity on-site that could be pollution-generating and therefore are in our database on a schedule to be inspected within permit timelines. In 2019, Pierce County completed 1,384 site inspections for source control BMPs. Many of the County's sites have stormwater systems which receive annual inspections in accordance with the permit requirements, therefore the County will always inspect far more sites than the 20% required by the permit.

c. When a complaint is received by the County, it is logged into one of the County's databases, and the site is inspected by the County for compliance with BMPs.

S5.C.8.b.iv

Pierce County implements a progressive enforcement policy that requires commercial and industrial sites to come into compliance with stormwater requirement within a reasonable period as specified below. Records of actions taken in 2019 are retained electronically through a custom database and standard electronic files on a Microsoft Office-based system. Sites inspected in 2019 that failed to adequately implement required BMPs received technical assistance and letters containing educational materials that detailed the required BMPs and maintenance actions. Enforcement steps were applied at all facilities that failed to adequately implement BMPs in 2019 after a follow-up inspection. Pierce County Code 11.05 provides enforcement authority. Enforcement is progressive, beginning with a warning letter. Standard operating procedures and policies that are used to seek progressive enforcement were updated in 2017 to add clarity to enforcement progression. The Water Quality Inspections Policy was updated to an SOP flow chart in 2017 and will be the standard used for inspection follow-up and enforcement referrals in 2019. Electronic database records are kept as described above. The files contain all applicable inspection results, letters, follow-up inspections details, warning letters and referrals to the compliance team for further enforcement actions. Records that are not inspected because the property owner denies entry are maintained. [S5.C.8.iv(c)]. In 2019, Pierce County did not refer non-emergency violations of local

ordinances to Ecology. Staff receive ongoing and follow-up training during staff meetings, internal trainings, and external trainings. The content of these trainings may include any or all of the following: legal authority, source control BMPs and their application, inspection protocols, lessons learned, typical cases, and enforcement procedures.

2019 Stewardship Volunteer Events advertised by three watershed council email lists, website or social media
VIA EMAIL:

2019 Parks Appreciation Day

Saturday, April 27th from 9am-Noon

Give back to public parks! Help beautify parks throughout Pierce County at this annual event. Find a park near you to volunteer: <https://www.metroparkstacoma.org/parks-appreciation-day-chip-in/> Individuals, families, and even large groups are invited to participate. Visit the Metro Parks website above for details.

Become a Tree Steward

Become a recognized Tree Steward with the Tacoma Tree Foundation. During this 4-class program, participants will learn best practices for planting and caring for young trees, how to talk to your neighbors about trees, how to organize tree planting events, and how to access available resources. This free training program is coordinated and led by Tacoma Tree Foundation with support from the City of Tacoma Office of Environmental Policy and Sustainability Small Grants Program and the Puyallup Watershed Initiative Forest COI. Space is limited, When? Tuesdays at 5:45pm at the **Moore Public Library at 215 S. 56th Ave in Tacoma from 5:45-7:45 on April 30, May 7, May 14, and May 21.** Also held on Thursdays at 11am at **Centro Latino at 1208 S. 10th St in Tacoma**

Free Workshops - Advance registration required

www.cityoftacoma.org/workshops ~ or call (253) 573-2426

Please register for the wait list if a session is full. You'll be notified if there's a cancellation or repeat session.

JULY *6-7 no workshops – 4th weekend*

13 - 10:30 a.m. Yard Waste & Worm Bin Composting

20 - 10:30 a.m. Preserving Your Harvest Year Round

27 - 10:30 a.m. Solar Power: How it Can Work for You

AUGUST

03 - 10:30 a.m. Preserving Food: Drying, Freezing

10 - 10:30 a.m. Electric Vehicles: Why Now; What to Know

Workshop Location: City of Tacoma EnviroHouse

Tacoma Recovery & Transfer Center (*former Landfill*)

3510 S. Mullen St., 98409 (*directions on EnviroHouse website*)

EnviroHouse Public Hours: Wed.-Fri. 10-5; Sat.-Sun. 11-5

[Adriana Hess Work Parties](#)

June 1, 2019, 9:00 AM - 12:00 PM @ Adriana Hess Wetland Park in University Place

The Adriana Hess Habitat Stewards work to maintain valuable open space at the Adriana Hess Wetland Park, which is home to the Tahoma Audubon Society. They get together the first Saturday of every month and would love to have your help! Currently recruiting for a Co-Habitat Steward position.

[Gilmur Grubbers Work Parties](#)

June 3, 2019, 9:00 AM - 12:00 PM @ Thelma Gilmur Park in Fircrest

The Gilmur Grubbers have taken on maintaining Thelma Gilmur Park, the only wetland park in Fircrest. The group meets the first Monday of each month from 9:00am to 12:00pm and would love to have you join them.

[Stream Team Training](#)

June 15, 2019, 9:00 AM - 12:00 PM @ Register for Exact Location

Looking for an opportunity to engage in your local watershed? Want to participate in citizen science? Or simply want to spend time outdoors? Stream Team might be for you! Looking for an opportunity to engage in your local watershed? Want to participate in citizen science? Or simply want to spend time outdoors? Stream Team might be for you! Stream Team monitors play a key role in stream stewardship by raising awareness of pollution problems and providing water quality data the community can use to protect local streams. Contact Belinda to sign up for the training at belindap@pierced.org

Stream Cleanup to Protect and Restore Clover Creek on Orca Day, 2019

On October 19, several volunteers met near the McChord Gate of JBLM to remove garbage that was clogging water flow in Clover Creek. They pulled out building materials, bedding, a shopping cart, mattress and other trash that would be carried downstream once the winter rains began. The City of Lakewood Shoreline Management Plan encourages creek restoration. Fish cannot spawn in gravel stream beds smothered in trash. So these folks

CCWC Stewardship Committee:

1 Planting salvaged native plants at the Springbrook Park is scheduled for 13 April, from 10-12 AM. - On 13 April, Renee, Kirk, Al and two other volunteers planted 25 native plants at Springbrook Park in Lakewood. Two days later the remaining 15 plants were dug in and watered.

2 A second work part is planned the following Sat on 20 April to cut ivy and clean the stream at the Roberson site along I-5. Lakewood police reported some tires are also in the stream.

3 The next volunteer project is planned for Sat, 22 June from 9 to noon at Springbrook Park. We will remove bind weed from the new native plants and water them. We may also remove ivy, clean the stream of toys and

4 Renee Buck will oversee the next volunteer "Fun in the Sun" project on 20 April, from 2-4 PM at the Roberson Site, 12301 Pacific Hwy. Volunteers will stop ivy from growing up tall trees and clean the creek area.

New: Clarks Creek Kids Club!

FOR IMMEDIATE RELEASE
August 30, 2019

Clarks Creek Kids Club Established

In conjunction with the mission of the Puyallup Historical Hatchery Foundation and in order to support the interests of children in preserving the historic hatchery and producing healthy trout and salmon in the Clarks Creek, a newly created Clarks Creek Kids Club was established on August 16, 2019.

In a ceremony to be held along the banks of Clarks Creek, the initial member and current leader of the Clarks Creek Kids Club, Alayna, will present certificates to three new members of the Club. Due to the restoration of the Puyallup Historical Hatchery, the ceremony will be held in front of a residence on Clarks Creek, at 237 McElroy Place in Puyallup on Monday, September 2, 2019 at 2:30 pm.

Alayna who is very interested in creating a healthy environment for the fish in Clarks Creek has big plans for the members of the Clarks Creek Kids Club. "I want to help save the Orcas by making sure they have more fish to eat," exclaimed Alayna. Alayna has already made plans for the members of the Clarks Creek Kids Club and is looking forward to the re-opening of the Puyallup Historical Hatchery in the coming months.

Clarks Creek Kids Club was created by the Puyallup Historical Hatchery Foundation, established in 2012, to support their mission to retain and improve the Historic Puyallup Fish Hatchery and promote watershed stewardship through education. The historic hatchery is operated by the Washington Department of Fish and Wildlife and has primarily been a provider of rainbow trout

for recreational fishing in regional lakes and ponds. In recent years, Coho and spring Chinook salmon have been added to the mix of species being raised at the hatchery.

Published by Krystal Kyer [?] · July 11, 2019 · ⚙️

Volunteers needed on July 27th! The Meeker Minions Habitat Stewards continue to work hard at maintaining and restoring the beautiful habitat at our Meeker Creek Restoration Site in Puyallup. The (self-named) Minions hold work parties the 2nd Saturday of every month from 9am to 12pm. Come lend a hand and learn how rewarding it is to be a Habitat Steward!

Greetings!

Every year, the Children's Water Festival brings students from around Pierce County for a day of learning about water, wildlife, and stewardship. We expect 700 5th graders to attend the 2020 Festival, and we need upwards of 100 volunteers to host activities, lead classes to those activities, and support the event in general. The Festival will be held on March 17th, 2020 at the University of Puget Sound in Tacoma and we hope you can be a part of it. Please use the link below to learn more about the event and to sign up to help.

From the Sierra Club's Ivy League: Come join us at one of these wonderful stewardship opportunities this fall! As always, please come dressed to get dirty, wear gloves, and bring plenty of water. Snacks, tools, and brief training will be provided by event organizers. Everyone is highly encouraged to explore our natural areas in greater Pierce County!

Saturday, Sept. 21 10am-Noon Spanaway Park
14905 Bresemann Blvd. S, Spanaway

Spanaway Park is a fun place to play, but it needs some tender loving care. We'll remove blackberry and English ivy from its shorelines and install some native plants along the shore. Volunteers will meet near the playground in the park.

Saturday, Oct. 26 10 am-Noon Parkland Prairie
Tule Lake Road S & Yakima Ave S, Tacoma

It's fall planting time out at Parkland Prairie. Join us to plant new trees and flowering shrubs, and remove invasive Scotch broom.

Saturday, Nov. 16 10 am-Noon Bresemann Forest
west of Sprinker Recreation Center on Military Road, Spanaway
Volunteers cleared the blackberry from the entrance way over the last couple of years. It's time to pull some English ivy and plant flowers.

Saturday, Dec. 7 10am-Noon China Lake
S. 19th St & S. Shirley St, Tacoma
Join us to pull out English ivy and other invasive plants along the eastern shore.

TBD in late December 10am-Noon Point Defiance
Probably removing English ivy and holly, but not sure yet

KGI Watershed Council General Meeting is scheduled for next Wednesday, February 13 from 3-5pm at the GH Fire District Headquarters on Bujacich. We look forward to see you all next week to talk about native plants!

WHY GO NATIVE?

You've heard about "Buy Local," why not give "Plant Local" a try too!

The Key Peninsula/Gig Harbor Peninsula/Islands Watershed Council presents two programs on how native plants are perfect for your home landscape plan.

(Blue elderberry)

GENERAL MEETING:
3-5 pm Wednesday,
February 13
at
Bujacich Fire Station,
10222 Bujacich Rd,
across from
McCormick Forest Park

Advantages of Native Plants - *Jayne Gordon, Pierce Conservation District*

Right Plant, Right Place - *Dana Bressette, Woodbrook Nursery*

Sehmel Homestead Park: A Case Study - *Karen Larson, Master Gardener*

Then we get real with gloves and clippers—

Saturday, Feb 16, 11to noon
NATIVE PLANT CARE
DEMONSTRATION
City Park at Crescent Creek

The Crescent Valley Alliance will host a hands-on workshop at the National Wildlife Schoolyard Habitat (off Vernhardson Street), where they have been caring for a variety of native plants. Experienced gardeners will share pruning and transplanting guidance. Discussion of a City Park Comprehensive Plan and landscape design will begin.

Find us on Facebook and on Pierce County's website:

2018	86th Street E Filterra	Publicly-owned	D413	7/16/2018	8/16/2018	100%	0.14	0.30	A facility inspection was performed and minor deficiencies were noted (raking and mulching). Follow-up corrective maintenance work was completed.
Pre-existing Stormwater Treatment Facilities (2003 to 2016) Total Credits 2018:							5.15	14.20	
2018	84th Street E Storm Filter	Publicly-owned	D419	7/18/2018	N/A	100%	2.15	9.10	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2018	67th Ave. E Storm Filter	Publicly-owned	D810	7/18/2018	N/A	100%	0.17	0.50	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2018	64th Ave. Court E Storm Filter	Publicly-owned	D811	7/19/2018	N/A	100%	0.20	0.40	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2018	Woodland Ave and 104th Street E Stormwater Treatment Wetland	Publicly-owned	D411	N/A	N/A	0%	N/A	N/A	No Credit, the facility was recently constructed, and it just came online during the fall of 2019. Reportable credits for the facility will be submitted with the 2020 report.
New Stormwater Treatment Facilities (2017 to 2019) Total Credits 2018:							2.52	10.00	
Total WLA Compliance Credits 2019:							13.67	38.80	

Clarks Creek TMDL: Pierce County Annual Waste Load Allocation Compliance Reporting Ledger, 2017-2019¹

Credit Year ²	Facility/Project Name	Facility Ownership	Asset ID Number	Inspection Date	Maintenance Date	Percent Credit	DO WLA Credit Submission (MG treated or removed) ³	Sediment WLA Credit (Tons per year) ⁴	Rationale for WLA Credit
2017	Canyon Creek P.D.D. Pond and BioSwale	Privately-owned	798	3/7/2017	N/A	100%	0.14	0.20	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	Courtney Ridge Estates Pond	Privately-owned	1103	3/7/2017	N/A	100%	0.40	0.80	Minor deficiencies recorded in the inspection notes. Recommendations for clearing vegetation from the pond bottom, surrounding berm, spillway and flow control structure. Maintenance occurred at time of inspection and corrected the identified deficiencies.
2017	Wysteria Condominiums Pond	Privately-owned	3289	10/19/2017	N/A	100%	0.23	0.40	This facility had no deficiencies recorded during the inspection. However, trimming vegetation around the pond and in the bioswale is conducted twice a year by the HOA's landscaping maintenance crew.
2017	Delano Park Pond	Privately-owned	3337	5/23/2017	N/A	100%	0.10	0.30	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	112TH Street E Pond # 1	Publicly-owned	SF390	11/15/2017	N/A	100%	0.45	0.90	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	112th Street E Pond # 2	Publicly-owned	SF391	11/16/2017	N/A	100%	0.95	1.90	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	Cassidy's Landing Pond	Publicly-owned	SF575	4/20/2017	N/A	100%	0.10	0.20	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	Woodland Ave. / 128th Street E Pond	Publicly-owned	SF153	8/31/2017	9/5/2017	100%	0.33	1.00	A facility inspection was performed and minor deficiencies were recorded. Corrective maintenance work was completed by Drain-Pro on September 2017.
2017	112th Ave E / 78th Ave E Stormwater Pond	Publicly-owned	SF576	8/15/2017	9/6/2017	100%	1.23	3.30	The annual facility inspection was performed and minor deficiencies were recorded. Corrective Maintenance for Noxious Weed Control (Spraying) was completed.
2017	Rody Pond Water Quality Cell Retrofit	Publicly-owned	SF188	7/31/2017	N/A	100%	0.35	3.30	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	59th Ave. Court E Storm Filter Vault	Publicly-owned	SF501	8/15/2017	1/4/2017	100%	0.038	0.10	A facility inspection was performed and no deficiencies were recorded, and no maintenance work was recommended. However, corrective maintenance work (pretreatment catch basin vactoring) was conducted.
2017	72nd Street E Storm Filter Vault	Publicly-owned	D416	8/21/2017	N/A	100%	0.65	1.40	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	87th Street E Filterra	Publicly-owned	D413	8/29/2017	N/A	100%	0.045	0.10	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	86th Street E Filterra	Publicly-owned	D413	8/29/2017	N/A	100%	0.14	0.30	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
Pre-existing Stormwater Treatment Facilities (2003 to 2016) Total Credits 2017:							5.15	14.20	
2017	84th Street E Storm Filter	Publicly-owned	D419	6/18/2017	N/A	100%	2.15	9.10	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	67th Ave. E Storm Filter	Publicly-owned	D810	6/19/2017	N/A	100%	0.17	0.50	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	64th Ave. Court E Storm Filter	Publicly-owned	D811	6/20/2017	N/A	100%	0.20	0.40	A facility inspection was performed and no deficiencies were noted, and no maintenance work was recommended.
2017	Woodland Ave and 104th Street E Stormwater Treatment Wetland	Publicly-owned	D411	N/A	N/A	0%	N/A	N/A	No Credit, the facility was recently constructed, and it just came online during the fall of 2019. Reportable credits for the facility will be submitted with the 2020 report.

New Stormwater Treatment Facilities (2017 to 2019) Total Credits 2017:	2.52	10.00	
Total WLA Compliance Credits 2019:	13.67	38.80	

¹ This Waste Load Allocation Compliance Ledger reports annual credit submissions for upland stormwater projects only. Sediment Reduction Credits associated with the two instream channel stabilization projects required by the County's TMDL Implementation Plan will be reported on the Administrative Order's Compliance Ledger due March 31, 2021.

² 2017 and 2018 Waste Load Allocation reductions (credits) occurred prior to the NPDES Phase I (Appendix II) Permit requirement for the Compliance Ledger, which took effect in August of 2019.

³ Estimated Waste Load Allocation compliance credits representing millions of gallons of stormwater treated based on the TMDL critical storm event of October 20-21, 2003.

⁴ Estimated Waste Load Allocation compliance credits annual average of sediment load reduced in tons.
